### THI GREAT ZINGARI BITTERS. A sure PreVentive

OF CHOLERA! THIS WONDERFUL REMEDY was discov-

S. Cheoleus, an emment Egyptian physician. He had long seen and felt the want of some rem-cly which would strike at the root of the disease, and so prevent much of the suffering which the human family was then compelled to endure.

This great question was presented to his mind every day in vivid colors as he moved among the

sick-and-dying, and observed the inefficiency of early all the remedies then in use. Thus he was e'ad to think and experiment; and after ten years o soney and labor, he presented to his fellow-man the wonderful Zingari Buters. The effect of this preptration in the prevention and cure of disease, was so marvelious and astonishing, that the most flattering marks of royal favor were bestowed upon him who discovered it. His name was placed upon the hoit or voldes, and a gold medal with the followig miscription-Ir. S. Cheopsus, the Public Benefactor-was presented to him by the Viceroy. The preparation has been used in several epidem ics of cholera, both as a preventive and curative measure, and with great-success, that it has been

introduced, into nearly all the general hospitals of the old world. The old saying that an ounce of trevention is worth a pound of cure, applies with marvellous force to cholera, and therefore any rem-

All pathologists now agree that the cholera pis monets on the system through the blood, and that any con bination which agts on the exerctory organs. and keeps them in working order, must prevent a sufficient accumulation of the poison to exert its temple off etc on the organism. This is true not only of cholers, but of nearly all other maladies, especially the different forms of lever.

The Zingari Butiers is just such a remedy as the shove conditions require. It acts on the organs of ex retion and secretion, keeping up a perfect bal-suce between them. This Bitters is composed entirely of roots and herbs, so nicely concocted that every organ is acted upon and put in tone. Its taste is pleasant and its offices prompt and lasting. Numerous cases of the following diseases have been cured by it: Coolera, Dearthoga, Dysentery, Typhoid and Typhus Fever, Fever Ague, Nervous Dibi iry, Anaemia. Hysyepsia, Flatulency, Colic, Screttiia, &c. Price \$1 per quart bottle Principal Depot at the Walnut street wharf, Harrisburg, I'a. Sold by Druggists, Hotelkeepers and Grocers.

## Improved Thrashing Machine!

Farmers will please look at the great advantage in Thrashing

# SELF-REGULATING GRAIN SEPARATOR.

CLEANER AND BAGGER.

With the latest Improved Triple-Geared Horse Power, driven either by Gear or Belt.

This Machine is conveniently arranged for hauling and threshing, being permanently fixed on two wheels. One man can easily move or shift it about, so that it is not half trouble in a barn floor as a common thrasher and shaker. It is also easily put in operation. It is simple, easily managed, eliable, durable, compact and cleanly to work by when in operation, not making near the dust as the common

which I hope they will give me an opportunity, as I am willing to be responsible if it does not perform as represented in this Circulat. No. I is a eight-horse power, with cast iron thresher frame and wrought iron and wood cylinder, six-

een inches in diameter and thirty three inches long. Trunk has ten inch rake crank and seven rakes, is thirty five inches wide, and telivers the straw on the second rike, these carry the straw out on their is thirty five inches wide, and letters the straw of the second rive feet beyond the teeder, on a stack tops, and deliver it on the stacker, which will deliver about thirty five feet beyond the teeder, on a stack fifteen to eighteen feet high, and can be easily managed to carry the chaff with the straw, or deliver it in a separate place. The trunk and fan sides being closed, to confine the straw and chall, remedies all difficulties in a centing grain against wings weather. It bags the grain by reasonable management, suf-difficulties in a centing grain against wings weather. It bags the grain by reasonable management, sufficiently clean for market, and its capacity, under ordinity circumstances, is from twenty to forty bushels per hour, using eight horses and the same number of hands; but to force the work under favorable circumstance, it will thresh from forty to fifty bushels per hour, and with more ease and agreeableness

to hands then any other machine now in common use.

The No. 2 Machine, tully represented in the above cut, is particularly a apted to the farmer's use; is intended to apply to any common lever or railway power; weighs 1,300 pounds; has an iron threster frame, and cylinder, 12½ inches in diameter as 1 48 inches fough delivers the clean grain in bags, or if desired, in a half bushel. It delivers the sraw fifteen feet from the tender, or if desired, can deliver the straw and chaif together; will thresh and clean, in good grain, residy for market, from 100 to 175 bushels of wheat, or from 300 to 5 0 bushels of oats per day, using four or s. horses, and the same number of hands; but to force the work, under most favorable circumstances, good a vin. &c., will thresh and clean considerably more. The Michine will thresh and clean all kinds of grain generally threshed with the ommon michine, and requires no more horse power, but in many cases does not run so hard. It will

Shop Prices of Machines range from \$210, to \$525. Lor warrant the machines to be as above represented; also against any reasonable defects of materia-

Having now taken a room to keep Repair Castings on hand, I have also selected and am prepared to furnish a variety of other agricultural implements, the latest and best improved and such as are less adapted to the wants of the larmers of this part of the country: Such as the Hagerstown Miller's) Clover Stemmer. Huller and Cleaner, which is proving by its own ments to be one of the best machines of the kind now in uses. The latest improved BUCKEYE RE PER AND WOW. ER combined, with Dropper, and the Mower alone. The American Jay Fork and Knife combined. Hay Rakes, Fodder Cutters, Cider Mills, &c. &c &c., which I will furnish on short notice and warrant them to answer the purposes for which they are intended.

Orders solicited and promptly attended to. For further particulars, circulars, &c. address

Read these certificates, hundreds of which could be published:

Four or five years ago, J. S. NIXON compound ed s Horse and Cattle Powder, and asked me to try it. I was the first farmer to whom it was given and the first one to use it for stock. I found it fully equal to what Mr. Nixon said of it, and I ha e used\_itextensively\_since,\_and\_heartily\_recommend-it to farmers as a sure thing in fattening stock of all kinds and a capital Powder for Hones.
MICHAEL EBERSOLE.

Chambersburg, Detember, 1865.

MR. J. S. Nixon .- To the multitude in this portion of our State, who have used your Cattle Powder, no commendation is necessary. Its beneficial effects have been fairly tested, and hence its unbounded popularity. I have used it for my horses and cows for several years past, and cannot afford to do without it. It keeps all kind of cattle in good condition, loosens the skin, smoothes the hair, and sharpens their app tites. As a preventive from disease, I regard it as involuable. Yours, &c., REV. B. S. SCHNECK.

Chambersburg, April, 1866. MR. J. S. NIXON - Dear Sir :-- I gave your Horse and Cattle Powder a fair trial with all my stock, Horses and cattle, and it improved them wonderfully. It speedily increased the richness of the milk of my cows, and improved the condition of my stock greatly.

the kind I have ever known or tried, for all kinds o stock, and it should be kept in every stable. Yours Ituly, A. K. McCLURE, Ed. Repository.
