SALESROOM, NO. 921 SCHEUTZ ST., PHILADELPHIA.

This Machine is constructed on a new principle of mechanism, possessing many rare and valuable improvements, having been examined by the most prominent experts, and pronounced to be **SIMPLICITY and PERFECTION COMBINED.** The following are the principal objections urged against Sewing Machines:

5. Disagreeable noise while in operation.

The Empire Sewing Machine is exempt from all these Objections. It has a straight needle, perpendicular action, makes the **LOCK or SHUTTLE STITCH,** which will neither RIP nor RAVEL, and is alike on both sides; performs perfect sewing on every description of material, from Leather to the finest Nainsook Muslin, with linen, cotton or silk thread, from the coarsest to the finest number.

THEMES, FELTS, BINDS, BRAIDS, TUCKS, QUILTS, PLANTS, GATHERS. Having neither CAM nor COG WHEEL

\$200,000 DOLLARS

TO BE divided and \$100 certificates paying a dividend of eight and ten per cent per annum issued to all who subscribe for Stock in the Chambersburg Woolen Mill.

The great success of the Company and demand for their goods has encouraged them to enlarge the capacity of their Mill and increase their capital stock. They now offer \$50,000 additional stock for sale at the rate of \$100 per share. This stock pays a dividend of eight per cent per annum on the Special and ten on the Common, and can be made to pay 12 to 15 per cent per annum. The Company owns all that splendid water power of the Fall Spring in the heart of the Borough of Chambersburg, including the Flouring Mills. Their Woolen Mill has 200 horse power and leaves enough to run the Flouring Mills of 4 pair of Burrs. These Mills rent for 375 half the interest of the whole cost of their real estate except the Woolen Mill building and Machinery. Any who have \$100 or more and especially Farmers wishing to make a safe and profitable investment are requested to examine the merits of this stock before investing in any other. It costs no premium, making the safest and most profitable investment now offered, and besides encouraging industry and advances the interest of the community at large. You are referred for full particulars to our printed circulars, and a personal examination of the Mill and Machinery. It is the best of every description being constructed by the best of the Mill and Machinery. The better the work of the Mill is understood, the more certain we are to gain confidence and that a correct knowledge of all our affairs is all that is wanting to secure a speedy sale of all the stock.

NORMAL INSTITUTE.

THE next session of this Institution will commence on Monday, the 23d of March. Those wishing to send pupils, should make it known to the Principal, as soon as possible, as but a limited number can be received.

The government will be mild and parental, appealing to the pupils' reason and sense of propriety and right; yet obedience and good behavior will be strictly required.

The object of this school will be to give ladies a complete education, and to prepare gentlemen for business or for any class in college.

Pupils will be taught to study understandingly, and not merely to commit rules to memory or go through text books.

The branches that will be taught are, Orthography, Reading, Penmanship, Geography, Arithmetic, Grammar, Algebra, Geometry, Physiology, Composition, Rhetoric, History, Botany, Trigonometry, Natural Philosophy, Zoology, Elocution, Logic, Moral Philosophy, Astronomy, Calculus, Latin, Greek, French, German, Italian, Music, Drawing and Painting.

N.B.—Primary pupils, if sufficiently advanced to be classified, will be received at somewhat a reduced rate.
