**MORE SALES.**—Special attention is directed to the public sales in to-day's paper by Abm. Golley, D. H. Fahrney and John Bemisderfer.

**WORK FOR CHILDREN.**—There is no greater defect in educating children, than neglecting to accustom them to work. It is an evil that attaches mostly to towns and cities. Our children suffer much for it. The parent does not consider whether the child's work is necessary to the child. Nothing is more certain than that in their future independence and comfort much depends on their being accustomed to work—accustomed to provide for the thousand constantly recurring wants that nature entails on us. If this were not so, still it preserves them from bad habits—it secures their health—it strengthens both body and mind—it enables them better to bear the confinement of the schoolroom—and it tends more than anything else to give them just views of life. Growing up in the world without a knowledge of its toils and cares, they view it in a false light. They cannot appreciate the favors you bestow, as they do not know the toils they cost. Their bodies and minds are enervated, and they are constantly exposed to whatever vicious associations are within their reach. The daughter probably becomes that pitiable, helpless object, a novel-reading girl. The son, if he surmounts the consequences of your neglect, does it probably after his plans and station for life are fixed, and when knowledge, so far as one of its important objects are concerned, comes too late. No man or woman is fully educated, if not accustomed to manual labor. Whatever accomplishments they possess, whatever their mental training a deduction must be made for their ignorance of that important chapter in the world's great book.

**MILL BURNED.**—The large flouring Mill belonging to Mr. Frederick Foreman, formerly Frantz's, situated on the West Conococheague Creek, in the Welsh Run settlement; this county, was entirely destroyed by fire on Friday evening the 24th ult., with its contents consisting of about 5000 bushels of wheat, etc. The Mill had been lately repaired, and one of the gudgeons being screwed too tight caused friction, from which the building took fire. Mr. Foreman's entire loss will perhaps not fall much short of twenty-five or thirty thousand dollars, upon which we learn he had only an insurance of \$4000. Mr. F. is an enterprising business man, and we regret that it has been his misfortune to thus sustain so heavy a loss.

**THE LITTLE CORPORAL,** for February, is a very fine number. The Publisher offers most beautiful premiums, and unusual inducements to raise Clubs. Terms, One Dollar a year. A sample copy will be sent free to any one who applies for it during February. Address ALFRED L. SEWELL, Publisher, Chicago, Ill.

It was rumored in Washington on Monday that Gen. Meade had ordered the arrest of Gov. Jenkins, of Georgia.

On Monday in Alabama, the Constitution was submitted to the people. The polls were to be kept open four days.

The Free Railroad bill passed the House of Representatives, at Harrisburg on Tuesday by a unanimous vote.

The cholera is reported as prevailing in New Orleans with great fatality, some 60 deaths occurring last week.

The Anti-Contraction bill is now a law, the ten days during which the President must either sign or veto a bill having expired.

**RECEIVED.**—We acknowledge the receipt of \$6.50 from A. Jones, Iowa City, Iowa.—Also \$2 from L. A. Harbaugh, Elkhart City, Ill.

**BIG PORKER.**—A hog was recently slaughtered in Adamstown, Lancaster county, 20 months old, which weighed (clean meat) 94 1/2 pounds. So the Examiner states.

**LEG BROKEN.**—We regret to learn that Mr. Solomon Flory on Monday last fell on the ice near the Sash and Door Factory of Rev. D. Good, breaking one of his legs.

**Gov. Swann** of Maryland refuses a certificate of election to Hon. W. T. Hamilton as U. S. Senator, alleging that his election was illegal.

**NORMAL INSTITUTE.**—It will be seen by reference to our advertising columns that the next session of this flourishing Institute will commence on the 2d day of March.

In this institution a public want has been supplied, and it is gratifying to us to be able to state that it has so far been liberally supported, and that the Principal and his Assistants have in return given general satisfaction, notwithstanding the poor accommodations afforded them for teaching, being compelled to occupy different and disconnected apartments. It will be observed that the pupil in this Institute has the advantages afforded him of all the branches taught in other High Schools. The Principal and Assistants are gentlemen of thorough education and experienced as teachers.

With a new school building, which we believe it is proposed to erect during next summer, the school must necessarily increase in numbers and become a permanent and more important institution in our midst.

**ANOTHER WARNING.**—On Saturday evening, just after the second Suffrage train had passed out of the tunnel, a kerosene lamp exploded in the last car, which happened to be the smoking car of the Hackensack line attached, and which was about half filled with passengers. The whole front of the car was instantly in flames, and the passengers crowded to the rear in terror, being unable to pass through into the other cars in front. The flames spread so rapidly that before the train could be stopped half the car was enveloped, and the gentlemen tumbled pell-mell from the platform not an instant too soon, as the fire followed the varnish as though it had been burning fluid. By the time the train came to a stand, it was on the meadows, and the front of the car was burning so fiercely that difficulty was experienced in uncoupling it from the train.

Here was a narrow escape from a repetition of the Angola disaster.

**BALTIMORE, Feb. 3.**—A serious trouble has arisen regarding the recent election of the Hon. William T. Hamilton as United States Senator. Governor Swann refuses to issue a commission for him, on the ground of his illegal election. The law passed at a previous session of the Legislature, requiring the next United States Senator to be a resident of the Western Shore, has never been repealed; and, therefore, Mr. Hamilton being a Western Shore man, cannot be United States Senator. It is believed, is almost certain, in fact, that the present Legislature must repeal the law, and then go in to a new election, or elect another gentleman who shall be a resident of the Eastern Shore, under the existing law.

**THE ALTAR.**

On the 28th ult., by the Mr. EPHRAIM HOOKERSMITH, to SARAH A. ORNDORF, both of Quincy township.

At the residence of the bride's father, Dr. C. G. French, Springfield, Ill., on the 20th ult., by the Rev. Dr. Brown, Dr. M. BONEBRAKE, of Mexico, Ohio, (formerly of this place) and Miss LAURA FRENCH.

Accompanying the above notice we received a substantial token of our young friend's regards, for which he will accept our thanks and well wishes for his happiness in the future and that of his fair partner. In the home of his adoption may professional honor and success crown his efforts.

**MACHINE SHOP AND LUMBER YARD!**

Jan. 31—  
LIDY, FRICK & CO.

**Hon. Charles Francis Adams's** resignation as Minister to Great Britain is said to have been received at the State Department.

The Baltimore Rebels are preparing to bring numerous suits against military officers who were in authority in that city during the war, and the lawyers anticipate a rich harvest in the shape of fees.

The Heads of all the great Executive Departments at Washington, are now independent of the President, by virtue of the Tenure of Office bill. This fact seems entirely in spirit with our free institutions, and is a bar to the President becoming a dictator.

**ORIGINAL STORY.**—The original story which we publish on first page is the production of a youth and his first attempt at that kind of composition. There are too many inaccuracies in it due to the compositor.—We therefore ask the critic to criticize it charitably.

**SENTENCED.**—V. R. Krebs who recently underwent a trial before the court at Harrisburg for assault and battery upon his wife and also upon the officer who arrested him, was sentenced on Tuesday to pay a fine of \$10 and costs and be imprisoned 30 days.—For the second offense a fine of \$10 and costs and 10 days imprisonment.

**AN OLD GOOSE.**—The Elizabethtown Gazette says that Mathias Shenk, of West Donegal township, in that county, has a goose 45 years of age on his premises, apparently in good health. We do not doubt it, geese sometimes live to a great age.

**ANOTHER "SHE-REBEL."**—We understand a rebel from across the line visited our town one day this week soliciting alms for the poverized rebels of the South. This petticoated piece of brass and ugliness had not only the effrontery to solicit contributions from citizens, but went so far as to insult some of them by expressing the hope that Gen. Lee would yet be elected President of the United States. The Government has made provision through the Freedmen's Bureau for both white and black, in the South, who are in need of alms, but we presume some of the more straitened circumstances are too haughty and strongly tintured with old secesh feelings to partake with their sable brethren of this common bounty, and hence private subscriptions.—Not many years have elapsed since this needy class from down South traversed our valley plundering from sollar to garret, and in many instances pillaging from citizens even to their hats and boots. Those who were then their aiders and abettors in treason now come asking subscriptions, alleging that these traitors, conquered at such a price of blood and treasure, are so needy, so poor.—Could anything be more cool, more impudent?

**SUDDEN DEATHS.**—On the 14th instant, Wm. Meredith, residing near Uniontown, Carroll co., Md., died very suddenly. Mr. Meredith, a few days previous, was thrown from his horse, from which cause he was confined to the house On Tuesday evening, while seated at the stove, he complained of pain in his side, and while being led to bed, was found to be dying. Before medical aid could be called he ceased to breathe. On the 16th, while the relatives and friends of the deceased were preparing to follow his remains to the place of interment, his sister Mary Grace Meredith, while crossing the room to put on her wrappings, fell to the floor, and before she could be carried to a bed in the adjoining room had expired.

A remarkable medical discovery has recently been made in the treatment of deafness by Professor Scott, of the New York Medical University, by which the most apparently hopeless cases have been radically cured. The method consists in introducing atomized oxide of phenyle directly into the tympanum. No unpleasant sensations are produced, and a feeling of clearness seems to follow.

A man in Chillicothe, Ohio, heard a commotion in his hen-house the other night, and calling out 'who's there?' received no answer, and fired into the darkness. The next morning a dead negro was found with a chicken under his arm.

Jan. 24—  
SAMUEL H. BARR, G. V. Moss, Auct.

**BRICK POMEROY.**—The editor of the Corry Republican speaks as follows concerning the vile Copperhead scow who edits the *La Crose Democrat*. He claims a personal knowledge of this brute's actions:

He is a thief, liar, and drunkard, and wife beater, to our personal knowledge. We have known him to beat his wife and children unmercifully, without the show of a provocation and forbid the merchants to trust them to the necessities of life, while he was carousing in dens of prostitution. We have known him to sing bawdy songs, and crack obscene jokes over the dead remains of his friend and companion, who was strangled to death in attempting to drink half a gallon of whiskey on a wager, in Milwaukee. We have heard him curse the sun, and defy the power that sustained it. We could chronicle numberless instances, but it is useless.—In personal appearance, Pomeroiy is just what the imagination of a decent man naturally pictures him. He has bushy hair, (wears it long, to hide his horns,) a whiskey bloated face, and a red and blue nose—in short, he looks like the personification of sin, puked out red hot from the bowels of hell. He, a sweet scented japonica to prate of the imperfections of the church, whose mind never entertained a christian thought, who has no conception of virtue; he talk of reformation whose heart never palpitated with one single emotion for God or human kind; he who was sent into this breathing world a restless curse, in whose throat blasphemy and vulgarity gurgles and scethes like the hot breath of a damnable dream; he, Mark M. Pomeroiy, the personification of the displeasure of Heaven and the glory of Hell, wrapped in a nigger's stolen overcoat, who was seen, slyly dragging himself over the hollow pulpithers of our brave soldiers, recently, to deliver pusillanimous and inhuman lectures to the southern traitors—eulogizing "the lost ca-u-s-e."

**RECIPE.**—The following is said to be an "out west" recipe for making cheap whiskey:—Take one barrel good whiskey and add eight barrels of rain water, 150 lbs. of "dog leg" tobacco and one box of cayenne pepper. These ingredients make nine barrels of whiskey. So a traveling friend informs us. We advise some of our acquaintances to remain East, for the present at least.

**THE LECTURE.**—On Saturday evening last our citizens were well entertained at the Town Hall with a public lecture by the Hon. Chas. Lee Armour, his subject being "The Gold Fields of Colorado, and Across the Plains." The description of his travels across the Plains, the climate, soil, scenery, productions, towns on his route, the inhabitants, etc., the Red Man of the forest included, was both instructive and highly entertaining. Mr. Armour's popularity as a public speaker drew together a crowded audience of both ladies and gentlemen, and an hour or more was thus pleasantly and profitably passed without any interruption save some little annoyances from ill-mannered boys.

**THE FOLLY OF PAYING RENT.**—Suppose a man occupies a house worth three thousand dollars, and pays a rent of four hundred dollars, per annum, payable quarterly. He will, in seven years, have paid two thousand eight hundred dollars, and lost the interest on the payments of the rent he has made within this time, amounting to five hundred and sixty-seven dollars. He has consumed three thousand three hundred and sixty-seven dollars, and has nothing to show for it save the receipts of his landlord. How much better would it be to buy a lot on seven years' time, and put up a house, which would at the end of that time be paid for, without any trouble? A house and lot is also the best and safest saving bank a man can have. This advantage Building Associations afford men of moderate income.

**ROBBER.**—We learn from the last *Berkeley Union*, that a rogue entered the sleeping room of Maj. E. S. Troxel, in Martinsburg, on Thursday night a week, and with a lamp burning on the mantle within two feet of his bed, removed his clothes from a chair and made off with them. Mrs. T. was awakened by the noise just in time to see the man's arm closing the door of the room.—The Major pursued the thief, but he succeeded in escaping. The clothes were found in the morning in a pile of lumber, riddled of their contents, a valuable watch, a pocket book containing \$7 in money and some promissory notes. The Major was fortunately in the habit of depositing in the vault of the National Bank, or his loss might have been a more serious one.

Feb. 7—3w. JACOBS. HOFFMAN.

In the house of Representatives on Monday Mr. Newcomb, of Missouri, introduced a bill for the removal of the Capital. The bill is to the effect that whenever the State of Missouri shall cede to the United States a designated portion of territory in St. Louis county, the President shall detail three engineers from the engineer corps to try out the grounds for a site, the name of which shall be New Washington, and the District of Jefferson. The bill proposes to have the public buildings erected, and the seat of Government removed on the 4th of July, 1876.

On Monday in Alabama, the Constitution was submitted to the people. The polls were to be kept open four days.

The cholera is reported as prevailing in New Orleans with great fatality, some 60 deaths occurring last week.

**THE STATE CONVENTION.**—The State Republican Convention is to be held in Philadelphia, on Wednesday, March 11, one week after the Democratic Convention at Harrisburg. This Convention nominates an Auditor General as a Surveyor General.

Letters from Chicago represent Mrs. Lincoln as unquestionably insane. One of her delusions is that she will come to want, and she sells everything she can lay her hands upon. She is said to be living in a house, all the furniture of which she has disposed of; with two old men as her body guard.
