PHILADELPHIA. This Machine is constructed on a new principle of mechanism, possessing many rare and valuable im- lots at distant points for shipment, provements, having been examined by the most pro-found experts, and pronounced to be SIMPLICI-TY and PERFECTION COMBINED.

The following are the principal objections urged against Sewm; Machines: 1. Excessive fatigue to the operator.

2. Liability to get out of order.

3. Expense, trouble, and loss of time in repairing.

4. Incapacity to sew every description of material.

5. Drag recable noise while in operation. The Empire Sewing Machine is Exempt from all

these Objections.

It has a straight needle, perpendicular action, makthe LOUN or SHUTTLE STITCH, which will
next or RIP nor ICAVEL, and is alike on both sides; performs perfect sewing on every description of ma-terial, from Leather to the finest Nansook Muslin, with liven, cotten or silk thread, from the coarsest the fluest number.

## Improved Thrashing Machine!

Farmers will please look at the great advantage in Thrashing

## GEISERS' PATENT SELF-REGULATING GRAIN SEPARATOR

CLEANER AND BAGGER.

With the latest Improved Triple-Geared Horse Power, driven either by Gear or Belt.

This Machine is conveniently arranged for hauling and threshing, being permanently fixed on two wheels. One man can easily move or shift it about, so that it is not half trouble in a barn floor as accommon thrasher and shaker. It is also easily put in operation. It is simple, easily managed, eliable, durable, compact and cleanly to work by when in operation, not making near the dust as the common-

machine or other Separators. Farmers can rest assured that this machine is no humbug, and judging from the high recommendaion of farmers that are using them, I must come to the conclusion that it is the very Machine that farmers want and will have as soon as they have an opportunity to appreciate and attest its merits, for which I hope they will give me an opportunity, as I am willing to be responsible if it does not perferm, as represented in this Circular.

No. I is a eight-horse power, with cast iron thresher frame and wrought iron and wood cylinder, sixteen inches in diameter and thirty-three inches long. Trunk has ten-inch rake crank and seven rakes, is thirty-five inches wide, and delivers the straw on the second rake, these carry the straw out on their is thirty-five inches wide, and delivers the straw on the second rake, these carry the straw out on their tops, and deliver it in the stacker, which will deliver about thirty-five feet beyond the feeder, on a stack fifteen to eighteen feet high, and can be easily-managed-to-carry the chaff with the straw, or deliver it in a separate place. The trunk and fan sides being closed, to confine the straw and chaff, remedies all difficulties in creaning grain against wirmy weather. It bags the grain by reasonable management, sufficiently clean for market, and its capacity, under ordinary circumstances, is from twenty to forty bushels per hour, using eight horses and the same number of hands; but to force the work under favorable circumstance, it will thresh from forty to fifty bushels per hour, and with more case and agreeableness to hands than any other machine now in common use.

The No. 2 Machine-fully redesented in the above cut, is particularly adapted to the tarmer's use: in

to hands than any other machine now in common use.

The No. 2 Machine, fully represented in the above cut, is particularly adapted to the farmer's use; in intended to apply to any common lever or railway power; weighs 1,300 pounds; has an iron threstes frame, and cylinder, 123 inches in diameter as d 28 inches long; delivers the clean grain in bags, orall desired, in a half bushel. It delivers the straw fifteen feet from the recter, or if desired, can deliver the straw and chaff together; will thresh and clean, in good grain, ready for market, from 100 to 175 bushels nofwheat, or from 300 to 500 bushels of oats per day, using four or sale horses, and the same number of dhas; but to force the work, under most favorable circumstances, good govin, &c., will thresh and clean at kinds of grain generally threshed with the common machine, and requires no more horse nower, but in many cases does not run so hard. It will common machine, and requires no more horse power, but in many cases does not run so hard. It will apply very well to a two-horse railway power

Shop Prices of Machines range from \$210, to \$525. warrant the machines to be as above represented; also against any reasonable defects of materi

Having now taken a room to keep Repair Castings on hand, I have also selected and am prepared to furnish a variety of other agricultural implements, the latest and best improved. and such as are best adapted to the wants of the farmers of this part of the country: Such as the Hagerstown (Miller's) Clover Stemmer, Huller and Cleaner, which is proving by its own merits to be one of the best machines of the kind now in use. The latest improved BUCKEYE REAPER AND MOW. ER combined, with Dropper, and the Mower alone. The American May Fork and Knife combined, Hay Rakes, Fodder Cutters, Cider Mills, &c. &c. &c., which I will furnish on short notice and warrant

them to answer the purposes for which they are intended.

Orders solicited and promptly attended to. For further particulars, circulars, &c. address DANIEL GEISER,

10.000 POUNDS OF BUTTER ! W. W. WALKER. T. J. MILL. GEO.W : WALKER

THE quantity of butter made in this country is too small. It can be increased 10.000 pounds by the use of Nixon's Horse and Cattle Powders Good for all diseases of Horses Cattle, Sheep and Hogs. Sold by J. F. KURTZ, Waynesboro Waynesboro

Read these cortificates, hundreds of white Four or five years ago. J. S. NIXON compounded a Horse and Cattle Powder, and asked me to try it. I was the first farmer to whom it was given and the first one to use it for stock. I found it full ly equal to what Mr Nixon said of it, and I hasused itextensively since, and heartily recommendit to farmers as a sure thing in fattening stock of vikinds and a capital Powder for Horse MICHAEL EBERSOLE.

Chambersburg, Deember 1865,

Mg. J. S. Nixon.—To the multitude in this pos-tion of our State, who have used your Cattle Powders no commendation is necessary. Its beneficial erlects have been fairly tested, and hence its unbounce ded popularity. I have used it for my horses au cows for several years past, and cannot afford to do without it. It keeps all kind of cattle in good condition, loosens the skin, smoothes the hair, and sharpens their app titles. As a preventive from disease, I regard it as invaluable. Yours, &c., YEV. B. S. SCHNECK. Chambersburg, April, 1866.

Mr. J. S. Nixon — Dear Sir :—Igave your Hors and (Sattle Powder a fair trial with all my stock Horses and cattle, and it improved them wonderfully. It speedily increased the richness of the milk of my cows, and improved the condition of my stock

I can cordially recommend it as the hest thing of the kind I have ever known or tried, for all kinds of stock, and it should be kept in every stable. Yours truly.

A. K. McCLURE, Ed. Repository.
