Improved Thrashing Machine!

Farmers will please look at the great advantage in Thrashing Grain with.

GEISERS' PATENT SPLE-REGULATING GRAIN-SPPARATOR.

CLEANER AND BAGGER. With the latest Improved Triple-Geared Horse Power, driven either by Gear or Belt.

This Machine is conveniently arranged for hauling and threshing, being permanently fixed on two meg. &c. Fresh Spices, Black Peppership wheels. One man can easily move or shift it about, so that it is not half trouble in a barn floor as a Fr articles in that line. He has also common thrasher and shaker. It is also easily put in operation. It is simple, easily managed, eliables please the durable, compact and rlearly to work by when in operation, not making near the dust as the common.

machine or other Separators.

Farmers can rest assured that this machine is no humbug, and judging from the high recommendation of farmers that are using them, I must come to the conclusion that it is the very Machine that far mers want and will have as soon as they have an opportunity to appreciate and attest its merits, for which I hope they will give me an opportunity, as I um willing to be responsible if it does not perform as represented in this Urrcular.

No. 1 is a eight-horse power, with cast iron thresher frame and wrought iron and wood cylinder, sixteen inches in diameter and thirty three inches long. Trunk has ten inch rake crank and seven takes, is thirty-five inches wide, and delivers the straw on the second rake, these carry the straw out on their is thirty-five inches wide, and derivers the straw on the second rage; these carry, the straw out on their tops, and deliver it on the stacker, which will deliver about thirty-five feet beyond the teeder, on a stack fifteen to eighteen feet high, and can be easily managed to carry the chaff with the straw, or deliver it in a separate place. The trunk and fan sides being closed, to confine the straw and chaff, remedies all difficulties in cleaning grain against winay weather. It bags the grain by reasonable management, sufficiently, clean for market, and its capacity, under ordinary circumstances, is from twenty to forty bushels per hour, using eight horses and the same number of hands; but to force the work under favorable accounts and the same number of hands; but to force the work under favorable accounts are in the same and acceptable per hour, and with nume case and acceptable per hour. circumstance, it will thresh from forty to fifty bushels per hour, and with more case and agreeableness

to hands than any other machine now in common use.

The No. 2 Machine, fully represented in the above cut, is particularly adapted to the farmer's use; is intended to apply to any common lever or railway power; weighs 1,300 pounds; has an iron thresher frame, and cylinder, 12½ inches in diameter and 28 inches long; delivers the clean grain in bags, or if desired, in a half bushel. It delivers the straw fifteen feet from the recder, or if desired, can deliver the straw and chalf together, will thresh and clean, in good grain, ready for market, from 100 to 175 bushels of wheat, or from 300 to 500 bushels of oats per day, using four or s. horses, and the same number of hands; but to force the work, under most favorable circumstances, good g. ain, &c., will thresh and clean considerably more. The Machine will threah and clean all kinds of grain generally threshed with the common machine, and requires no more horse power, but in many cases does not run so hard. It will apply very well to a two-horse railway power

Shop Prices of Machines range from \$210, to \$525. warrant the machines to be as above represented; also against any reasonable defects of materia workmanship, &c.

If Having now taken a room to keep Repair Castings on hand, I have also selected and am prepared to furnish a variety of other agricultural implements, the latest and best improved, and such as are best adapted to the wants of the larmers of this part of the country: Such as the Hagerstown (Miller's) Clover Stemmer, Huller and Cleaner, which is proving by its own merits to be one of the best machines of the kind now in use. The latest improved BUCKEYE REAPER AND MOW-ER combined, with Dropper, and the Mower alone. The American May Fork and Knife combined, May Rakes, Fodder Cutters, Cider Mills, &c. &c. &c., which I will furnish on short notice and warrant 1321 (1) 1012 COPC! THE quantity of butter made in this country is too small. It can be increased 10.000 pounds by the use of Nizon's Horse and Cattle Powders. Good for all diseases of Herses Cattle, Sheep and Hogs. Sold by J. F. KURTZ, Waynesboro'.

P Read these certificates, hundreds of which could be rublished.

could be published:

Four or five years ago, J. S. NIXON compound ed a Horse and Cattle Powder, and asked me to try it. I was the first Tarmer to whom it was given and the first one to use it for stock. I found it fully equal to what Mr. Nixon said of it, and I have used its transparent. used itextensively since, and heartily recommend it to farmers as a sure thing in fattening stock of al kinds and a capital Powder for Horses.

MICHAEL EBERSOLE.

Chambersburg, December, 1865.

MR. J. S. Nixon .- To the multitude in this portion of our State, who have used your Cattle Powder, no commendation is necessary. Its beneficial ef-fects have been fairly tested, and hence its unbounded popularity. I have used it for my horses and cows for several years past, and cannot afford to do without it. It keeps all kind of cattle in good condition, loosens the skin, smoothes the hair, and sharpens their appetites. As a preventive from disease, I regard it as invaluable. *Yours, &c., REV. B. S. SCHNECK.

Chambersburg, April, 1866.

MR. J. S. NIXON - Dear Sir : -- I gave your Horse and Cattle Powder a fair trial with all my stocke Horses and cattle, and it improved them wonderful-ly. It speedily increased the richness of the milk of my cows, and improved the condition of my stock

really.

All cordially recommend it as the hest thing of the left of the hest thing of the left of the
