RETTY Parasols at PRICE & HORFLICH'S Improved Thrashing Machine!

Farmers will please look at the great advantage in Thrashing

GEISERS' PATENT SELF-REGULATING GRAIN SEPARATOR,

With the latest Improved Triple-Geared Horse Power, driven either by Gear or Belt.

CLEANER AND BAGGER.

This Machine is conveniently arranged for hauling and threshing, being permanently fixed on two wheels. One man can easily move or shift it about, so that it is not half trouble in a barn floor as a common thrasher and shaker. It is also easily put in operation. It is simple, easily managed, reliable, durable, compact and cleanly to work by when in operation, not making near the dust as the common-

machine or other Separators. Farmers can rest assured that this machine is no humbug, and judging from the high recommendaion of farmers that are using them, I must came to the conclusion that it is the very Machine that far mers want and will have as soon as they have an opportunity to appreciate and attest its merits, for which I hope they will give me an opportunity, as I am willing to be responsible if it does not perform

as represented in this Circular.

No. 1 is a eight-horse power, with cast fron thresher frame and wrought fron and wood cylinder, sixteen inches in diameter and thirty-three inches long. Trunk has ten inch rake crank and seven rakes, is thirty-five inches wide, and delivers the straw on the second rake, these carry the straw out on their tops, and deliver it on the stacker, which will deliver about thirty-five feet beyond the feeder, on a stack fifteen to eighteen feet high, and can be easily managed to carry the chaff with the straw, or deliver it in a separate place. The trunk and fan sides being closed, to confine the straw and chaff, remedies all difficulties in creaning grain against windy weather. It hags the grain by reasonable management, sufficiently clean for market, and its capacity, under ordinary circumstances, is from twenty to forty bushels per hour, using eight horses and the same number of hands; but to force the work under favorable circumstance, it will thresh from forty to fifty bushels per hour, and with more ease and agreeableness

ot hands than any other machine now in common use. The No. 2 Machine, fully represented in the above cut, is particularly adapted to the farmer's use; iintended to apply to any common lever or railway power; weighs 1,300 pounds; has an iron threster frame, and cylinder, 12; inches in diameter and 48 inches long; delivers the clean grain in bags, or if desired, in a half bushel. It delivers the straw fifteen feet from the reeder, or if desired, can deliver the straw and chalf together; will thresh and clean, in good grain, ready for market, from 100 to 175 bushels of wheat, or from 300 to 500 bushels of oats per day, using four or s... horses, and the same number of hands; but to force the work, under most favorable circumstances, good garin, &c., will thresh and clean considerably more. The Machine will threah and clean all kinds of grain generally threshed with the common machine, and requires no more horse power, but in many cases does not run so hard. It will apply very well to a two-horse railway power

Shop Prices of Machines range from \$210, to \$525. Fig. 1 warrant the machines to be as above represented; also against any reasonable defects of materia

Having now taken a room to keep Repair Castings on hand, I have also selected and am prepared to furnish a variety of other agricultural implements, the latest and best improved and such as are best adapted to the wants of the tarmers of this part of the country: Such as the Hagerstown (Miller's) Clover Stemmer, Huller and Cleaner, which is proving by its own merits to be one of the best machines of the kind now in use. The latest improved BUCKEYE REAPER AND MOW-ER combined, with Dropper, and the Mower alone. The American May Fork and Knite combined, Hay Rakes, Fodder Cutters, Cider Mills, &c. &c. &c., which I will furnish on short notice and warrant them to approve the purposes for which they are provided.

nem to answer the purposes for which they are intended.

For further particulars, circulars, &c.: address

May 4, 1866.]

Still the Latest,

Most Important to Mankind,

Is that I have removed my Merchant Tailoring and Furnishing Store from my old stand, one door west of the extensive ly fitted room in the Washington House, one doo East of Mr. Ogilby's Store, where I have now instore one of the best selected stocks of

English, French, German and Domestic CLOTHS, CASSIMERES, &c., that can be found in the city of Hagerstown or Coun

ty. These goods have all been selected with great care, especially adapted to the Fushionable as well as the Plain Dress, and at prices that cannot fail to please all. All thoroughly shrunk before made up and satisfaction guaranteed. I have also a stock of HEAVY COTTON GOOD

MEN AND BOY'S WEAR, OF THE BEST MAKE.

Linen Ducks and Plain Linens, and a full stock Plain and Mixed Cassimeres or Boy's Wear, and as cheap as can be sold in the town or county, will be made to order or sold by the yard or pattern to suit buyers. All work guaranteed to fit or no sale. My stock

of Gent's Furnishing Goods is large and complete of everything in that line, and at prices to suit the I have also the Agency for the sale of the celebrated improved

Singer Family Sewing Machine, and am prepared to compete with every other Ma-chine sold in the town or country, and for sample of Machines please call at my store. I return my thanks to my customers and the public generally for their patronage extended me and hope a continuance of the same.
