Particular attention given to the preservation of the natural teeth.

Nitrous Oxide Gas administered for the extraction of teeth without pain.

Office at his residence on Mechanic Street. Feb. 8

## THE "EUREKA" SMUT AND SEPARATING MACHINE.

PATENTED FEBRUARY 23, 1867.

## M. HAYS, Sole Agent

For Franklin, Perry, Cumberland, Bedford and Fulton Counties, Pa., and Washington and Frederick Counties, Md.

This Machine is put before the public upon its own merits. It is the most complete machine of the kind now in use, and is guaranteed to all purchasers. In no case will pay be required until the machine has been thoroughly tested and satisfied given. For Circular address

M. HAYS, Mercersburg, Pa.

N. B.—The subscriber also builds and repairs MILLERS of all kinds at short notice and upon the most approved plans. Cast Iron and Turbine Water Wheels, Boulding Cloths, Flour Packers, Belting, Proof stuffs and all kinds of Mill Furnishings furnished at the lowest cash prices. All work and goods warranted. M. H.

## \$200,000 DOLLARS

TO BE divided and \$100 certificates paying a dividend of eight and ten per cent per annum issued to all who will subscribe for Stock in the Chambersburg Western Mill.

The great success of the Company and demand for their goods has encouraged them to enlarge the capacity of their Mill and increase their capital stock. They now offer \$50,000 additional stock for sale at its par value \$100 per share. This stock pays a dividend of eight per cent per annum on the special and ten on the Common, and can be made to pay 12 to 15 per cent per annum. The Company owns all that splendid water power of the Falling Spring in the heart of the Borough of Chambersburg, including the Flouring Mills. Their Woolen Mill uses 60 horse power and leaves enough to run the Flouring Mills of 4 pair of Burrs. These Mills rent for 250 half the interest of the whole cost of their real estate except the Woolen Mill building and Machinery. Any who have \$100 or more and are capitalists or farmers wishing to make a safe and profitable investment are requested to examine the merits of this stock before investing in land or Government securities, as it pays at least 8 per cent and costs no premium, making the safest and most profitable investment now offered, and besides encourages industry and advances the interest of the community at large. You are referred for fuller particulars to our printed circulars, and a personal examination of the Mill and Machinery. We invite a careful examination being convinced that the better the affairs of our Company are known and the working of the Mill is understood, the more certain we are to gain confidence and that a correct knowledge of all our affairs is all that is wanting to secure a speedy sale of all the stock.

Subscriptions received at the office of the Company at the Woolen Mills, or at the National Bank Building, 1st Nat. Bank of Greensboro, by M. Fallon, Esq., Mercersburg, Judge Italy, Shippensburg, and Judge Ferguson, Path Valley or Geo. Baisley Esq., who will visit in person different localities.

Feb. 14, 1868. J. C. AUSTIN, Pres't. F. Dixon Sec'y.

# A NOTICE FOR ALL TO READ!

## THE "MORNING GLORY!"

Is the Cheapest and the Best Base Burning

Stove before the Public!

THE No. 9 M. G. sells at \$25, and is nearly 50 lbs. heavier than the No. 9 Oriental, and is larger than the No. 10 or No. 11, which sells at five to six dollars more than the No. 9 M. G. Again, the morning Glory is the only stove that breaks up its cinder and passes them off with the ashes. This is done by means of the Mill Grate. This grate is not in any other stove, nor can any other stove use it. This mill grate is insured for five years, now, in the Oriental stove, when you must take out cinder you have to open a door on top of the fire-pot and with a poker rake them up and pass them out through this door. Very nice that, provided some of the hot cinder falls on your nice carpet. "Oriental Book," page 3 says that you must take off your pipe during the season from the stove and remove the ashes &c., which have accumulated in the back fire. Another nice job in a nice room. Now, nothing of this kind have you to do in the Morning Glory.

W. A. TRITLE is the only agent in Waynesboro for the sale of the M. G. stove. He has sold since the 23rd day of Sept., 50 of these stoves. The M. G. has taken since 1866 all first class Premiums over all other Base Burning stoves. Call and see the stove in operation and learn what the stove is for yourself, then you can judge which is the best stove. Trusting that in this exposure I have done no injustice I leave it for the public to judge as to which of these stoves shall receive their patronage.

## CELEBRATED BASE BURNING STOVE

## THE MORNING GLORY!

The Morning Glory is a perpetual burner, having a magazine or reservoir for reserve coal, which is required to be filled but once a day, and if the proper sized coal is used it is not necessary to rekindle the fire during the entire winter.

(No clinker will remain in these stoves, nor will there be any trouble from slate, or other impurities in the coal, the fire being always at the base of the coal, the impurities are left in the ashes and ground out by the "Mill-grate.")

THERE'S NO ESCAPE OF GAS OR DUST

ECONOMY OF FUEL!

The combustion of fuel being perfect and at a high temperature, the amount of heat which is required to be filled but once a day, and if the proper sized coal is used it is not necessary to rekindle the fire during the entire winter.

(No clinker will remain in these stoves, nor will there be any trouble from slate, or other impurities in the coal, the fire being always at the base of the coal, the impurities are left in the ashes and ground out by the "Mill-grate.")
