**NEW AND IMPORTANT DISCOVERY FOR**  
Restoring the Sight of the Aged,  
STRENGTHENING THE WEAK, AND PRESERVING THE PERFECT SIGHT.  
The Concave-convex, Crystal Spectacles introduced through me a short time since, have proved superior to any other Glasses in use. Ever since persons who have tried them, will testify to their superiority over the old ones in use.  
The Concave-convex Glasses are ground from pure crystal in such a manner that the focus is distributed over the entire surface. They therefore afford a clear and distinct vision to the eye, in whatever direction it may be turned, whereas the old double-convex glasses require a direct sight through their centres.

**THE CONCAVE-CONVEX GLASSES**  
are patterned after the shape of the corner of the human eye; they give a clear and healthy light to the eye, and prevent it from becoming tired or inflamed by day light or lamplight, they never leave that unpleasant feeling in the eyes, which is so common from the use of the old style Glasses. Persons who often reading or sewing feel their eyes growing dim and smarting, are advised to try these new and improved  
CONCAVE-CONVEX GLASSES.

They can be used a long time before changing to a higher power.  
Also constantly on hand SPECTACLES to suit all other deficiencies of the sight, such as near-sightedness, weakness, inflammation, catarrh, &c. Every pair of Spectacles being adjusted by an Optician which gives the exact power of the eye, is warranted to suit.  
NEW GLASSES SET IN OLD FRAMES AT SHORT NOTICE.

This Machine is constructed on a new principle of mechanism, possessing many rare and valuable improvements, having been examined by the most prominent experts, and pronounced to be "SUPERIOR TO ANY OTHER MACHINE COMBINED."

The following are the principal objections urged against Sewing Machines:
