

VILLAGE RECORD

WAYNESBORO,

Friday, January 31, 1868.

The State of Iowa is cut of debt, with about \$100,000 in the Treasury. There is no other State in the Union equally fortunate.

A colored glutton named Watson, devoured three hundred raw oysters in Pottsville, Pa. last Monday evening. He occupied an hour and a half in the eating.

A grand convention of ex-State prisoners is to be held in New York city on the 22d of February next. Vallandigham will probably preside.

A great majority of the Louisiana Convention has signed a petition to Congress asking for the removal of Gen. Hancock and the State officials.

Secretary Stanton says that no despatches have been received at the War Department relating to suffering among the troops at Alaska.

A meeting of the Lincoln Monument Association was held at Springfield, Ill., on Thursday, and it was resolved to erect a monument costing two hundred thousand dollars.

Lucky Tickets—W. R. Scribner, of No. 678, Broadway New York, was the holder of the number that drew the \$10,000 prize in the Riverside Institute distribution. The second prize of \$20,000 was drawn by Mr. R. Somerby, of Boston, Mass.

Old Gideon Wells wanted to disburse forty-seven millions for the navy this year, but Congress promptly let him know he would get no such appropriation, whereupon he fell down to twenty-four millions. It strikes us one-fourth of that sum ought to be sufficient.

The School Directors of Bethel township, Fulton county, recently turned out of school two colored children, although the teacher gave them a good character and was willing to teach them. These directors would not doubt sooner go to—in white company than to heaven with black.

The New York Times significantly says: "There is no doubt now that Congress is quite as determined in its purposes as President Johnson in his. It will be thwarted by no agency whatever. And the fact that it has power to carry out and enforce its will is making itself felt in every department of the Government, in a way that will not be fully understood till it has fully completed its work."

General Howard, in response to a resolution of inquiry of the Senate, states that he has issued orders for the closing up of the office of the Freedmen's Bureau in Maryland after the 15th of February next, but that large numbers of prominent citizens of the State, including a delegation from a large educational association in Baltimore, have made verbal representations to him deprecating in the strongest terms the proposed discontinuance.

A Bold and Heavy Robbery.—The house of John Benninghoff Hill, near Titusville, Pa., was entered at 7:30 P. M., on the 16th, by four men disguised by handkerchiefs over their faces, and robbed of over \$30,000, of which \$10,000 was in bonds, and the balance in currency. The thieves presented revolvers to the heads of the inmates, and tied Mr. Benninghoff, his wife, two sons, a hired man and girl, and taking the keys from Mr. Benninghoff's pocket, they opened the safe and extracted the above amount; after which they sat down and waited half an hour for the return of Joseph Benninghoff, another son, who had in his house one of Lillie's patent burglar-proof safes, containing a large amount of money. He did not return until they had left, taking with them three horses and a cutter.

The Hamilton (Ohio) Telegraph announced the death of Mrs. Nancy Cooley, at the age of 108 years and 17 days. She was born in Virginia in December, 1759, and emigrated to Kentucky while still young. She married the late William Cooley, who had been a revolutionary soldier. They removed to Ohio when it was a wilderness, settling upon the banks of Four Mile Creek. Her husband, who was familiarly known as "Uncle Bill Cooley," was never known to owe a man a dollar, never allowed any one to become indebted to him, and would not receive paper money for any of the products of his farm. His wife, who long survived him, resembled him in the fact that she never contracted a debt. Mrs. Cooley received a pension during her life on account of her husband's services in the Revolution. She leaves no descendants, and it is not known that she had any relatives in Ohio.

In the Eighth District of Ohio on Monday, the Republicans elected Gen. John Beatty as their Representative in Congress in the place of the late Mr. Hamilton. Mr. Beatty's majority is over 1,000. In 1866, when Mr. Hamilton was elected, the District gave 1,892 Republican majority. In 1867, on the Governor's vote (the last election), it gave 246 Republican majority.

The graveyards with in the Metropolitan district of London cover 587 acres of ground and hold more than half a million of dead.

FREE LECTURE.—We have been requested to announce that the Hon. Chas. Lee Armour, will deliver a Lecture in the Town Hall, to-morrow (Saturday) evening. Subject: "Over the Plains and Among the Gold Fields of Colorado."

RELIGIOUS.—Revivals are at present in progress in the Lutheran Church at Quincy and at the Blue Rock School House, the former is conducted by Rev. A. Buhrman and the latter by Rev. C. V. Wilson, of the M. E. Church.

DELINQUENTS.—We have commenced and will continue to forward accounts to those who are largely in arrears for subscription at this office, and hope that they will respond promptly and favorably. We have several payments to make within the next couple of months. Those who have neglected their accounts will therefore greatly relieve us by promptly paying over their arrearages.

Col Winger, the Representative from this county, we observe has introduced a bill in the House of Representatives having in view the payment of losses sustained by the border counties during the war. Indiana has paid her citizens for losses thus sustained, and justice demands that our commonwealth should do likewise.

Candlemas Day, or feast in honor of the purification of the Virgin Mary, comes on Sunday next. Popularly it is now known as ground hog day, and the weather wise predicate that if the day is clear winter will continue six weeks longer, while if the day be cloudy so that the ground hog cannot see his shadow, he will remain out and the winter be broken.

LOCAL PAPERS.—There are many persons who either take no paper at all, or else take one from a distant city, and whom they wish to see what is transpiring in their own neighborhood, they beg or steal the local paper from some citizen more liberal than themselves. Many men of this kind are engaged in business and frequently grumble because people do not patronize "home industry" when they practiced the very thing of which they complain.

IMPORTANT TO SOLDIERS.—By a recent decision of the Court of Claims, the members of the following Pennsylvania regiments are entitled to \$100 bounty: 26th, 27th, 28th, 29th and 71st; also, all persons who enlisted between April 15th and July 23d, 1861, and were discharged upon surgeons' certificates of disability and received no bounty.

VENTILATION.—The great importance of ventilation in our sitting and sleeping rooms, in our schools and public halls, is not sufficiently appreciated. It was well set forth in a recent lecture by a Cleveland professor. It is startling to learn the amount of carbonic acid emitted from the lungs of one person, or from a single gas burner, enough to poison the whole atmosphere of a good sized room in a very brief period of time. How many persons think that winter temperature demands the exclusion of fresh air to make their apartments more warm and comfortable, when the fact, that in the cold season, we consume more oxygen and consequently inhale a greater quantity of the poisonous carbonic acid gas, should lead to a directly opposite course. A bed room in winter requires more ventilation than in summer, and the non-observance of this fact, will readily account for the awful diseases to which frail humanity is subject. We wonder if many of our readers are aware of the poisonous exhalations incident to a congregation of their "fellow-citizens," in ball rooms, churches and lecture halls. If they have not fully considered the vast importance of thorough ventilation, let them take these undeniable facts home to their serious thoughts. A person in health has eighteen breathings per minute, and thirty-five hogheads of air pass through the lungs in twenty-four hours. Of this, from three to five per cent. or about two and a half hogheads, is exhaled as carbonic acid gas, and thus one person would render two or three hogheads of air unfit for breathing again. Let every person anxious for the preservation of his health take care that the windows of the dormitories are dropped a little, even during the winter nights. There is far less danger of taking cold than there is of inhaling the noxious atmosphere, which saps the health, undermines the constitution and embitters life with suffering and disease which might have been avoided.

THE BAND.—The Waynesboro' Band, organized about three months since, under the leadership of Prof. Dock, appeared on our streets a few evenings since and favored citizens with several pieces of choice music. Considering the short time they have had to practice their style of playing, took even judges of music by surprise. The progress the members have made in so short a time is certainly creditable to them, and speaks well for their leader. A Band in a town is a great convenience on public occasions, and nothing gives a community more life, especially during pleasant summer evenings. Now is the time our young friends need encouragement, and if citizens will aid them when aid is needed it will not be long before we can boast of a Band second to none in the county.

FROZEN TO DEATH.—We are pained to learn that on Wednesday evening last, Mr. Jacob Mickle, sr., an old and much respected citizen of Franklin township, was frozen to death. He had been as Mrs. Brough's above Hilltown, and on returning, undertook to cross some fields in order to reach home sooner. Being a very old man, it is supposed he became exhausted and fell, and being unable to regain his feet perished from cold. His loss will be deeply felt by his immediate friends. He was aged 87 years 1 month and 29 days. —*Catsbury Sentinel.*

RAILROAD ELECTION.—In Columbia, on the 18th inst., the following gentlemen were elected Directors of the Gettysburg Railroad Company: President W. G. Carr, Directors—C. S. Matly, S. W. Collum, Wm. Bittingers, Philip Small, Wm. McConkey, H. M. North, Henry Musselman, J. L. Pinkerton, Geo. W. McClellan, John McFarland, D. McConaughy, James D. Case.

NEW FIRM.—We direct attention to the advertisement of Messrs Lidy, Frick & Co., who have taken the establishment lately owned by Lidy & Lecron, and are now manufacturing Drills, Corn Shellers, Patent Clothes Washers, &c. &c. They have also opened a regular Lumber Yard for public convenience.

Fulton County Buckwheat Flour for sale at Reid's Grocery.

THE ANTI-CONTRACTION BILL.—The following is a copy of the anti-contraction bill as it goes to the President:

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That from and after the passage of this act the authority of the Secretary of the Treasury to make any reduction of the currency, by retiring or cancelling United States notes, shall be, and is hereby, suspended; but nothing here contained shall prevent the cancellation and destruction of mutilated United States notes and the replacing of the same with notes of the same character and amount.

GRANT'S ARRIVAL IN RICHMOND.—The Richmond Register of Tuesday has the following concerning Gen. Grant's recent visit to that city: The General commanding the armies of the United States, who is at this moment looked upon as the foremost man of all the world, arrived very quietly in the city yesterday, and put up at the private residence of his brother-in-law, Dr. Sharp. He came unheralded, and was, therefore, not received with a display of banners and the beating of drums, pomp and vanities that are distasteful to a modest man like our successful General. Attired in the simple garb of a citizen, he could not be distinguished from the common mortals who surrounded him as he left the cars and passed through the hurrying crowd.

TREATMENT OF DIPHTHERIA.—An exchange says that diphtheria in its early stage may be recognized by any person of ordinary capacity by two marked symptoms—the sensation of a hoarse or hard substance in the throat, rendering swallowing difficult and painful, and a marked fetor, unpleasant smell of the breath, the result of its putrefactive tendency. On the appearance of these symptoms, if the patient is old enough to do so, give a piece of gum camphor of the size of a nutmeg and let it be retained in the mouth, swallowing slowly the saliva charged with it until it is all gone. In an hour or so give another, and at the end of another hour a third; a fourth will not usually be required; but if the pain and unpleasant breath are not relieved, it may be used two or three times more, at a little longer interval, say two or three hours. If the child is young, powder the camphor, which can be easily done by adding a drop or two of spirits of alcohol to it, and with an equal quantity of powdered loaf sugar, or better, powdered rock candy, and blow it through a quill or tube into its throat, depressing the tongue with the half of a spoon.

Hung Himself.

On Sunday morning last, as Sheriff Shantz was taking his rounds to unlock his prisoners, who he came to the cell of George Illig he found him standing with his back to the grated doors. The Sheriff had no suspicion at the time of anything very unusual having occurred, and calling George by name, asked him why he was standing there. Receiving no answer he put his hand through the door and touched him, when his suspicion was aroused that something was wrong. He pulled open the door, when the body came swinging out with it, suspended from the top of the door by a piece of sheeting which had been twisted into a rope, and quite dead. Assistance was called, the body was taken down, and an inquest held by Coroner Bentz. On investigation being made, it was found that Illig had tried to escape, but was unable to carry out his plan. He was very depressed in spirits from the time of his arrest (which was on the charge of stealing sleighs, &c.) and was firm in the belief that he would be sent to the Penitentiary for fifteen or twenty years. He left a few lines behind him, which had evidently been written in the dark, bidding farewell to all, asking God to forgive him. On Sunday about noon his body was taken to the Alms-house for interment. Any one who remembers him for interment, two or three years back—a fine looking and apparently a highly respectable young man—cannot but be touched with pity over his melancholy end. In the spirit of charity in which all our unfortunate should be judged, let us believe that his offenses were the offspring of a diseased mind rather than a bad heart. —*Lebanon Courier.*

A bill has been introduced in the New York Legislature providing that it shall be unlawful for one first cousin to engage or agree to marry another first cousin of the same consanguinity. Any person violating the proposed law may be punished by fine of not more than \$1,000, or imprisonment for not longer than one year, or both fine and imprisonment.
