### SALESROOM, NO. 921 CHESTNET ST., PHILADELPHIA. .

This Machine is constructed on a new principle of mechanism, possessing many rare and valuable imfound experts, and pronounced to be SIMPLICI- House Furnishing Goods
TY and PERFECTION COMBINED. provements, having been examined by the most pro-

The following are the principal objections urged against Sewin; Machines:

1. Excessive fatigue to the operator.

 Liability to get out of order.
 Expense, trouble, and loss of time in repairing. 4. Incapacity to sew every description of material.

5. Disagreeable noise while in operation.

## The Empire Sewing Machine is Exempt from all

these Objections. It has a straight needle, perpendicular action, makes the LOCK or SHUTTLE STITCH, which will neither RIP nor RAVEL, and is alike on both sides; performs perfect sewing on every description of material, from Leather to the finest Nansook Muslin,

with linen, cotton or silk thread, from the coarsest to the finest number. IT HEMS, FELLS, BINDS, BRAIDS, TUCKS, QUILTS, PLAITS, GATHERS.
Having neither CAM nor COG WHEEL, and the least possible friction, it runs as smooth as glass,

EMPHATICALLY A NOISELESS MACHINE-All varieties of CAINBET MACHINES from \$60.4p

wards.
Particular attention is called to our new and IMPROVED Manufacturing Machine, for Tailoring, Shoe Fitting, Coach Trimming, &c. Its advantages are simplicity durability, repidity, easy adapta-tion to all oranches of manufacturing. It makes for ct work on all material. It is especially desirand miss wing Patent Leather, and is very still. In seon, it is the most perfect manufacturing machine . 11. the market.

N. B Every machine guaranteed.

## Improved Thrashing Machine!

Farmers will please look at the great advantage in Thrashing Grain with

## GEISERS' PATENT SBLF-REGULATING GRAIN SEPARATOR

### CLEANER AND BAGGER.

With the latest Improved Triple-Geared Horse Power, driven either by Gear or Belt.

This Machine is conveniently arranged for hauling and threshing, being permanently fixed on two wheels. One man can easily mow or shift it about, so that it is not half trouble in a barn floor as as common thrasher and shaker. It is also easily put in operation. It is simple, easily managed, eliable, durable, compact and cleanly to work by when in operation, not making near the dust as the commonmachine or other Separators.

Farmers can rest assured that this machine is no humbug, and judging from the high recommendavion of farmers that are using them, I must come to the conclusion that it is the very Machine that farmers want and will have as soon as they have an opportunity to appreciate and attest its merits, for which I hope they will give me an opportunity, as I am willing to be responsible if it does not perferm as represented in this Circular.

No. 1 is a eight-horse power, with cast iron thresher frame and wrought iron and wood cylinder, sixteen inches in diameter and thirty-three inches long. Trunk and ten inch rake crank and seven rakes, is thirty-five inches wide, and delivers the straw on the second rake, these carry the straw out on their tops, and deliver it on the stacker, which will deliver about thirty-five feet beyond the feeder, on a stack fifteen to eighteen feet high, and can be easily managed to carry the chaff with the straw, or deliver it in a separate place. The trunk and fan sides being closed, to confine the straw and chaff, remedies all difficulties in cleaning grain against wingy weather. It bags the grain by reasonable management, sufficiently clean for market, and its capacity, under ordinary circumstances, is from twenty to forty bushels per hour, using eight horses and the same number of hands; but to force the work under favorable circumstance, it will thresh from forty to lifty bushels per hour, and with more case and agreeableness

to hands than any other machine now in common use.

The No. 2 Machine, fully represented in the above cut, is particularly adapted to the farmer's use; is The No. 2 Machine, tully represented in the above cit, is paracted any acapitate to the farmer's use; in intended to apply to any common lever or railway power; weights 1,300 pounds; has an iron threshen frame, and cylinder, 123 inches in diameter and 48 inches long; delivers the clean grain in bags, orafr desired, in a half-bushel.—It-delivers the straw fifteen feet froin the needer, or if desired, can deliver the straw and chaff together; will thresh and clean, in good grain, ready for market, from 100 to 175 bushels of wheat, or from 300 to 500 bushels of oats per day, using four or s... horses, and the same number of hands; but to force the work, under most favorable circumstances, good g. nin, &c., will thresh and cleal considerably more. The Machine will threah and clean all kinds of grain generally threshed with the common machine, and requires no more horse power, but in many cases does not run so hard. It will apply very well to a two-horse railway power

Shop Prices of Machines range from \$210, to \$525 (27) warrant the machines to be as above represented; also against any reasonable defects of materi

Having now taken a room to keep Repair Castings on hand, I have also selected and am prepared to furnish a variety of other agricultural implements, the latest and best improved, and such as are best adapted to the wants of the tarmers of this part of the country: Such as the Hagerstown (Miller's) Clover Stemmer, Huller and Cleaner, which is proving by its own merits to be one of the best machines of the kind now in use. The latest improved BUCKEYE RE PER AND MOW-ER combined, with Dropper, and the Mower alone. The American May Fork and Knife combined, Hay Rakes, Fodder Cutters, Cider Mills, &c. &c. &c., which I will furnish on short notice and warrant them to answer the purposes for which they are intended.

Porders solicited and promptly attended to. For further particulars, circulars, &c. address

Waynesboro', Franklin Co. Penu'a. May 4, 1866.]

THE quantity of butter made in this country is too small. It can be increased 10.000 pounds. by the use of Nizon's Horse and Cattle Powd.rs Good for all diseases of Horses Cattle, Sheep and Hoge. Sold by J.F. KURTZ, Wayn, aboro'.

ould-be published: \* Four or five years ago, J. S. NIXON compound ed a Horse and Cattle Powler, and dated me to

try it I was the first farmer to whom it was given try it I was the first farmer to whom it was given and the first one to use it for stock. I found it full ly equal to what Mr Nixon said of it, and I have used itextensively sines; and heartily recommend it to farmers as a sure thing in fattening stock of a kinds and a capital Powder for Horses;

MICHAEL EBERSOLE.

Chambersburg, December, 1865.

Ma. J. S. Nixon.—To the multitude in this portion of our State, who have used your Cattle Powder, no commendation is necessary. Its beneficial effects have been fairly tested, and hance its unbounded popularity. I have used it for my horses and cows for several years past, and cannot afford to do without it. It keeps all kind of cattle in good condition, loosens the skin, smoothes the hair, and sharpens their app tites. As a preventive from disease, I regard it as in Huable. Yours, &c.,

Chambersburg, April, 1866.

Ma. J. S. Nixon — Dear Sir :—I gave your Horse and Cattle Dwder a fair trial with all my stock' Horses and little, and it improved them wonder fully. It speed by increased the richness of the mile of my cows, and improved the condition of my stock greatly.

I can cordially recommend it as the best thing of the kind I have ever known or tried for all kinds of stock, and it should be kept in every stable.

Yours truly, A. K. McCLURE, Ed. Repository.
