D. R. D. A. STOFFER, DENTIST.

PERMANENTLY LOCATED IN GREENCASTLE, PA. HAVING taken a thorough course of instruction in Dental science and more than five years experience, is prepared to practice his profession with care and attention. Double and single sets of Teeth mounted and insured on the new plate, city style, which is beautiful and more comfortable worn at prices which defy competition. Teeth mounted on Gold or Silver. Having one of Dr. Richards' Ether or Narcotic Sprays, a process of freezing the gums, proves an excellent method of having Teeth extracted. Pain scarcely is felt, is generally liked, and always safe. I prefer it to Nitrous Oxide Gas. Magneto-Electricity is used for weak nerves and neuritis. No charge for examination of Teeth. Have your Teeth examined once or twice a year, and fitted as soon as a cavity is formed. Thus all Teeth may be saved. Particular attention is paid to children's teeth (too much neglected by parents), also, the preservation of the natural organ by filling. Dental rooms in Nathaniel Martin's residence, once occupied by Dr. Hammill, Dentist, West Baltimore street. October 11, 1867.

J. W. MILLER'S ARRIVAL OF NEW GOODS.

HAVING received a large assortment of goods, I am prepared to offer greater inducements than heretofore at reduced prices. All I ask is an examination of the stock and prices, and they will occur with the above.
