PATRONIZE THE BEST.
2,500,000 CUSTOMERS IN FOUR YEARS.
Having the largest capital, most experienced buy-
ers, and extensive trade of any concern in the Dol-
lar Sale business, we
GUARANTEE SATISFACTION
in every instance, and also the best selection of
Goods ever offered at
ONE DOLLAR EACH.
No other concern has any show wherever our
Agents are selling. Our motto: "Prompt and Reli-
able." Male and female agents wanted in city and
country.
THE LADIES
are particularly requested to try our popular club
system of selling all kinds of Dry and Fancy Goods,
Dress Patterns, Cotton Cloth, Castors, Silver Plated
Goods, Watches, &c. (Established 1864.) A
patent pen fountain and a check describing an ar-
ticle to be sold for a dollar, 10 cts; 20 for \$2; 40
for \$4; 60 for \$6; 100 for \$10; sent by mail.
Free presents to get up, (worth 50 per cent. more
than those sent by any other concern,) according to
size of club. Send us a trial club, or if not, do not
fail to send for a circular.
N. B.—Our sale should not be classed with New
York dollar jewelry sales or bogus "Tea Compa-
nies," as it is nothing of the sort.
EASTMAN & KENDALL,
65 Hanover street, Boston,
May 22-6m.

J. W. SNYDER, BOOKSELLER STATIONER
AND
BOOK BINDER.
No. 5 Diamond, opposite the National Bank.
CHAMBERSBURG, PA.

May 15, 1868.

RING'S
Vegetable Ambrosia,
FOR
GRAY HAIR.
This is the Ambrosia that Ring made,
and who now has raven locks, they say.
He used the Cure that lay
in the Ambrosia that Ring made.

This is the Cure that lay
in the Ambrosia that Ring made,
and who now has raven locks, they say.
He used the Cure that lay
in the Ambrosia that Ring made.

This is the Maiden, handsome and
gray. Who married the man once bald and
gray. Who now has raven locks, they say.
He used the Ambrosia that Ring
made.

This is the Parson, who, by the way,
Married the maiden, handsome and
gray. To the man once bald and gray,
But who now has raven locks, they
say. Because he used the Cure that lay
in the Ambrosia that Ring made.

This is the Bell that rings away
To arouse the people sad and gray.
Unto this fact, which here does lay.
If you would not be bald or gray,
Use the Ambrosia that Ring made.

E. M. TUBBS & CO., PROPRIETORS, PETERBORO, N.H.
Sold by J. F. KURTZ and F. FOURTHMAN,
Waynesboro, and by Druggists generally.
Feb. 14-ly.

year, I hope for a continuance of the same.
May 1, 1868.

Improved Threshing Machine!
Daniel Geiser. **J. F. Oiler.**
B. E. Price. **Josiah Fahrney.**

Farmers will please look at the great advantage in Threshing
Grain with
GEISERS' PATENT
SELF-REGULATING GRAIN SEPARATOR,
CLEANER AND BAGGER.
With the latest Improved Triple-Geared Horse Power,
driven either by Gear or Belt

No. 1 is a eight-horse power, with cast iron thresher frame and wrought iron and wood cylinder, six-
teen inches in diameter and thirty-three inches long. Trunk has ten-inch rake crank and seven rakes
thirty-five inches wide, and delivers the straw on the second rake, these carry the straw out on their
tips, and deliver it on the stacker, which will deliver about thirty-five feet beyond the feeder, on a stack
sixteen to eighteen feet high, and can be easily managed to carry the chaff with the straw, or deliver it
in a separate place. The trunk and fan sides being closed, to confine the straw and chaff, remedies all
difficulties in cleaning grain against winnow weather. It bags the grain by reasonable management, suffi-
ciently clean for market, and its capacity, under ordinary circumstances, is from twenty to forty bush-
els per hour, using eight horses and the same number of hands; but to force the work under favorable
circumstances, it will thresh from forty to fifty bushels per hour, and with more ease and agreeableness
to hands than any other machine now in common use.
The No. 2 Machine, fully represented in the above cut, is particularly adapted to the farmer's use; in-
tended to apply to any common level or railway power; weighs 1,300 pounds; has an iron thresher
frame, and cylinder, 12 1/2 inches in diameter and 28 inches long; delivers the clean grain in bags, or if
desired, in a half bushel. It delivers the straw fifteen feet from the feeder, or if desired, can deliver the
straw and chaff together; will thresh and clean, in good grain, ready for market, from 100 to 175 bushels
of wheat, or from 300 to 500 bushels of oats per day, using four or six horses, and the same number of
hands; but to force the work, under most favorable circumstances, good grain, &c., will thresh and clean
considerably more. The Machine will thresh and clean all kinds of grain generally threshed with the
common machine, and requires no more horse power, but in many cases does not run so hard. It will
apply very well to a two-horse railway power.
Now here is what the Farmer and thrasherman wants, a Separator to go from farm to farm, to thresh
grain, with more satisfaction than any other separator now in use, and why is it? Because this separa-
tor has a self-regulating Blast, which prevents grain from blowing into the chaff, and also has a self-
regulating feeder to feed the cleaner and it has rollers and combs in the cleaner which prevents it from
choking. Why does this machine run so light, and give so little trouble? Because there is less fric-
tion in the Journals, and the rakes and fan are geared so that you have no trouble with Bells breaking
and slipping, causing dust to fall into the wheat. Why does it clean against the wind? Because the
Blast has direct action on the grain and the cleaner is so well arranged that the wind has no chance to
drive the dirt into the hopper. Why is it built permanently on two wheels and the front carriage sepa-
rate, ready to attach when necessary? Because it is more convenient in the barn without the front car-
riage. You can turn the machine or run it from place to place more easily. Why has it not got Eleva-
tors like some other machines? Because the Elevators carry the fifth back alternately into the cleaner
which must eventually go into the good wheat or in the chaff, and all know, that fifth should be kept
separate for feed, &c., we might as well keep above the "tailings" from under our hand fan into the
hopper and expect to get the grain clean. Why is this separator more cleanly and satisfactory to work a-
bout than others? Because the Fan and Trunk Sides are closed up to prevent the wheat chaff and dust
from coming out and scattering over the floor, causing waist and giving much trouble with dirt and sore
eyes, &c. Why do Thrasher men get more work with these separators than they do with others? Be-
cause this separator has all these advantages and many more, which makes it a separator suitable and a
paying one for all farmers and Thrasher men that have grain to thresh, whilst, in most cases farmers
must suit themselves to the machine, because the machine will not suit itself to the farmer. In short,
this is the cheapest, most durable, reliable, simple and most agreeable to work about, and the only sepa-
rator that will clean and bag the grain sufficiently clean for market under all circumstances.
Farmers can rest assured that this machine is no humbug, and judging from the high recommenda-
tion of farmers that are using them, we must come to the conclusion that it is the very Machine that farm-
ers want and will have as soon as they have an opportunity to appreciate and attest its merits, for
which we hope they will give us an opportunity, as we are willing to be responsible if it does not perform
as represented in this Circular.
A reduction of 2 per cent. on all orders handed in on or before the first of April, 1868.
Shop Prices of Machines range from \$215, to \$540.
We warrant the machines to be as above represented; also against any reasonable defects of material
workmanship, &c.
