

VILLAGE RECORD.

WAYNESBORO Friday, December 13, 1867.

The Union League of Philadelphia has nominated Gen. Grant as their candidate for President.

There is said to be a complete stagnation in all departments of trade in New York. About 50,000 persons are out of employment.

The result of the election in South Carolina is 10,000 majority for a Convention.

At Philadelphia on Monday three boys were skating by the breaking of the ice on a skating pond.

3 800 000 bushels of oysters is the yearly average taken to the Baltimore market.

The Chesapeake and Ohio Canal will be closed to navigation on the 20th inst., in order that repairs may be made during the winter.

Spencer, who was arrested at Newark, New Jersey, a few weeks since, charged with counterfeiting legal tender notes, is pronounced not to be the author of the fraudulent notes, and has been discharged.

The Congressional Ways and Means Committee have been discussing the proposition for the best means of collecting the whisky tax. It seems probable that the Committee will eventually report a bill taxing the capacity of whisky stills.

An \$8,000 verdict which a fair lady obtained in a breach of promise case at Augusta, Maine, a few days since, ought to make men who do not intend to marry very cautious what they say or write to women who want to marry.

In the house owned by Mrs. Lincoln, at Springfield, Ill., in a glass frame, set a piece of Laura Keen's dress which she wore on the stage on the evening of the President's assassination. It bears a portion of the deep, dark, crimson stain which she received as she supported the martyr's head in her arms when she hastened from the stage to the box where he fell.

The impeachment question was finally disposed of by the House of Representatives on Saturday. By agreement between the opposing parties the motion to lay the subject of the table was withdrawn and a direct vote taken on the motion made by Mr. Logan, of Illinois, for the adoption of the majority report favoring impeachment. The vote was taken amid much excitement, but with profound order, the Speaker having previously announced that any manifestation of disapproval on the part of the spectators would be promptly punished. The result of the vote was—yeas fifty-seven nays one hundred and eight, absent or not voting nineteen. The vote was politically divided as follows: Ayes fifty-seven, all Republicans. Nays—sixty-eight Republicans and forty-eight Democrats. Thus it will be seen that the Republicans voting in the negative were sufficient to have decided the question, and also to put at rest the assertion that the measure was one for which the Republicans, as a party, were responsible. In a full House it is estimated that sixty members would have voted for, and one hundred and twenty against, impeachment.

The House of Representatives on Saturday, by the decisive vote of yeas 128, nays 28, passed the resolution reported from the Committee of Ways and Means, against any further contraction of the currency. The bill provides that, from and after the passage of this act, the authority of the Secretary of the Treasury to make any further reduction of the currency, by retiring or cancelling United States notes, shall be and is hereby suspended.

THADDEUS STEVENS.—The Washington correspondent of the New York Times says: The remarkable tenacity with which Mr. Stevens clings to the issues which have for many years had him in the foreground, was strikingly illustrated to day. He is brought to the Capitol in a carriage every day, is carried up the steps and into his committee room in a chair, and then, by the aid of the benches and a cane, he feebly and totteringly walks to his seat. To-day he came in this manner, presided in his committee, was in his seat during the speeches of Messrs. Boutwell and Wilson, and afterward, during the filibustering contests, answered to the roll-call from one of the sofas on which he lay at full length, at the rear of the hall.

GENERAL HANCOCK'S order re-instating prominent rebels in New Orleans, is exciting much comment. The rebels of that city are rejoicing. Congress may be compelled to interfere.

PRICES IN OLDEN TIMES.—In the year 1822, 45 years ago, the following were the market prices for some of the principal products: Wheat 40c per bush. Flour \$2.50 per bush. Oats 18c per bush. Butter 9c per pound. Pork \$3.50 per hundred, lard 5c per pound, molasses 35c per gal, hay \$5.50 per ton.

There are 2,442 Catholic and 54,000 Protestant churches in the United States.

Hon Robert J. Walker—says the Fredrick Republican—well knows an able financier, and former Secretary of the Treasury, has published an elaborate article on the financial condition of the country, and recommending what he believes to be, a safe and simple mode of a return to specie payments. Mr. Walker's plan for the relief of our financial embarrassments and for the revival in trade and business which the country so imperatively demands, is by contracting a foreign loan of two or three hundred millions of dollars, at six per cent, payable in gold. This he contends, with the restoration of the Southern States and reasonable reduction in our national expenditures, together with a modification of the existing tariff laws, will enable the Treasury Department to resume specie payment at an early day. He proposes to abolish our present entire system of Internal Revenue, and to impose a tax only upon the luxuries instead of the necessities of life. His views in regard to the reduction of the national debt are certainly of a sound and philosophic nature, and will receive the endorsement of a majority of those who have given the question of finance their careful consideration. This generation having given so largely of its blood and treasure, can consistently transmit a portion of the burden to a posterity which will inherit the liberties that have been preserved by us at so great a sacrifice. The author denounces in unmeasured terms, the men who would bring lasting disgrace on the American name, by repudiating the debt which was incurred through our own great struggle for national existence. We are not of that number who deem it expedient to resort to a foreign loan as the solution of our financial troubles; but notwithstanding this, we coincide with the author in many of his views, and trust that his letter may prove useful in solving the great problem, which unlike the Gordian knot has not yet found its Alexander.

THE ANTIETAM CEMETERY.—The Washington correspondent of the Boston Advertiser writes: The trustees of the Antietam National Cemetery held a meeting here on Friday evening, and had a rather warm time. The character of the charter is only just becoming generally known, and it appears that the document was so adroitly worded that the cemetery is intended for Rebel dead just as much as for the dead of the Union army; express provision being made that the Rebel soldiers shall be separated from the others, but that the remains of all should be gathered with equal care. Many Northern States have given money to put the ground in order and pay the expenses of the cemetery, and it was claimed by their representatives at the meeting last night that they would not have made these appropriations had they known the character of the charter, and the use to which the funds would be put. It was necessary, however, under the terms of the charter to set apart at this meeting a certain portion of the grounds for the burial of Rebels, and it was accordingly done. The trustees are talking about making a detailed statement to the country Governor Fenton and Governor Geary have ordered an investigation to be made into the affairs of the cemetery before they will pay over any more money.

The attention of Executors and Administrators is particularly directed to the following clause of the Internal Revenue Law: And every administrator, executor, or trustee, having in charge or trust any legacy or distributive shares, as aforesaid, shall give notice thereof in writing to the Assessor or Assistant Assessor of the district where the deceased grantor or bargainer last resided, within thirty days after he shall have taken charge of such trust. And in case of wilful neglect, refusal, or false statement by such executor, administrator, or trustee, as aforesaid, he shall be liable to a penalty of not exceeding one thousand dollars, to be recovered with costs of suit.

BALTIMORE, Dec. 7.—The court-martial investigating the insult offered to Gov. Swann by some officers and privates of companies D, E and G of the Eighth regiment of the Maryland militia, by grossing at him on the occasion of the parade, on the 15th of October found the parties guilty of officer-like and disgraceful conduct, and dishonorably dismissed both officers and men. Governor Swann approved the sentences.

COAL OIL FOR RHEUMATISM.—I wish to inquire if your readers are aware what is a valuable remedy the common coal oil is in rheumatic cases? I have been using considerable of it lately, and have found almost immediate relief from it. It is surprising how supple and free from pain it will render some of our stiff backs, suffering from all sorts of "cricks," and the weight of divers scores of years. So very valuable a remedy deserves to be more generally known, as its cheapness and abundance renders it generally accessible. Care should be exercised in using at night before lamp or fire light, as it sometimes explodes.

Brigham Young, not content with one attack on civilization and christianity, is after the little god of love. In a late order, this beast of a prophet orders the young men of Utah to marry right off all the unmarried girls, and not allow themselves to be guided by love, but marry as they come. Love he pronounces as a humbug, and winds up by saying that if after a certain time any girls are left over, he will marry them.

Miss Mary Jane Hayes recovered a judgment for ten thousand dollars against Isaac Hart, in the Clinton county (Ohio) Common Pleas Court last week for breach of promise of marriage.

Hoffman, the Tammany candidate, has been elected Mayor of New York by a large majority over Fernando Wood, Mozart Hall candidate, and Hon. Wm A. Durling, republican candidate.

Breathes there a man with soul so dead—who never to himself hath said—I will my local paper take—both for my own and family's sake.—If such there be, let him repent—and have the RECORD to him sent—and if he'd pass a happy winter—he in advance should pay the printer!

ECLIPSES.—There will be two eclipses of the sun in 1868. One February 23, at nine o'clock—twenty minutes, in the morning, visible in the United States, visible in South America, the Atlantic Ocean and Africa. The second is a total eclipse of the sun, August 18, at twelve o'clock fifteen minutes, in the morning.

DAILY TELEGRAPH.—We publish in another column the Prospectus of the Harrisburg Daily Telegraph. Any of our friends wishing a paper from the State Capitol will not go amiss by subscribing for the Telegraph. It will contain a full summary of Legislative proceedings, Congressional doings, and general news. The Telegraph is a high-toned, substantial Union Journal, and merits an extended circulation.

ROAD LAW.—We learn from a prominent farmer of Quincy township, that the road law referred to in our last issue gives very general satisfaction among the farmers there. A short time has elapsed since the law went into effect, but the improvement upon the roads is noticeable everywhere. We learn further that should an attempt be made to have the law repealed Quincy township will send a strong protest to Harrisburg against such action. If this new mode of keeping the public roads in repair operates well in one section it should do so in others, and we trust after a fair trial it will be found to meet the wants of farmers equally well in our township.

SUDDEN DEATH.—A despatch was received here yesterday morning announcing the death of W. H. Brotherton, at his home in Lock Haven, Clinton county. This announcement has been received here with feelings of the most profound regret. Only last week we announced the death of his brother, Mr. Jno. Brotherton at Springfield, Ill. Events so sad and so close together fall with crushing weight upon a devoted mother, sisters and other friends here, who will have the heartfelt sympathy of our community generally in these afflictive dispensations of Divine Providence. The despatch does not state the disease of which Mr. B. died, but the supposition is that it was heart disease, as he was known to suffer at times from this complaint. Mr. Brotherton established himself in the hardware business in Lock Haven in the Spring of 1866. He was an enterprising business man, and in his business and social relations had the esteem and confidence of all who know him. He was well known throughout our county and the announcement that he has thus been cut down in the vigor of manhood will cause wide-spread sorrow and regret.

BOLD ROBBERY.—We learn from the Hagerstown Herald and Torch that Mr. Elie Masters was waylaid near that place on Thursday night last and robbed of \$550, a Revolver, &c. He had been to Virginia on business and was on his way home a foot—When he reached Wood Point School House, at the forks of the Broad Fording and Mercersburg roads, three men sprang from behind the School House, and knocking him down with a club, rifled his pockets of their contents.

THE NEW SEEDLING POTATOES.—This has been a season to test the new varieties of potatoes. The long continued rains have induced rot, and the disease has prevailed to a much greater extent than for several years. We planted the Cuzco on gravelly land, and had a good crop, with no appearance of disease. A neighbor planted the Penobscot on the same kind of soil, and did not get enough to pay for his labor. The disease was probably owing entirely to the varieties of the potato planted. The Cuzco is one of Godrich's Seedlings which we have planted for six years with uniform success. The Garnet Chili and Pink eye Rusty Coat are free from rot, yield well, are of fair quality. The new seedlings are generally much more free from rot than the old varieties, and ought to be universally adopted.—American Agriculturist.

Our neighbor Mr. Reid, sold the above varieties of new seedling potatoes last Spring, and the yield and quality have been satisfactory to all who tried them. Of the Cuzco potatoes, we heard of an instance where but two potatoes were cut and planted, and in the Fall a half bushel of choice potatoes were taken up. The average yield seem to be from twenty-five to thirty bushels from one bushel planted; in some instances much larger. They are free from rot. Mr. Reid deserves the thanks of the community for introducing such choice varieties.

The following extract in regard to delinquent subscribers, speaks the sentiments of the press generally, when it says: "Except the cash system is exclusively observed, we know of no business whose bills are so difficult to collect. This is not because the subscribers are unwilling to pay, but it is principally owing to their neglect.—Each one imagines that because his year's indebtedness amounts to but a small sum, the printer cannot be much in want of it, without for a moment thinking that the fruits of his entire business are made up of exactly such little sums, and that the aggregate of all the subscribers is by no means an inconsiderable sum of money, and without which the publisher could not for a single day continue to issue his paper."

APPOINTMENTS.—The following appointments were made by the County Commissioners last week:—Counsel Wm S. Everett, Esq., Clerk, George Foreman; Physician to Jail, Dr. John Lambert; Mercantile Appraiser, M'Ginley Skinner; Janitor to Court House, Samuel McGowan.

An Indianapolis paper is of the opinion that there is no danger of the Hoosier stock running out for its editor met an old gentleman the other day taking his family out a nutting, and mistook them for a Sunday School on a country excursion.

PHILADELPHIA, Dec. 10, 1867.—The contested election case was again before the court all of yesterday. It has already been established beyond a shadow of doubt, that many illegal votes were cast—indeed sufficient to extinguish the major majority by which George Sharpsword was declared to be elected Judge of the Supreme Court. In order to show your numerous readers how the election was conducted, I inclose you some of the evidence elicited before Judge Allison yesterday.

Written for the Village Record. THE DEVIL AND THE LAWYERS! BY FRANK COLEMAN.

The devil came up to the earth one day, And into the court-house he wended his way, Just as the attorney, with very grave face, Was proceeding to argue the points in the case. Now a lawyer his majesty never had seen, For in his dominions none ever had been, And he felt very curious the reason to know, Why none had been sent to the region below. 'Twas the fault of his agents his majesty thought, Why none of these lawyers had ever been caught, And for his own pleasure he had a desire, To come to the earth and the reason inquire. Well the lawyer who rose with visage so grave, Made out his opponent a consummate knave, And the devil was really greatly amused, To hear the attorney so greatly abused.

As soon as the speaker had come to a close, The contending parties then fiercely arose, And heaped such abuse on the head of the first, And made him a villain of all men the worst. Thus they quarreled, contended and argued so long, 'Twas hard to determine the one that was wrong, And concluding he'd heard quite enough of the fuss, Old Nick turned away and soliloquized thus— If all they have said of each other be true, The Devil has surely been robbed of his due; He satisfied now 'tis all very well, For the lawyers would run the morals of hell.

They have puzzled the court with their villainous cavil, And I'm free to confess they puzzled the devil, My agents are right to let lawyers alone, If had them they'd swindle me out of my throne. Fairplay Md

PROSPECTUS FOR 1868.

HARRISBURG DAILY TELEGRAPH. More than eleven years have elapsed since the undersigned undertook the hazardous task of establishing a daily paper at the Capital of the State. In 1856, on the 7th day of October, the Daily Telegraph was first projected by the present proprietor, and we need not tell our readers that doubt existed in the minds of many of our friends of our ability to sustain the same, with the limited means at command, but fixed determination, energy and industry have crowned our efforts with success, and the Telegram to-day bears abundant testimony that it is a permanent institution of the Capital city. When we remember that we started with but one Washington and an old wooden power press, which was sufficient to do all our press work at that time, we feel exceedingly gratified to inform our readers that it requires no other large double cylinder Taylor press, two large size cylinder Taylor presses, a job press and a large iron hand press, to supply the wants of the public, and the same increase, in proportion, of other printing materials. The size of the daily is today twice as large as when we started the name, and we should not be surprised if we are compelled again to enlarge it before the close of the present volume. It is now the largest daily published outside of the commercial cities in the state.

Proceedings of the Legislature and Congress. It shall be our aim during the next winter to publish complete and full reports of the proceedings of the National and State Legislatures, together with full telegraphic dispatches from all parts of the world. The political complexion of the paper is so well known that we need not refer to it, and we can assure our Republican friends that notwithstanding the slight reverses during the past year we do not intend to take any step backward, and we have the hearty desire of the Republican party, and we shall enter into the next Presidential contests with renewed vigor.

TERMS OF THE DAILY. THE DAILY will be furnished to mail subscribers at the following rates, viz: One copy during the session of the Legislature Ten copies during the same period, in one \$2 00 pack One copy daily per year 15 00 Ten copies daily per year for the same period, 60 00

THE WEEKLY TELEGRAPH. Will be printed, as heretofore, on a large sheet, and not only contains all the important matters published in the DAILY but also additional reports of the markets, &c., and extended notices of political matters of the State at large. The ensuing Presidential campaign will be of the greatest importance, and we hope that every Republican in the State will assist us in circulating such documents as will bring the truth to every fireside in the country. TERMS OF THE WEEKLY. THE WEEKLY will be published regularly every Wednesday morning at the following rates, viz: One copy, weekly, for one year \$2 00 Five copies, weekly, for one year, in one 8 00 pack Ten copies, weekly, for one year, in one-pack 15 00 Twenty copies, weekly, for one year, in one 25 00 pack Fifty copies weekly for one year, in one 50 00 pack We have placed the price of our paper to clubs at the very lowest rates, and we hope to receive orders from our friends promptly.
