A NEW AND IMPORTANT DISCOV-

Restoring the Sight of the Aged, STRENGTHENING THE WEAK, AND PRE-

SERVING THE PERFECT SIGHT. The Concove-convex, Crystal SPECTACLES introduced trough me a short time since, have pro-

to it is developed up with remarkable. The Concave convex Grasses are ground from the its developed to a the cheapest and most pure crystal in such a manner that the focus is disis the post be teners yet offered to tributed over the entire surface! They therefore af ford a clear and distinct vision to the eye, in what ever direction it may be turned, whereas the old double convex grasses require a direct sight through

> THE CONCAVE-CONVEX GLASSES are patterned after the shape of the cornea of the human eye; they give a clear and healthy light to the eye, and prevent it from becoming fired or dim. Whether used by daylight or lamplight, they never leave that unpleasant feeling in the eyes, which is so common from the use of the old style Glasses .-Persons who after reading or sewing feel their eyes growing dim and smarting, are advised to try these

new and improved CONCAVE-CONVEX GLASSES.

They can be used a long time before changing to a higher power. Also constantly on hand SPECTACLES to suit all other deficiencies of the sight, such as near sight-edness, weakness, inflamation, cataract. &c Every pair of Speciacion being adjusted by an Optometer which gives the exact power of the eye, is warranted to suit. .

AT SHORT NOTICE.

THE BEST IN AMERICA

ARATOR AND

Patented April 12, 1864 and February 28, 1865.

Farmers can rest assured that this Machine is no humbug, and judging from the many high recommendations of many farmers who are using them, we have come to the conclusion that it is the very Machine that every farmer wants and will have as soon as they have an opportunity to test its merica. Ine man, without any assistance, can feed, turn and shell Seventy five Bushels per day:

TEE THE STATE OF T

The following is the report of the Judges on this Machine, at the great trial of Agricultural Implements, held at Auburn, N.Y., in July, 1866, under the auspices of the New York Agricultural Society:

"Among the Machines on Exhibition, was a Hand Corn Sheller. Separator and Cleaner, exhibited by Jacob Brinkerhoff, Auburn, N. Y. We have carefully examined and thoroughly tested this Machine, and have no hesitation in pronouncing it the best Corn Sheller we ever saw. It readily adapts itself to cars of any size and shape, shells clean, and with great rapidity and case, and at the same operation separates the corn from the cob, and the chaff from the corn, and delivers the corn ready for market; and it requires but the labor of one person to operate it. The whole affair is simple in construction, and durates

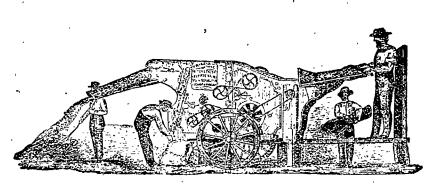

JOHN STANTON GOLD, Pres. N. Y. State Ag'l Society. BENJAMIN P. JOHNSON, Soc'ry N. Y. State Ag'l Society. SOLON ROBINSON. Ag'l New York Tribune, S. EDWARDS TODD, Ag'l Editor New York Times.

Dated August, N. Y., July, 1866.
[Copy of Letter from U. S. Agent for the Paris Universal Exposition.] "MR. J. BRINGBAHOFF- Dear Sir: My Advisory Committee, appointed to select implements for exhibition at the Universal Exposition, in Paris, in 1867, have selected and recommended to me-your Corn Sheller, as the bost in America. I have accepted their report, and will forward your Sheller, if delivered here, ready for shipment, on or before January 1, 1867. Yours truly."

J. C. DERBY, U. S. Agent, &c. The undersigned having secured the right for Franklin County, Pa., and Maryland, a pertion of the Territory will be sold on liberal terms. Good-and-responsible-agents-wanted to self-the hove Marchine who will be supplied on application. Retail price of Machine \$25.00. For further information

LIDY, LECRON & GILBERT. N. B. We are also manufacturing GRAIN DRILLS, Corn Shellers, Washing Machines, Straw Cutters, &c, and are prepared to do all kinds of REPAIRING at short notice and in and in a worker-naike LIDY & LECRON. manuer Nov. 29, 1867.

Improved Thrashing Machine!

Farmers will please look at the great advantage in Thrashing

GEISERS' PATENT SELF-REGULATING GRAIN SEPARATOR, CLEANER AND BAGGER.

With the latest Improved Triple-Geared Horse Power, driven either by Gear or Belt

This Machine is conveniently arranged for hauling and threshing, being permanently fixed on two wheels. One man can easily move or shift it about, so that it is not half trouble in a barn floor as ac common thrasher and shaker. It is also easily put in operation. It is simple, easily munaged, reliable durable, compact and cleanly to work by when in operation, not making near the dust—as the common machine or other Separators.

Farmers can rest assure i that this machine is no humbug, and judging from the high recommenda tion of farmers that are using them, I must come to the conclusion that it is the very Machine that farmers want and will have as soon as they have an opportunity to appreciate and attest its merits, for which I hope they will give me an opportunity, as I am willing to be responsible if it does not perferm,

as represented in this Circular.

No. 1 is a eight-horse power, with cast from thresher frame and wrought from and wood cylinder, six, cen inches in diameter and thirty-three inches long. Trunk his ten inch rake crank and seven rakes is thirty-five inches wide, and delivers the straw on the second rake, these carry the straw out on their tops, and deliver it on the stacker, which will deliver about thirty-five feet beyond the feeder, on a stack fifteen to eighteen feet high, and can be easily managed to carry the chaff with the straw, or deliver it in a separate place. The trunk and fan sides being closed, to confine the straw and chaff, remedies all difficulties in creaning grain against wingy weather. It bags the grain by reasonable management, sufficiently clean for market, and its capacity, under ordinary circumstances, is from twenty to forty bushe els per hour, using eight horses and the same number of hands; but to force the work under favorable circumstance, it will thresh from forty to fifty bushels per hour, and with more case and agreeubleness

to hands than any other machine now in common use. The No. 2 Machine, fully represented in the above cut, is particularly adapted to the farmer's use; in intended to apply to any common lever or railway power; weighs 1.300 pounds; has an iron threstes frame, and cylinder, 12½ inches in diameter and 28 inches long; delivers the clean grain in bags, orafr desired, in a half bushel. It delivers the straw fifteen feet from the freeder, or if desired, can deliver the strow and chaff together; will thresh and clean, in good grain, ready for market, from 100 to 175 bushels nofwheat, or from 300 to 500 bushels of onts per day, using four or and horses, and the same number of dhas; but to force the work, under most favorable circumstances, good g. nin, &c., will thresh and clea n considerably more. The Machine will threah and clean all kinds of grain generally threshed with the common machine, and requires no more horse power, but in many cases does not run so hard. It will

apply very well to a two-horse railway power Shop Prices of Machines range from \$210, to \$525. [37] warrant the machines to be as above represented; also against any reasonable defects of materi

Having now taken a room to keep Repair Castings on hand, I have also selected and am prepared to furnish a variety of other agricultural implements, the latest and best improved, and such as are best adapted to the wants of the farmers of this part of the country: Such as the Hagerstown (Miller's) Clover Stemmer, Huller and Cleaner, which is proving by its own merits to be one of the best machines of the kind now in use. The latest improved BUCKEYE REAPER AND MOW-ER combined, with Dropper, and the Mower alone. The American May Fork and Knife combined, Hay Rukes, Fodder Cutters, Cider Mills, &c. &c. &c., which I will furnish on short notice and warrant them to answer the purposes for which they are intended.

To orders solicited and promptly attended to. For further particulars, circulars, &c. address

DANIEL GEISER. Waynosboro', Franklin Co. Poun's. 10.000 POUNDS OF BUTTER!

HE quantity of butter made in this country is too small. It can be increased 10.000 pounds by the use of Nixon's Horse and Cattle Powders Good for all diseases of Herses Cattle, Sheep and Hogs. Sold by J. F. KURTZ, Wayn, shore

Waynesbor Read these certificates, hundreds of whic could be published: Four or five years ago, J. S. NIXON compounded a Horse and Cattle Powder, and asked me to try it. I was the first farmer to whom it was given

and the first one to use it for stock. I found it full ly equal to what Mr. Nixon said of it, and I-haeitextensively since, and heartily recommend it to farmers as a sure thing in fattening stock of sikinds and a capital Powder for Horses. MICHAEL EBERSOLE. Chambersburg, December 1865,

Mr. J. S. Nixon .- To the multitude in this pos

tion of our State, who have used your Cattle Powders no commendation is necessary. Its beneficial erlects have been fairly tested, and hence its unbounce ded popularity. I have used it for my horses cows for several years past, and cannot afford to do without it. It keeps all kind of cattle in good condition, loosens the skin, smoothes the hair, and sharpens their app tiles. As a preventive from discase, I reard it as invaluable. Yours, &c., REV. B. S. SUHNECK. Chambersburg, April, 1866.

Ma. J. S. Nixon - Dear Sir :- I gave your Hors and Caule Powder a fair trial with all my stock Horses and cattle, and it improved them wonderfu ly. It speedily increased the richness of the milk o my cows, and improved the condition of my stoc

I can cordially recommend it as the best thing of the kind I have ever known or tried, for all kinds of stock, and it should be kept in every stable.

Yours truly. A. K. McCLURE, Ed. Repository.
