

# W. A. TRITLE,

Manufacturer of Copper, Tin and Sheet Iron Ware, and dealer in all kinds of Stoves for Coal or Wood.

He has now on hand a large stock of the best Cook Stoves in market. He is selling 40 gal. Copper Kettles at \$20, 30 " " " " " 15, 18 " " " " " 10.

The above kettles are stronger than you can get elsewhere and much cheaper. I am now putting up a **NEW DRY HOUSE** on the Hot Air Principle which comes much lower in price than any offered before, and is gotten up in good style, is strong and durable, takes but little wood, and does its work splendidly. It is also a good Baker. Call and see it.

The best Clothes Wringer in the World! The best Force Pump in Market! Iron Wash Kettles, Fined Iron Pots and Stew Pans, Copper and Brass ware. Also a good stock of Tin and Sheet Iron Ware, all of which is made of the best material. All kinds of Job Work done in his line. Don't fail to call and see for yourself as you will find many articles that you will want. May 29.

## PUBLIC SALE.

The undersigned Administrator of Joseph G. Funk, late of Franklin county, Pa., deceased, will sell at public sale at the late residence of said deceased, on the road leading from Leistersburg to Greencastle, about 3 miles from the former and 6 miles from the latter place.

## PATRONIZE THE BEST.

2,500,000 CUSTOMERS IN FOUR YEARS. Having the largest capital, most experienced buyers, and extensive trade of any concern in the Dollar Sale business, we

**G**UARANTEE SATISFACTION

in every instance, and also the best selection of Goods ever offered at

**ONE DOLLAR EACH.**

No other concern has any show whereover our Agents are selling. Our motto: "Prompt and Reliable." Male and female agents wanted in city and country.

**T**HE LADIES

are particularly requested to try our popular club system of selling all kinds of Dry and Fancy Goods, Dress Patterns, Cotton Cloth, Castors, Silver Plated Goods, Waiches, &c. (Established 1864.) A patent pen fountain and a check describing an article to be sold for a dollar, 10 cts; 20 for \$2; 40 for \$4; 80 for \$8; 100 for \$10; sent by mail. Free presents to getter up (worth \$50 per cent. more than those sent by any other concern) according to size of club. Send us a trial club, or if not, do not fail to get a circular.

N. B.—Our sale should not be classed with New York dollar jewelry sales or bogus "Tea Company," as it is nothing of the sort.

**E**ASTMAN & KENDALL, 65 Hanover street, Boston. May 22—6m.

## J. W. SNYDER, BOOKSELLER STATIONER

AND

## BOOK BINDER.

No. 5 Diamond, opposite the National Bank. CHAMBERSBURG, PA.

**I** WOULD respectfully invite the citizens of Waynesboro' and vicinity visiting Chambersburg, to examine my large and new stock of Wall Paper, Paper and Oil Window Shades. Having just received from New York, a very large assortment of the above goods, bought at decline prices. I can sell them cheap. Having over 100 different patterns to select from, purchasers can readily see the advantage in selecting from my stock.

I also keep a good assortment of School and Miscellaneous books, Blank and Memorandum books, Paper and Envelopes, Pocket Books, Portfolios, Writing Cases and Traveling Satchels.

Also the best make of Gold Pens made in the United States, which I warrant to give satisfaction. Old Books, Periodicals, Music, Newspapers, bound in any style. Blank Books made to order. Paper ruled to any pattern.

Agency for the sale of Internal Revenue Stamp. May 15—3m.

all of which will be sold at the very lowest city prices. No. 13 Pub. Square, Hagerstown, Md. May 15, 1868.

# Improved Thrashing Machine!

Daniel Geiser. E. E. Price.

J. F. Oller. Josiah Fahrney.

Farmers will please look at the great advantage in Thrashing Grain with

## GEISER'S PATENT SELF-REGULATING GRAIN SEPARATOR, CLEANER AND BAGGER.

With the latest Improved Triple-Geared Horse Power, driven either by Gear or Belt

No. 1 is a eight-horse power, with cast iron threshing frame and wrought iron and wood cylinder, sixteen inches in diameter and thirty-three inches long. Trunk has ten-inch rake and seven rakes is thirty-five inches wide, and delivers the straw on the second rake, these carry the straw on their tops, and deliver it on the stacker, which will deliver about thirty-five feet beyond the feeder, on a stack fifteen to eighteen feet high, and can be easily managed to carry the chaff with the straw, or deliver it in a separate place. The trunk and fan sides being closed, to confine the straw and chaff, remedies all difficulties in cleaning grain against windy weather. It bags the grain by reasonable management, sufficiently clean for market, and its capacity, under ordinary circumstances, is from twenty to forty bushels per hour, using eight horses and the same number of hands; but to force the work under favorable circumstances, it will thresh from forty to fifty bushels per hour, and with more ease and agreeableness than hands than any other machine now in common use.

The No. 2 Machine, fully represented in the above cut, is particularly adapted to the farmer's use; it is intended to apply to any common lever or railway power; weighs 1,300 pounds; has an iron threshing frame, and cylinder, 12 1/2 inches in diameter and 28 inches long; delivers the clean grain in bags, or if desired, in a half bushel. It delivers the straw fifteen feet from the feeder, or if desired, can deliver the straw and chaff together; will thresh clean, in good grain, ready for market, from 100 to 175 bushels per hour, or from 300 to 500 bushels of oats per day, using four or six horses, and the same number of hands; but to force the work, under most favorable circumstances, good grain, &c., will thresh and clean considerably more. The Machine will thresh and clean all kinds of grain generally threshed with the common machine, and requires no more horse power, but in many cases does not run so hard. It will apply very well to a two-horse railway power.

Now here is what the Farmer and thrasherman wants, a Separator to go from farm to farm, to thresh grain, with more satisfaction than any other separator now in use, and why is it? Because the separator has a self-regulating Blast, which prevents grain from blowing into the chaff, and also has a self-regulating feeder to feed the cleaner and it has rollers and combs in the cleaner, which prevents it from choking. Why does this machine run so light, and give so little trouble? Because there is less friction in the Journals, and the rakes and fan are geared so that you have no trouble with Belts breaking and slipping, causing dust to fall into the wheat. Why does it clean against the wind? Because the blast has direct action on the grain and the cleaner is so well arranged that the wind has no chance to drive the dirt into the hopper. Why is it built permanently on two wheels and the front carriage separates readily to hitch with necessary? Because it is more convenient in the barn without the front carriage. You can turn the machine or run it from place to place more easily. Why has it not got Elevators like some other machines? Because the Elevators carry the fifth back alternately into the cleaner which must naturally go into the good wheat or in the chaff, and all know, that fifth should be kept separate for feed, &c., we might as well keep shoveling the Tailings from under our hand into the hopper and expect to get the grain clean. Why is this separator more cleanly and satisfactory to work about than others? Because the Fan and Trunk Sides are closed up to prevent the wheat chaff and dirt from coming out and scattering over the floor, causing waist and giving much trouble with dirt and eyes, &c. Why do Thrasher men get more work with these separators than they do with others? Because this separator has all these advantages and more, which makes it a separator suitable and a paying one for all farmers and Thrasher men that have grain to thresh, whilst in most cases farmers must suit themselves to a machine, because the machine will not suit itself to the farmer. In short, this is the cheapest, most durable, reliable, simple and most agreeable to work about; and the only separator that will clean and bag the grain sufficiently clear for market under all circumstances.

Farmers can not see that this machine is no humbug, and judging from the high recommendation of farmers that are using them, we must come to the conclusion that it is the very Machine that farmers want and will have as soon as they have an opportunity to appreciate and attest its merits, for which we hope they will give us an opportunity, as we are willing to be responsible if it does not perform as represented in this Circular.

A reduction of 2 per cent. on all orders handed in on or before the first of April, 1868.

## Shop Prices of Machines range from \$215. to \$540.

We warrant the machines to be as above represented; also against any reasonable defects of material workmanship, &c.

**DANIEL GEISER, Proprietor. Geiser, Price & Co., Manufacturers.** WAYNESBORO, FRANKLIN CO., PA.

## NO. 16. NEW GOODS. NO. 16. NEW GOODS. NEW STORE.
