

VILLAGE RECORD.

WAYNESBORO

Friday, August 2, 1867.

Governor Geary has designated Thursday, August 23rd, as the day of the execution of George W. Winmore, sentenced to be hung for the murder of Mrs. Magilton, of Philadelphia.

The evidence in the Surratt trial was closed on Saturday, and the argument before the jury commenced. The trial has already been in progress seven weeks, and will probably last the whole of this week.

The election in Tennessee for Governor, eight members of Congress and a State Legislature took place yesterday. Wm. G. Brownlow is the Union candidate for Governor, Rebel, or Conservative, Emerson B. Thoridge.

Sheridan has removed another Governor. Throckmorton, of Texas, has been "whirled" this time. The Hon. E. M. Pease, the new appointee, is a citizen of Austin, has a distinguished Union record, and was one of the delegates to his State to the celebrated Southern Union Convention held in Philadelphia last year.

The Asiatic cholera, in its most fatal form, is steadily and resistlessly moving eastward. The epidemic scourge commenced its march on the far-western boundaries of Kansas and has already gained the banks of the Mississippi. At Memphis, its furthest eastern point, it is known to be raging with violence. It is rumored that for the last week the deaths have numbered as high as fifty a day.

The indications are unmistakable that Mormonism is about to fall to pieces, weakened by the weight of its own corruption. Brigham Young has had a long career of uninterrupted crime. He and his immediate followers are now at daggers' points, and every day adds to the velocity of the downfall of Mormonism.

A very sharp controversy is going on among temperance men in New York State and others regarding hop growing. Hop it is argued, are made in beer, which is intoxicating, consequently hop-growers are identified with the cause of intemperance and workers together with Satan in destroying their fellow men. If it is immoral to raise hops, so it is to raise apples, corn, rye, grapes, carrots, beets, potatoes, &c., for of those severally intoxicating liquor can be distilled.

Not many weeks ago the telegraph informed the country that Mr. President Johnson had renounced all intoxicating drinks, not even indulging in the use of ale or beer.

We advised our temperance friends (says the Harrisburg Telegraph) not to take too much stock in the alleged reform in high place, and it seems from the following deplorable picture, by the correspondent of the Detroit Tribune, that we were about right. He says: "People often wonder whether the President still is in the habit of drinking. I can say positively that he does, that he is a steady, persistent brandy and whisky drinker, more than that, that the White House contains, for the first time since it was built, a drinking drunk family. The President is a steady drinker. He is what the temperance men call a 'moderate drinker.' His son Robert, who is one of his private secretaries, is a sot. He is beastly drunk for days together. His son-in-law, Senator Patterson, who lives in the White House, is a terrible drinker. He never gets drunk, but he is not far off from delirium tremens. He sallies from the Senate every hour or two to Whitney's restaurant to take a full tumbler of raw whisky. Nine men out of ten would die in a year of his habits. He swills enough raw whisky to slaughter a regiment of men, and yet continues to do duty as a Senator.

This is a truly deplorable picture, but it is nevertheless true. We can corroborate it by facts derived from personal observation, and when it is remembered that good men everywhere are laboring to promote the cause of temperance, the conduct of the man at the head of the nation, and his influence for evil alike on strangers and those who compose his immediate household, is sufficient to fill the country with shame.

NEW CURRENCY.—The Treasury Department, have in preparation and which will be issued in a few weeks a new denomination of currency, fifteen cents. The following is the description: The principle embellishments on the face are an engraved likeness of General Grant on the right hand, and Lieutenant General Sherman on the left.—The back of the note will be green with the figure "15" on each side of the note. The bronze figures which have been placed upon the various denomination of the United States currency will be omitted.

THE CHOLERA.—The Huntsville (Ala.) Independent says the mortality from cholera in Memphis is fifty per day.

Country papers report considerable cholera in the low grounds of the Lower Mississippi valley, the disease being chiefly confined to negroes.

The State Base Ball Convention of Pennsylvania will meet in Harrisburg on the second Thursday in October, being the 10th day of the month. It is expected that all the clubs in the State will be represented.

The rebels of Louisiana are drunk with joy at the prospect of Sheridan's removal.

Late news from the West of Ireland confirms the report of the terrible famine there prevailing. Many of the poor people have already died for want of food. It is literally a land without bread. To-day, they are calling on us for help, and it is a call that comes home to every man. It is the appeal of humanity. Ireland has never asked of us in vain—shall she do so now? That these people, famishing and dying, are thus nearing the grave, not by reason of their own reckless crime, not as a result of war invited by themselves, but by cause of centuries of systematic and organized oppression and wrong, should but endear them to us and double our sympathy and succor. Here is a chance for aiding Ireland better than ever extended by any Fesian subscription agent or lieutenant general. We presume that in a day or two the clergy will indicate some assured channel through which the contributions of the charitable and humans may flow to the relief of the Isle of the Saints.—Press.

Conservatives of Alabama. Gen. James H. Clanton, Chairman of the Conservative State Executive Committee, has officially suggested a State Convention, to be held at Montgomery, Ala., on the first Tuesday in September. The Montgomery Mail, a virulent Rebel sheet, comments as follows: Let every county send up large delegations of representatives, without regard to party or color. The colored people, in whose hands is the ballot, should have delegations present, to join in our deliberations, to hear the words of soberness and truth, and to be assured that our enemies lie in their throats when they charge us with designs upon the liberty or rights of the colored race. The Conservatives desire that Alabamians should rule Alabama, and that the two races should live together in peace, laboring together for the common prosperity of the land of our birth and homes.

Colored men of Alabama! The mothers who gave you birth were nursed by the whites. You have played with the whites in infancy and childhood. Your race is far fewer in number than that of the white race of the South. The welfare of your families, your employment, your daily bread, and whatever advantages and aid you may receive hereafter must come from the whites, who possess means and intelligence. Come together, then, in a conservative convention, and satisfy yourselves that the whites of the South mean and intend that you shall remain free, and possess your rights for all time! White men of Alabama! The welfare of your State, the safety of your property from a party which threatens violence and destruction, demands that you should lay aside all prejudice, if you possess any, and endeavor by all means to save your estates from devastation and your families from danger.—You must act upon things as you find them, in your efforts to avert terrible calamities. You must not, cannot hesitate to fight the Devil of Radicalism with the fire prepared by himself! Yield passion and prejudice to the dictates of prudence and safety! Now is the time for action.

DISSENSION AMONG THE SAINTS.—St. Louis, July 27.—Advice from Utah indicates that an irrepressible discord has broken out among the Saints, and that the problem of Mormonism will soon solve itself. Large numbers of anti polygamists have left Utah, bound for Nauvoo, Ill Brigham Young is being boldly denounced by many of his followers, and the sect is becoming rapidly demoralized. Two or three Sundays ago, Young, in a sermon at Cottonwood denounced Wm. Howard, a distiller, who immediately rose in the audience and branded Young's statement as false. Young then ordered Howard to be put out of the house, which was done, and subsequently told his hearers to tear down Howard's house and distillery, which, however, he failed to do. A day or two afterward, Howard sent Young a letter, demanding a retraction of his personal statements, or he would hold him personally responsible. It is said Young intends to move to the newly discovered gold mines.

The Prodigal going Home. WASHINGTON, July 29.—President Johnson, accompanied by Mrs. Stover and other members of his family, together, possibly, with one or two members of the Cabinet, propose a visit to Tennessee after the State election excitement there is over. Lookout Mountain is their destination, and they will probably remain there two weeks. General Grant left Long Branch and is on his way to Tennessee by special train from New York this morning, to give his personal attention to affairs in that State during the election excitement, which is represented to be intense, and a conflict between the opposing parties is imminent on Thursday.

A YOUNG MAN KILLS HIS MOTHER.—Cincinnati, July 26.—A shocking case of matricide occurred day before yesterday, at Chillicothe, O. A young man named Hunter was standing in front of a saloon with several companions, all very drunk, when Hunter's mother came to the party and implored her son to accompany her home. Suddenly he seemed seized with a frenzy, rushed into the street and picking up a heavy stone threw it into the group. The fatal missile struck his mother on the temple; she sank to the earth and died in ten minutes. Hunter and his companions were all arrested.

The Michigan Constitutional Convention has voted to strike out the word "male" in the new Constitution, thus admitting women to right of suffrage. It seems to be the impression, however, that on the final action the Convention will do as the New York Convention has done, deny suffrage to women, when women ask suffrage as protection to any of their rights, we presume it will be awarded. As the matter now stands, the great mass of women think the right to cast the ballot would not be only an actual injury to their interests as a sex, but to the country at large, inasmuch as but a small share would exercise that right, and those would be of that class of women, mainly, who wish to "wear the breeches."

Iowa has just a million of a population, a few more people than are contained in one of the cities of Pennsylvania.

LOCAL MATTERS.

FOR SALE.—A grain drill with gunn attachment, nearly as good as new, cheap.—Flanagan's make. Enquire at this office.

Attention is directed to the advertisement of Messrs. Metcalf & Hiteshaw, of Chambersburg, in to-day's paper.

ENCOURAGING.—The prospects for bountiful crops of corn and potatoes, in this region, were perhaps never more encouraging.

POPULAR AMUSEMENT.—The practice of Base Ball playing and Horse Shoe Pitching continues. The result will, no doubt, be a vigorous and robust population, in time.

IN BAD REPUTE.—Chambersburg Ale, owing to the scarcity or high price of Barley, is in rather bad repute among "tipplers" and "invalids" just now.

IN TOWN.—The chap who wore the "white hat" last winter was in town one day this week with a two-story and a half "black beaver." Our Devil thinks some people were born to be contrary.

Herings' Compound Syrup of Blackberry Root, for Diarrhea and Dysentery, for sale by F. Fourtman. We advise the afflicted to give this preparation a trial.

GROCERIES, etc.—It will be seen by reference to our advertising columns that C. H. Dickle, of the late firm of Lidy & Dickle is prepared to supply the public with groceries, flour, feedstuff, &c. &c.

PIC NIC.—The Pikeville Sabbath School will hold a Pic Nic in the woods near that place, on Saturday the 10th day of August. Several addresses may be expected on the occasion.

RIDING PARTIES.—This custom of years gone by is again being introduced in our town. A few evenings since a party of gentlemen and ladies, numbering some ten couple, took an evening jaunt on horseback to the country. The "parade" was quite imposing and attracted considerable attention.

INSURANCE.—Jos. Douglas, Esq., is authorized agent for insurance of all kinds. No one should hesitate to insure himself against loss by fire when insurance in good companies can be so easily had.

WHEAT IN VIRGINIA.—A gentleman in this vicinity who recently returned from a visit to the valley of Virginia gives a most encouraging account of the wheat crop. Wheat threshed in the vicinity of Winchester yielded as much as 82 bushels per acre.

CABBAGE THIEF.—Some white-livered thief entered our "truck patch" a day or two since and stole all our early Cabbage. The amount taken was of but little value, but we obligate ourself to pay any person \$10 who will "spot" the thief for us.

G. T. PIC NIC.—The Good Templar Pic Nic will come off on Thursday next, the 8th. We understand invitations have been extended to members of neighboring lodges to attend. Addresses by Rev. J. W. Wightman, D. W. Rowe, Esq., and Prof. C. Y. Wilson. Should the weather prove favorable a pleasant time may be anticipated.

ROCK PARTY.—We understand a large party of gentlemen and ladies from this place and vicinity, have decided upon a pleasure trip to Black Rock on Tuesday next. As Prof. Mitchell's "Blacksnake Den" is somewhere in that vicinity, we would advise the parties to be prepared with the necessary weapons of defence, including a little of "Downey."

THE LATE RAINS.—Since the delightful rains of Monday and Tuesday an agreeable change in the weather has been experienced, which for sometime previous had been exceedingly sultry and oppressive. The air is now pure and bracing, and the nights just cool enough for sound sleeping. A welcome change, to the puff, fat old gents and dames especially.

A "SELL".—The last Boonsboro Owl Fellow states that the skin of "Mrs. M. Ink," murdered by Jones and son, the horrible account of which we published last week, is being tanned for a pair of gloves. If any of our readers have been "sold" they will par-jon the joke. It was too good to be lost.—Should the Editor or his jour "Flaxy" come this way we would advise them not to make themselves known to some of our female population.

BERRIES.—Whortleberries have been retailing on our streets for several days at 8 and 10 cents per quart. The yield this season is said to be an unusual one, and promises quite a harvest to the Mountain lads and lasses. On account of the scarcity of fruit large quantities will doubtless be canned for winter use.

MATCH GAME.—The "First National Base Ball Club" of this place have accepted a challenge from the "Kangaroo Club" of Greencastle, to play a Match Game here tomorrow (Saturday) at 1 o'clock, P. M.

MARYLAND SENTIMENT.—In an article in Tuesday's New York Tribune on parties in Virginia, that paper "confidently asserts that there is far more of the secession virus today in the blood of Maryland or of Kentucky than in that of the Old Dominion."

RANCID BUTTER.—We cut from an exchange the following receipt. "To a pint of water add thirty drops (about half a tea-spoonful) of liquor of chloroform of lime. Wash in this two and a half pounds of rancid butter. When every particle of the butter has come in contact with the water, let it stand an hour or two; then wash the butter well again in pure water. The butter is then left without any odor, and has the sweetness of fresh butter. These preparations of lime have nothing injurious in them." The same paper says: "We forthwith obtained some of the most rancid butter and it was bad enough for any stomach that had more sensibility than a wagon wheel. We doctored it as per recipe, and then placed it on the table along with new, and good butter. Here is a fact worth a year's subscription to a paper."

NATIONAL CEMETERY.—The Philadelphia National Guards, who fought in the Battle of Antietam, held a meeting lately at their Armory and resolved unanimously to attend the Dedication of the Antietam National Cemetery.

We learn, that other Regiments from Pennsylvania will be in attendance.

The iron is now being laid upon the Washington County Railroad, and it is to be hoped that it will be finished to Hagerstown by the 17th of September next, thereby affording Railroad facilities from Hagerstown for the vast concourse of citizens and military who will be in attendance from Pennsylvania and other Northern States.

The people of Shersburg and vicinity should at once set themselves to work preparing an abundance of provision.—Hag. Herald.

PROFESSIONAL ENTERPRISE.—Our neighbors, Drs. Fritz & Stivey, manifest a commendable spirit of enterprise in keeping pace with the improvements in their profession. In view of the alarming increase of diseases of the throat and lungs they have spared no expense in getting the most approved apparatus for detecting and curing these diseases, and so far their treatment has proved eminently successful. With an instrument called the Laryngoscope they can see into the larynx and detect the slightest trace of disease in this organ. We are pleased to learn that they have entirely relieved our friend, Mr. J. S. Good, who had lost his voice for some months past, which had been the cause of a good deal of alarm to his friends.

W. M. RAILROAD.—The Western Maryland Railroad Company has put the grading of the road from Union Bridge to Mechanicstown, under contract. There are workmen employed on the various sections between the points above mentioned, and Capt. Gitt, Civil Engineer, is engaged in making a survey of the route West of Mechanicstown. The track will be laid during the present year to Mechanicstown. So says the Frederick Republican.

A WARNING.—A few days since Mr. John Rupert, a citizen of a neighboring county, who, with some other men, was working in a field, pulled up a root, which he supposed to be sweet myrrh, and after eating a small piece of it was taken with convulsions and died in a couple of hours. The plant is generally known as "wild parsnip," and can be found in abundance in almost any of the meadows or lowlands. In appearance, taste and smell it resembles sweet myrrh so closely, that it is difficult to distinguish them a part, and persons who are in the habit of hunting for sweet myrrh, should be extremely careful, lest some accident of the kind we have chronicled above should be the result.

ITALIAN BEES.—Mr. A. Snowberger, of this vicinity, informs us that he had an Italian Bee May, 1866, which increased to five colonies in May, 1867. These five increased to fourteen colonies before the first of July, and could not have been purchased for \$30 each. The first col. was purchased of D. D. Fahrney of this place, who will wait on all who wish to purchase kings. Pat. Side Moveable Comb Bee Hive and Right supplied.

SPECTACLES.—We invite special attention to the advertisement of Mr. C. C. Force, of Hagerstown, in to-day's paper. His Concave-convex Crystal glasses are certainly a very superior article. We speak knowingly having a pair of them in use. Mr. F. produces in circular form certificates from different sections showing the superiority of the concave-convex over other glasses in use.

GOOD TEMPLARS CONVENTION.—The regular quarterly meeting of the Cumberland Valley Good Templars' Convention, composed of delegates from the Lodges of the order in Cumberland, Franklin and Fulton counties, will be held at Mercersburg commencing on Wednesday, the 14th of August.

Only disabled soldiers are allowed to peddle without a license. It is important that this legal fact should be remembered and enforced.

John Clarke of Baltimore, has left \$750, 000 to St. John's Methodist Church in that city.

Gerrit Smith says in a recent letter that he has given away the bulk of his fortune, and is no longer rich.

The work of rebuilding the bridge over the river at Columbia is to be commenced next month.

Affairs in Tennessee

WASHINGTON, July 29.—Official private accounts from Tennessee of the danger of outbreaks and riots in the State next Thursday at the election. Government has for some days past, during such measures as may preserve peace. Major General Thomas has been ordered to the State to-day that all the Kentucky will be engaged in preserving order in that State, but he believes he is able with other forces at his command to prevent riots at Memphis, Nashville, and other large towns. He will to-morrow go to Memphis.

[From this we infer President Johnson meditates interfering in the Tennessee election, as he did in that of Maryland last fall, so that his friends may triumph in defiance of the laws. Governor Brownlow and Gen. Thomas are acting and working together, the latter recognizing the militia organized by the former as part of the regularly constituted authority of the State, and if there is no interference from the President, we predict that his Rebel supporters in that State will be disappointed in creating a riot anywhere.—Eds. American.]

It is ascertained from an emphatic source that the design still exists with the President to supersede General Sheridan as Commander of the Fifth Military District. No time is fixed, however, for the contemplated change.

Philadelphia, July 30.—The death warrant of George W. Winmore, condemned to death for the murder of Mrs. Magilton, was read to the prisoner this morning. He is to be hung on Thursday, the 29th of August. In response to this Winmore said that he had expected this result from the first, that he was ready at any time, and that when the day came he would be fully prepared.

After some further conversation Mr. Satter informed the prisoner that there was no possible chance for a reprieve, pardon or postponement of the execution, to which Winmore responded by saying that he did not look for it at all, but after he lay in his grave this murder will come out and prove his innocence, for he was entirely innocent.

As the party were leaving the cell Winmore stated to Mr. Warringer that the whole cause of his trouble had been family difficulties, and with this sad commentary on the frailty of humanity the interview terminated.

STILL ANOTHER NEW COUNTERFEIT.—A counterfeit twenty dollar bill on the Fourth National Bank of Philadelphia has made its appearance. The note, upon inspection, can be easily detected, as the engraving is very roughly done, and the note presents a very pale appearance; yet we advise all to look at bills of that denomination on that Bank before taking them.

There are also the following late counterfeits: \$100 on the Ohio National Bank of Cincinnati; \$100 on the Central National Bank of New York City, and \$300 on the National Bank of Bristol, Rhode Island.—Counterfeit 50's on the compound interest notes of the issue of July, 1864, are also reported in circulation.—Har. Telegraph.

BRIDGEPORT, July 25.—Wm. Howard Barnum, teller of the Penquonnock National Bank of this city, has decamped with several thousand dollars of the bank's money. He is 27 years of age, and rather good-looking, five feet four inches high, dark hair and eyes, slender build, and weighs about 125 pounds. The bank offers a reward of \$200 for his arrest.

BALTIMORE, July 25.—This evening there was a parade of two newly formed colored regiments, headed by a band of music. The men are mostly armed with muskets. The parade halted at Baltimore street, opposite the American office, and cheered for that paper and for Thad. Stevens and Congress. Everything passed off quietly.

Recently a Milwaukee police officer was detailed to take an insane man to an asylum. The man went along quietly until the end of the journey was reached, when, instead of being delivered to the officers of the asylum, he very quietly delivered the astonished officer, who, before he had an opportunity for an explanation, found himself locked up in a cell, and was told that a strait jacket awaited him if he made any demonstrations. It was some time before the officer could get his story believed and exchange places with the lunatic, who went off boasting of his skill in outwitting his keeper.

In Texas, a few days ago, an old lady, named Metcalf, attempted to walk to a neighbor's house, but took the wrong road and while approaching the house of a man, named Simms, for the purpose of resting, was attacked by a pack of savage dogs, which bit her in several places, tore one arm from her body, and nearly eat up her breast and neck, causing death in a few minutes. She was nearly one hundred years old.

RICEMOND, Va., July 30.—This afternoon while a colored meeting was being addressed by a colored Radical named Given, a white man named Driscoll, who, it was charged, disturbed the meeting, was set upon and dreadfully beaten. He was rescued by the police, who were followed to the station-house by a thousand negroes. He had a pistol, which the negroes charged he attempted to use in the meeting.

Several of the delegates to the convention, appointed by the late county meetings, arrived here to-night.

The Catholic priest at Northampton, Mass., Rev. Patrick T. Moyes, has sent a petition to His Holiness the Pope, asking the privilege to use the Protestant version of the Bible in his church. That priest has certainly afforded the Pope a splendid opportunity to show his good sense.

An incautious individual at Terre Haute the other day, after smoking, put his pipe in his pocket with a package of powder. He was seen shortly after looking a good deal surprised, and inquiring for his coat tail and a large piece of his pantaloons.

Ten Million in Gold will be carried to Europe this year as spending money by pleasure-seeking Americans.

The report that Bishop Lamy, ten priests, and six sisters of charity had been captured by the Indians and massacred, is contradicted.

A B precipice never lost sight of. It is stated that the Railroad Co. has transportation of the and Balto. Railroad. tion of correspond same purpose. Some of the merchant to employ clerks who ball clubs. A Kentuckian has sold fourteen thousand dollar England imports 50,000 Indics annually to drug Over twenty-one million spent every year by the ants. The Dayton (Ohio) Engham's organ, has expired.

SPECIAL NOT SIGN OF THE R 150 150 COMPETITION D Ladies Genuine KID GLOVE uface at 150 cents. During sold large numbers of these G colors and safely say they a other Kid Gloves sold, to be UPEGRAFF'S Hat, Cone and Umbrella Store, Hagerstown. Opposite the Washington Ho SIGN OF THE R

2500 75 OPPOSITION COURTED. 25 50 GAMES.—We have a new lot of Fine Imported Cans, Plain Bone Finished and Carved, Hickory, Reed, and Bamboo Cans from 25 cents up.—Those who want a staff of service, convenience, comfort, Beauty or Fashion should call at UPEGRAFF'S Hat, Cone and Umbrella Store, Hagerstown.

SIGN OF THE RED HAT. 1 2 3 PERPETUAL MOTION I 2 3 Ladies SUN UMBRELLAS, New Style PARASOLS, RAIN UMBRELLAS, &c. A complete stock at UPEGRAFF'S Hat, Cone and Umbrella Store, Hagerstown.

THE TOMB. On the 24th of July, at Dry Creek, Iowa, of Puerperal Convulsions, Mrs. ANNA STAMY, wife of Mr. John Stamy, formerly of this place, aged 36 years, 9 months and 3 days. Repository please copy.

MARKETS. PHILADELPHIA MARKETS, Tuesday, July 30 1867.—There is no demand except for choice spring and winter Wheat and fresh-ground new Wheat, of which the supply is becoming rapidly reduced. A few hundred barrels are taken in lots by the home consumers at \$8@8 25 for superfine; \$8.50@9.25 for extras; \$11 for new Wheat do; \$10@12.50 for Northwest extra family; \$10.50@12.50 for Pennsylvania and Ohio do do, and \$12@15.50 for new Wheat do do and fancy. Rye Flour sells in a small way at \$8.75@9. Nothing doing in Corn Meal. The receipts and stocks of Wheat are small, but as the demand is entirely from the millers they are amply sufficient. Sales of 3,000 bushels new red at \$2.22@2.23 for fair and choice. In the absence of sales of Rye we quote Pennsylvania and Western at \$1.55@1.60. Corn is in fair demand, but the offerings are small, hence the transactions are unimportant: sales of yellow at \$1.17@1.18, and 1,500 bushels Western mixed at \$1.11@1.12. Oats are quiet; sales of old at 90@95c and new at 89@85c. Nothing doing in either Barley or Malt.

A NEW AND IMPORTANT DISCOVERY FOR Restoring the Sight of the Aged, STRENGTHENING THE WEAK, AND PRESERVING THE PERFECT SIGHT. The Concave-convex, Crystal SPECTACLES introduced through me a short time since, have proved superior to any other Glasses in use. Hundreds of persons who have tried them, will testify to their superiority over the old ones in use. The Concave convex Glasses are ground from pure crystal in such a manner that the focus is distributed over the entire surface! They therefore afford a clear and distinct vision to the eye, in whatever direction it may be turned, whereas the old double convex glasses require a direct sight through their centres.

THE CONCAVE-CONVEX GLASSES are patterned after the shape of the cornea of the human eye; they give a clear and healthy light to the eye, and prevent it from becoming tired or dim. Whether used by daylight or lamplight, they never leave that unpleasant feeling in the eyes, which is so common from the use of the old style Glasses.—Persons who after reading or sewing feel their eyes growing dim and smarting, are advised to try these new and improved CONCAVE-CONVEX GLASSES. They can be used a long time before changing to a higher power. Also constantly on hand SPECTACLES to suit all the deficiencies of the sight, such as near-sightedness, weakness, inflammation, cataract, &c. Every pair of Spectacles being adjusted by an Optometer which gives the exact power of the eye, is warranted to suit.

NEW GLASSES SET IN OLD FRAMES AT SHORT NOTICE. C. C. FORCE. No. 16, West Washington St. Hagerstown, August 2, 1867.

HERING'S Compound Syrup of BLACKBERRY ROOT. for DIARRHOEA AND DYSENTERY. F. FOURTHMAN, Druggist, Agent. Aug. 2—6w.
