A NOTICE FOR ALL TO READ!

THE "MORNING GLORY!"

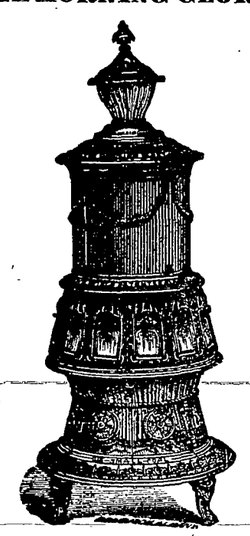
Is the Cheapest and the Best Base Burning Stove before the Public!

THE No. 9 M. G. sells at $25, and is nearly 50 lbs. heavier than the No. 9 Oriental, and is larger than the No 10 or No. 11, which sells at five to six dollars more than the No. 9 M. G. Again, the morning Glory is *the* only stove that breaks up its cinder and passes them off with the ashes. This is done by means of the *Mill Grate*. This grate is not in any other stove, nor can any other stove use it—This mill grate is insured for five years, now, in the Oriental stove, when you must take out cinder you have to open a door on top of the fire-pot and with a poker rake them up and pass them out through this door Very nice that, provided some of the hot cinder falls on your nice carpet. "Oriental Book, page 3 says that you must take off your pipe during the season from the stove and remove the ashes &c., which have accumulated in the back flue." Another nice job in a nice room. Now, nothing of this kind have you to do in the Morning Glory.

W. A. TRITLE is the only agent in Waynesboro' for the sale of the M. G. stove. He has sold since the 28th day of Sept., 50 of these stoves. The M. G. has taken since 1866 all first class Premiums over all other Base Burning stoves. Call and see the stove in operation and learn what the stove is, for yourselves, then you can judge which is the best stove. Trusting that in this exposure I have done no injustice I leave it for the public to judge as to which of these stoves shall receive their patronage.

CELEBRATED BASE BURNING STOVE

THE MORNING GLORY!



The Morning Glory is a perpetual burner, having a magazine or reservoir for reserve coal, which is required to be filled but once a day, and if the proper sized coal is used it is not neccessary to rekindle the fire during the entire winter.

(No clinker will remain in these stoves, nor will there be any trouble from slate, or other impurities in the coal, the fire being always at the base of the coal, the impurities are left in the ashes and ground out by the "Mill-grate.")

THERE'S NO ESCAPE OF GAS OR DUST

ECONOMY OF FUEL!

The combustion of fuel being perfect and at a high temperature, the amount of heat produced from the same quantity of coal is much greater than at a low temperature, hence but a small quantity of fuel is neccessary to be undergoing the process of combustion at one time. The entire outer surface of the Morning Glory is radiating surface. Add to this the surface of objects heated by rays of light through the mica windows, and you have the rest of the great heating properties of the Moning Glory with a small amount of fuel.

☞ For sale at W. A. TRITLE'S Tin and Stove Store.

He has a large stock of Stoves Tinware and other goods in his line, which he will sell cheap. You will find the best COOK NINE PLATE and COAL STOVES in market. Also on hand Brass, Copper and Iron Kettles. His Copper Kettles are better than are offered for sale elsewhere, and cheaper, as he makes them, and can sell at shorter profits Also the best CISTERN PUMP in market, is strong, simple durable and cheap, is insured not to freeze. Call and see it. All kinds of repairs done in Tin, Copper or Sheet iron. Don't fail to call as you will find a large stock of goods.

Sept. 6.—7 mos. W. A. TRITLE.

LIVERY! LIVERY!

THE subscribers announce to the public that they still continue the Livery business. Having recently added both horses and vehicles to their stock they are now better prepared than ever to accommodate persons wanting fine riding and driving horses and comfortable conveyances. An attentive Ostler always in attendance and parties conveyed to any point desired, night or day. Passengers conveyed daily to and from Greencastle Their Bus leaves at 6½ A. M. and returns 7, P. M.
