dend of 5 per cent, payable on and after the 27th
inst. **JOHN PHILIPS, Cash.**

RING'S
Vegetable Ambrosia
FOR
GRAY HAIR.
This is the Ambrosia that Ring made.
This is the Cure that lay
In the Ambrosia that Ring made.
This is the Man who was bald and
gray,
Who now has raven locks, they say,
He used the Cure that lay
In the Ambrosia that Ring made.
This is the Maiden, handsome and
gay,
Who married the man once bald and
gray,
Who now has raven locks, they say,
He used the Ambrosia that Ring
made.
This is the Parson, who, by the way,
Married the maiden, handsome and
gay,
To the man once bald and gray,
But who now has raven locks, they
say,
Because he used the Cure that lay
In the Ambrosia that Ring made.
This is the Bell that rings away
To arouse the people and give
Unto this fact, which here does lay,
If you would not be bald or gray,
Use the Ambrosia that Ring made.

E. M. TUBBS & CO., PROPRIETORS, PETERSBURG, VA.
Sold by J. F. KURTZ and F. FOURTHMAN,
Waynesboro, and by Druggists generally.
Feb. 14-17.

year, I hope for a continuance of the same.
May 1, 1868.

Improved Threshing Machine!
Daniel Geiser. **J. F. Oller.**
B. E. Price. **Josiah Fahrney.**

**Farmers will please look at the great advantage in Threshing
Grain with**

GEISERS' PATENT
SELF-REGULATING GRAIN SEPARATOR,
CLEANER AND BAGGER.

With the latest Improved Triple-Geared Horse Power,
driven either by Gear or Belt

No. 1 is a eight-horse power, with cast iron threshing frame and wrought iron and wood cylinder, six-
teen inches in diameter and thirty-three inches long. Trunk has ten-inch rake crank and seven rakes
is thirty-five inches wide, and delivers the straw on the second rake, these carry the straw out on their
tops, and deliver it in the stacker, which will deliver about thirty-five feet beyond the feeder, on a stack
fifteen to eighteen feet high, and can be easily managed to carry the chaff with the straw, or deliver it in
a separate place. The trunk and fan sides being closed, to confine the straw and chaff, remedies all
difficulties in cleaning grain against winny weather. It bags the grain by reasonable management, suffi-
ciently clean for market, and its capacity, under ordinary circumstances, is from twenty to forty bushels
per hour, using eight horses and the same number of hands; but to force the work under favorable
circumstances, it will thresh from forty to fifty bushels per hour, and with more ease and agreeableness
to hands than any other machine now in common use.

The No. 2 Machine, fully represented in the above cut, is particularly adapted to the farmer's use; in-
tended to apply to any common lever or railway power; weighs 1,300 pounds; has an iron threshing
frame, and cylinder, 12 1/2 inches in diameter and 28 inches long; delivers the clean grain in bags, or if
desired, in a half bushel. It delivers the straw fifteen feet from the feeder, or if desired, can deliver the
straw and chaff together; will thresh and clean, in good grain, ready for market, from 100 to 175 bushels
of wheat, or from 200 to 500 bushels of oats per day, using four or six horses, and the same number of
hands; but to force the work, under most favorable circumstances, good grain, &c., will thresh and clean
considerably more. The Machine will thresh and clean all kinds of grain generally threshed with the
common machine, and requires no more horse power, but in many cases does not run so hard. It will
apply very well to a two-horse railway power.

Now here is what the Farmer and thrasher man wants, a Separator to go from farm to farm, to thresh
grain, with more satisfaction than any other separator now in use, and why is it? Because, this separa-
tor has a self-regulating blast, which prevents grain from blowing into the chaff, and also has a self re-
gulating feeder to feed the cleaner and it has rollers and combs in the cleaner which prevent it from
choking. Why does this machine run so light, and give so little trouble? Because there is less fric-
tion in the Journals, and the rakes and fan are geared so that you have no trouble with belts breaking
and slipping, causing dust to fall into the wheat. Why does it clean against the wind? Because the
blast has direct action on the grain and the cleaner is so well arranged that the wind has no chance to
drive the dirt into the hopper. Why is it built permanently on two wheels and the front carriage sepa-
rate, ready to attach when necessary? Because it is more convenient in the barn without the front car-
riage. You can turn the machine or run it from place to place more easily. Why has it not got Elevators
like some other machines? Because the Elevators carry the dirt back alternately into the cleaner
which must eventually go into the good wheat or in the chaff, and all know, that dirt should be kept
separate for feed, &c. we might as well keep shoveling the Tollings from under our hand fun into the
hopper and expect to get the grain clean. Why is this separator more cleanly and satisfactory to work a-
bout than others? Because the Fan and Trunk Sides are closed up to prevent the wheat chaff and dust
from coming out and scattering over the floor, causing waist and giving much trouble with dirt and
eyes, &c. Why do Thrashermen get more work with these separators than they do with others? Be-
cause this separator has all these advantages and many more, which makes it a separator suitable and a
paying one for all Farmers and Thrashermen that have grain to thresh, whilst in most cases farmers
must get themselves to the machine, because the machine will not suit itself to the farmer. In short,
this is the cheapest, most durable, reliable, simple and most agreeable to work about, and the only separa-
tor that will clean and bag the grain sufficiently clean for market under all circumstances.

Farmers can rest assured that this machine is no humbug, and judging from the high recommenda-
tion of farmers that are using them, we must come to the conclusion that it is the very Machine that far-
mers want and will have as soon as they have an opportunity to appreciate and attest its merits, for
which we hope they will give us an opportunity, as we are willing to be responsible if it does not perform
as represented in this Circular.

A reduction of 2 per cent. on all orders handed in on or before the first of April, 1868.

Shop Prices of Machines range from \$215. to \$540.

DANIEL GEISER, Proprietor.
WAYNESBORO, FRANKLIN CO., PA.

Geiser, Price & Co., Manufacturers.

THE GREAT BLOOD PURIFIER.
DR. J. FAHRNEY'S celebrated Blood Purifi-
er, the greatest medicine of the age. This
medicine was discovered 70 years ago by old Dr.
Fahrney of Washington county, Maryland. It was
formerly put up in packages, widely known as a
"Preparation for cleansing the Blood" but is now
put up in liquid by the present proprietor, who has
improved it, being pleasant to take and the dose
smaller. This Blood Purifier contains 23 ingredi-
ents and is composed of Roots, Bark, Leaves,
Seeds, and Berries, each possessing the highest de-
gree of purifying properties and is so combined as
to operate through the Blood upon every organ and
emunctory of the human economy. This Blood
Purifier is good for all Chronic diseases, such as
Sick head ache, Scrofula, Tetter, Running Ulcers,
Pimples, Scald Head, White Swelling, disease of
the Spine, Carcers, Ring worms, Rheumatism,
Dyspepsia, Costiveness, Consumption, Bleeding of
the Lungs, Liver and Kidney complaints. This
article is prepared to meet the various conditions of
the body arising from impurity of the Blood and if
the disease is within the control of medicine it is
found in this article. Testimonials of its wonder-
ful alternative properties could have been obtained
of hundreds and thousands of individuals who have
been cured of diseases of many years standing.
Prepared only by **FAHRNEY & REINHOLD,**
Corner North Queen, and Walnut Streets, Lancas-
ter Penna. For sale by
F. FOURTHMAN, Waynesboro'.
