Improved Thrashing Machine!
Farmers will please look at the great advantage in Thrashing
Grain with
**GEISERS' PATENT
SELF-REGULATING GRAIN SEPARATOR,
CLEANER AND BAGGER.**
With the latest Improved Triple-Geared Horse Power,
driven either by Gear or Belt.

This Machine is conveniently arranged for haling and thrashing, being permanently fixed on two
wheels. One man can easily move or shift it about, so that it is not half trouble in a barn floor as a
common thrasher and shaker. It is also easily put in operation. It is simple, easily managed, reliable,
durable, compact and cleanly to work by when in operation, not making near the dust as the common
machine or other Separators.
Farmers can rest assured that this machine is no humbug, and judging from the high recommenda-
tion of farmers that are using them, must come to the conclusion that it is the very Machine that far-
mers want and will have as soon as they have an opportunity to appreciate and attest its merits, for
which I hope they will give me an opportunity, as I am willing to be responsible if it does not perform
as represented in this Circular.
No. 1 is a eight-horse power, with cast iron thrasher frame and wrought iron and wood cylinder, six-
teen inches in diameter and thirty three inches long. Trunk has ten inch rake crank and seven rakes,
is thirty-five inches wide, and delivers the straw on the second rake, these carry the straw out on their
top, and deliver it on the stacker, which will deliver about thirty-five feet beyond the feeder, on a stack
fifteen to eighteen feet high, and can be easily managed to carry the chaff with the straw, or deliver it
in a separate place. The trunk and fan sides being closed, to confine the straw and chaff, and render it
difficult to steal in emptying grain against windy weather. It has 140 grain by reasonable management, suf-
ficiently clean for market, and its capacity, under ordinary circumstances, is from twenty to forty bushels
per hour, using eight horses and the same number of hands; but to force the work under favorable
circumstances, it will thresh from forty to fifty bushels per hour, and with more ease and agreeableness
of hands than any other machine now in common use.
The No. 2 Machine, fully represented in the above cut, is particularly adapted to the farmer's use; it
is intended to thresh in any common level or fallow power, weighs 1,300 pounds; has an iron thrasher
frame and cylinder, 12 1/2 inches in diameter and 28 inches long; delivers the clean grain in bags, or if
desired, in a half bushel. It delivers the straw fifteen feet from the feeder, or if desired, can deliver the
straw and chaff together will thresh and clean, in good grain, ready for market, from 100 to 175 bushels
of wheat, or from 300 to 500 bushels of oats per day, using four or six horses, and the same number of
hands; but to force the work, under most favorable circumstances, good grain, will thresh and clean
considerably more. The Machine will thresh and clean all kinds of grain generally threshed with the
common machine, and requires no more horse power, but in many cases does not run so hard. It will
apply very well to a two-horse railway power.
Shop Prices of Machines range from \$210, to \$525.
I warrant the machines to be as above represented; also against any reasonable defects of material
workmanship, &c.
Having now taken a room to keep Repair Castings on hand, I have also selected and
am prepared to furnish a variety of other agricultural implements, the latest and best improved, and
such as best adapted to the wants of the farmers of this part of the country: Such as the Hager-
town (Miller) Clover Stemmer, Huller and Cleaner, which is proving by its own merit to be one
of the best machines of the kind now in use. The latest improved BUCKEYE REAPER AND MOW-
ER combined with Dropper, and the Mower alone. The American Hay Fork and Knife combined,
Hay Rakes, Fodder Cutters, Cider Mills, &c. &c., which I will furnish on short notice and warrant
them to answer the purposes for which they are intended.
Orders solicited and promptly attended to. For further particulars, circulars, &c. address
DANIEL GEISER,
Waynesboro, Franklin Co. Penn'a.

Linen Ducks and Plain Linens, and a full
stock Plain and Mixed Cassimeres
or Boy's Wear, and as cheap as can be sold in the
town or county, will be made to order or sold by
yard or pattern to suit buyers.
All work guaranteed to fit or no sale. My stock
of Gent's Furnishing Goods is large and complete
of everything in that line, and at prices to suit the
times.
I have also the Agency for the sale of the celebra-
ted improved
Singer Family Sewing Machine,
and am prepared to compete with every other
Machine sold in the town or country, and for sample
of Machines please call at my store.
I return my thanks to my customers and the pub-
lic generally for their patronage extended me and
hope a continuance of the same.
Don't forget—The place is the Washington House
Merchant Tailoring Establishment, West Washing-
ton Street, Hagerstown, Md. J. A. FISHER,

Read these certificates, hundreds of which
could be published:
Four or five years ago, J. S. NIXON compound-
ed a Horse and Cattle Powder, and asked me to
try it. I was the first farmer to whom it was given
and the first one to use it for stock. I found it full
ly equal to what Mr. NIXON said it is, and I have
used it extensively since, and heartily recommend
it to farmers as a sure thing in fattening stock of va-
rious kinds and a capital Powder for Horses.
MICHAEL EBERSOLE,
Chambersburg, December, 1866.
Mr. J. S. NIXON—To the multitude in this por-
tion of our State, who have used your Cattle Powder,
no commendation is necessary. Its beneficial ef-
fects have been fairly tested, and hence its unbound-
ed popularity. I have used it for my horses and
cows for several years past, and cannot afford to do
without it. It keeps all kind of cattle in good con-
dition, increases the milk, softens the hair, and
sharpens their appetites. As a preventive from dis-
ease, I regard it as invaluable. Yours, &c.,
REV. B. S. SCHNECK,
Chambersburg, April, 1866.
Mr. J. S. NIXON—Dear Sir:—I gave your Horse
and Cattle Powder a fair trial with all my stock
Horses and cattle, and it improved them wonder-
fully. It speedily increased the richness of the milk of
my cows; and improved the condition of my stock
generally.
I can cordially recommend it as the best thing of
the kind I have ever known or tried, for all kinds of
stock, and it should be kept in every stable.
Yours truly,
A. K. McCLURE, Ed. Repository,
Chambersburg, Pa.
