# EMPIRE SHUTTLE MACHINE.

PATENTED FEBRUARY 14, 1866

This Machine is constructed on a new principle of mechanism, possessing many rare and valuable improvements, having been examined by the most prominent experts, and pronounced to be SIMPLICITY and PERFECTION COMBINED.

The following are the principal objections urged against Sewing Machines:

- 1. Excessive fatigue to the operator.
2. Liability to get out of order.
3. Expense, trouble, and loss of time in repairing.
4. Incapacity to sew every description of material.
5. Disagreeable noise while in operation.

The Empire Sewing Machine is exempt from all these objections.

It has a straight needle, perpendicular action, makes the LOCK or SHUTTLE STITCH, which will neither RIP nor HAVEL, and is alike on both sides, performs perfect sewing on every description of material, from Leather to the finest Narasok Muslin, with linen, cotton or silk thread, from the coarsest to the finest number.

THESE, FELTS, BINDS, BRAIDS, TUCKS, QUILTS, LISTS, GATHERS, Having neither GUM nor COG WHEEL, EMPHATICALLY A NOISELESS MACHINE. All varieties of CASSETT MACINERS from \$60 upwards.

Particular attention is called to the new and improved Manufacturing Machine, for Tailoring, Shoe Fitting, Coach Trimming, &c. Its advantages are simplicity, durability, rapidity, equal adaptation to all branches of manufacturing. It makes perfect work on all material. It is especially desirable in sewing Patent Leather, and is very still. In short, it is the most perfect manufacturing machine in the market.

N. B. Every machine guaranteed.

# A NOTICE FOR ALL TO READ

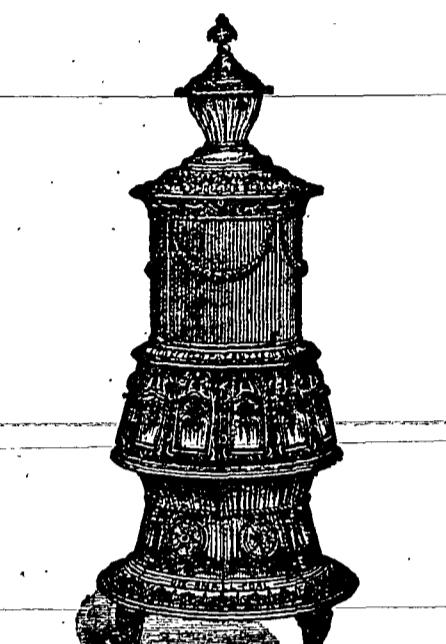

## THE "MORNING GLORY!"

Is the Cheapest and the Best Base Burning Stove before the Public!

THE No. 9 M. G. sells at \$25, and is nearly 60 lbs. heavier than the No. 9 Oriental, and is larger than the No. 10 or No. 11, which sells at five to six dollars more than the No. 9 M. G. Again, the Morning Glory is the only stove that breaks up its clinder and passes them off with the ashes. This is done by means of the Mill Grate. This grate is not in any other stove, nor can any other stove use it. This mill grate is insured for five years, now, in the Oriental stove, when you must take out clinder you have to open a door on top of the fire pot and with a poker rake them up and pass them out through this door. Very nice that, provided some of the hot clinder falls on your nice carpet. "Oriental Book," page 3—says that you must take it out year after year, from the stove and remove the ashes &c., which have accumulated in the back fire. Another nice job in a nice room. Now, nothing of this kind have you to do in the Morning Glory.

W. A. TRITTLE is the only agent in Waynesboro for the sale of the M. G. stove. He has sold since the 25th day of Sept. 60 of these stoves. The M. G. has taken since 1866 all first class Premiums over all other Base Burning stoves. Call and see it at its operation and learn what the stove is, for yourselves, then you can judge which is the best stove. Treating that in this exposure I have done no injustice I leave it to the public to judge as to which of these stoves shall receive their patronage.

## CELEBRATED BASE BURNING STOVE THE MORNING GLORY!

The Morning Glory is a perpetual burner, having a magazine or reservoir for reserve coal, which is required to be filled but once a day, and if the reserve coal is used it is not necessary to rekindle the fire during the entire winter.

(No clinker will remain in these stoves, nor will there be any trouble from slate, or other impurities in the coal, the fire being always at the base of the coal, the impurities are left in the ashes and ground out by the "Mill-grate.")

## THERE'S NO ESCAPE OF GAS OR DUST ECONOMY OF FUEL!

The combustion of fuel being perfect and at a high temperature, the amount of heat produced from the same quantity of coal is much greater than at a low temperature, hence but a small quantity of fuel is necessary to be undergoing the process of combustion at one time. The entire outer surface of the Morning Glory is radiating surface. Add to this the surface of objects heated by rays of light through the mica windows, and you have the secret of the great heating properties of the Morning Glory with a small amount of fuel.

For sale at W. A. TRITTLE'S Tin and Stove Store.

He has a large stock of Stoves, Tinware and other goods in his line, which he will sell cheap. You will find the best COOK NINE PLATE and COAL STOVES in market. Also on hand Brass, Copper and Iron Kettles. His Copper Kettles are better than are offered for sale elsewhere, and cheaper. As he makes them, and can sell at shorter profits. Also the best GREEN HUMP in market, is strong, simple durable and cheap, is insured not to freeze. Call and see it. All kinds of repairs done in Tin, Copper or Sheetiron. Don't fail to call as you will find a large stock of goods.

Sept. 6—7 mos. W. A. TRITTLE.
