Sharswood's election in this State will it is said, be contested, on the ground of fraudulent voting in Philadelphia and elsewhere.

non. An election for or against a convention was held in Virginia on Tuesday. It is not known as far as the returns have been received which party has carried; the Radicale and Negroes or the Rebels.

FRAUDS.-It has already been shown that frauds involving an illegal count of more than two thousand votes were perpetrated at the late election in Philadelphia alone. So says the Harrisburg Telegraphs

On the first Tuesday of November, which is the fifth day of the month elections will be held in the State of New York, New hy. Jersey, Delaware, Maryland, Massachusetts, Michigan, Wisconsin, Minnesota, Illinois, Kansas, Missouri and Nevada. Some of these Commonwealths vote for a Governor and State officers, but in others the ticket is scems to be pretty certain. only local.

The Washington Express says that over a million of dollars of counterfeit Seventhirty bonds of the denomination of \$1,000 are in circulation. Baltimore capitalists lose \$25,000. It has been definitely ascertained that the notes were printed in Phila delphia, but where they were engraved is not satisfactorily determined.

THE PENNSYLVANIA ELECTION.—The Harrisburg Telegraph furnishes a full official table of the returns from all the counties of this State of the election held on the second Tuesday of this month. The actual majority for Sharswood, the Democratic candidate, is 922. The total vote of the State is 534,850, against 597,370 cast at the election of 1866, when Governor Geary, Republican, was elected over Clymer, Democrat, by 17, 178. Of this falling off of 62,520 votes, the Republicans are short 40,450 and the Democrats 25,070. These figures show that the triumph of the Democrats is not the result of any political reaction, but of political ap athy. The falling off in the Republican vote is 18 380 in excess of the falling off of the Democratic vote. The result is simply that both parties polled a reduced vote, but that the Democrats by more organized effort brought out a larger proportion of their vote and achieved the victory. No amount of talk can alter the conclusion of these figures. The Republicans lost the fight simply through apathy and hegleot. The polling of their full vote in the county of Allegheny alone would have altered the result.

a recent meeting, in Baltimore, of the officers. contract for the erection of a monument to the memory of the Union soldiers buried there was awarded to Mr J. G. Ballerson, of Hartford, Connecticut, who has also the contract for the monument for Gettysburg cemetery. The Antietam monument is to be entirely of granite, surmounted by a statue, twenty feet in height, of a private soldier, in full uniform. The pedestal on which the statue is to be mounted is to consist of twenty-five piers, the smallest of which weighs six tons. The height of the statue will be twenty feet, exclusive of the plinth, which is to be of the same piece of stone. The weight of the pedestal will be two hundred tons. The lower base will be twentytwo feet square and two feet high. Beneath the die, and at the nogles of the marbled base, are to be massive buttresses, adding greatly to its strength. The cap will be eight feet six inches square and two feet three inches thick. The military trophy and arms of the United States are to be of bronze. The entire cost of the structure will be thirty thousand dollars.

CHOLERA IN PHILADELPHIA. - The Ecening Telegraph says that a disease resembling Asiatic cholera has broken out at 'the navy yard, and there have been thirteen deaths since Saturday. The outbreak of the disease occurred on the ship Potomac.

In the majority of the fatal cases, death ensued within a few hours after the first attack, the suffers being taken with diarrhoea, cramps, vomiting, and all the known symptoms of Asiatic cholera. The discase is described by the physicians on board the vessel and in the yard to be that of Asiatic cholera.

Since then, about forty of the men on the Potomac have been affected more or less by the disease, and thirteen deaths have already
