

EMPIRE SHUTTLE MACHINE.
PATENTED FEBRUARY 11, 1869
No. 621 MARKET ST.
PHILADELPHIA.

The Machine is constructed on a new principle of mechanism, possessing of efficient and valuable improvements, having been examined by the most prominent experts, and pronounced to be **SIMPLE, EASY AND PERFECTLY COMBINED.**

The following are the principal objections urged against Sewing Machines:
1. Excessive fatigue to the operator.
2. Liability to get out of order.
3. Expense, trouble, and loss of time in repairing.
4. Inability to sew every description of material.
5. Disagreement to hold a while in operation.

The Empire Sewing Machine is exempt from all these objections.
It has a straight needle, it operates on action, making the LOCK or SHUTTLE STITCH, which will not RIP nor JAVEL, and is alike on both sides; it performs perfectly every description of material, from Leather to the finest Namook Machine, with linen, cotton or silk thread, from the coarsest to the finest number.

IT BEAMS, FIELDS, HATS, BRAIDS, TUCKS, QUILTS, PLAYS, GATHERS.
Having neither CAM nor COG WHEEL, and the least possible friction, it runs as smooth as glass and is **EMPHATICALLY A NOISELESS MACHINE.**

Particular attention is called to a new and improved Manufacturing Machine, for Tailoring, Shoe-Fitting, Coach-Framing, &c. It is an advance upon all previous machinery, and is adapted to all branches of industry. It is especially desirable for work on all material. It is especially desirable for work on all material. It is especially desirable for work on all material.

VALUABLE IMPROVEMENT!
THE subscriber would inform the public that they have purchased the Right of the Key-Stone Portable Flat-Road "Patent" patented April 29, 1867, from the inventor, a Township Rights may be obtained at reasonable rates. This machine is recommended for strength and durability. It can be taken down and put under shelter and again taken out and put up with remarkable ease. It is the best and the cheapest and most serviceable of all portable engines yet offered to the public.

CONCAVE-CONVEX GLASSES
are put forward after the shape of the cornea of the human eye; they give a clear and healthy light to the eye, and prevent it from becoming tired or dim. They are used by day light or lamp light, they never become soiled, and they are so constructed, that they are so common from the use of the old style Glasses, which persons who are reading or sewing feel their eyes growing dim and smarting, are advised to try these new and improved

CONCAVE-CONVEX GLASSES.
They can be used a long time before changing to a higher power.
Also constantly on hand SPECTACLES to suit all other deficiencies of the sight, such as near-sightedness, or near-sightedness, catarrh, &c. Every pair of Spectacles, being adjusted by an Optician, which gives the exact power of the eye, is warranted to suit.

NEW GLASSES SET IN OLD FRAMES AT SHORT NOTICE.
C. G. FORCE,
No. 16, West Washington St.,
Hagerstown, August 2, 1867.

Improved Threshing Machine!

Farmers will please look at the great advantage in Threshing Grain with

GEISERS' PATENT SELF-REGULATING GRAIN SEPARATOR, CLEANER AND BAGGER.

With the latest Improved Triple-Geared Horse Power, driven either by Gear or Belt.

This Machine is conveniently arranged for hauling and threshing, being permanently fixed on two wheels. One may be easily moved or shifted about, so that it is not half trouble in a barn floor as a common thrasher and shaker. It is also easily put in operation. It is simple, easily managed, reliable, durable, compact and cleanly to work by when in operation, not making near the dust as the common machine. Farmers can rest assured that this Machine is no humbug, and judging from the high recommendation of farmers that are using them, I must come to the conclusion that it is the very Machine that farmers want and will have as soon as they have an opportunity to appropriate and adjust their farms, for which I hope they will give me an opportunity, as I am willing to be responsible if it does not perform, as represented in this Circular.

No. 1 is a eight-horse power, with cast iron threshing frame and wrought-iron and wood-cylinder, sits ten inches in diameter and thirty-three inches long. Trunk has ten-inch rake crank and seven rakes, is thirty-five inches wide, and delivers the straw on the second rake, the hay carries the straw out on their tops, and deliver it in the stacker, which will deliver about thirty-five bushels per hour, on a stack fifteen to eighteen feet high, and can be easily arranged to carry the straw with the stack, or deliver it in a separate place. The trunk and fan sides being closed, to confine the straw and chaff, and deliver it in a separate place. The trunk and fan sides being closed, to confine the straw and chaff, and deliver it in a separate place.

No. 2 is a eight-horse power, with cast iron threshing frame and wrought-iron and wood-cylinder, sits ten inches in diameter and thirty-three inches long. Trunk has ten-inch rake crank and seven rakes, is thirty-five inches wide, and delivers the straw on the second rake, the hay carries the straw out on their tops, and deliver it in the stacker, which will deliver about thirty-five bushels per hour, on a stack fifteen to eighteen feet high, and can be easily arranged to carry the straw with the stack, or deliver it in a separate place.

10,000 POUNDS OF BUTTER!

THE quantity of butter made in this country is too small. It can be increased 10,000 pounds by the use of NIXON'S Horse and Cattle Powder. Good for all diseases of Horses, Cattle, Sheep and Hogs. Sold by J. F. KURTZ, Waynesboro.

Read these certificates, hundreds of which could be published:
Four or five years ago, J. S. NIXON composed a Horse and Cattle Powder, and asked me to try it. I was the first farmer to whom it was given and the first one to use it for stock. I found it full of equal to what Mr. Nixon said of it, and I had used extensively since, and heartily recommend it to farmers as a sure thing in fattening stock of all kinds and a capital Powder for Horses.
MICHAEL EBERSOLE,
Chambersburg, December, 1865.

Mr. J. S. NIXON.—To the multitude in this position of our State, who have used your Cattle Powder no commendation is necessary. Its beneficial effects have been fairly tested, and hence its unbounded popularity. I have used it for my horses and cows for several years past, and cannot afford to do without it. It keeps all kind of cattle in good condition, keeps the skin, smooths the hair, and sharpens their appetites. As a preventive from disease, I regard it as invaluable.
REV. H. S. SCHNECK,
Chambersburg, April, 1866.

Mr. J. S. NIXON.—Dear Sir:—I gave your Horse and Cattle Powder a fair trial with all my stock Horses and cattle, and it improved them wonderfully. It speedily increased the richness of the milk of my cows, and improved the condition of my stock generally.
I can cordially recommend it as the best thing of the kind I have ever known or tried, for all kinds of stock and it should be kept in every stable.
Yours truly,
A. K. McCURE, Ed. Repository
Chambersburg, Pa.
