This grate is not in any other stove, nor can any other stove use it-This mill grate is insured for five years, now, in the Oriental stove, when you must take out cinder you have to open a door on top of the fire pet and with a poker rake them up and pass them out through this doer Very nice that, provided some of the hot cinder falls on your nice carpet. the fire during the entire winter. (No clinker will remain in these stoves, nor will there be any trouble from slate, or other impurities in the coal, the fire being always at the base of the coal, the impurities are left in the ashes and ground out by the "Mill-grate.")
