ALEX. LEEDS.

J. SIERER & CO.

Just returned from the Eastern cities, where they have purchased quite an extensive addition to their

**STOCK OF CARPETS,**

and would respectfully invite the public to call and examine their new supply of Goods, which consist of

ENGLISH AND AMERICAN

BRUSSELS CARPETS, Imp. Three-Ply, Extra Super, Superfine Venetian, Twilled and Plain. In addition to the above very desirable Patterns, we have a full line of low-priced Ingrain Hems and other CARPETING; COCOA and CHINA MATTING; OILCLOTHS, &c. Superior

**HALL AND STAIR CARPETS,**

WITH EXTRA BORDERING. Druggets, Felts, Brussels and Velvet Rugs, Door Mats, Hassocks, &c. RAG CARPETS made to order. Highest cash price paid for CARPET RAGS.

**WINDOW SHADES.**

We have a large assortment in this line—entirely new patterns, very handsome and cheap—ranging from 60 cents upwards. We also have **TRIPP'S PATENT WINDOW SHADE FIXTURES,** self-acting, a great improvement on the old style of Fixture. It is quite a novelty; come and see them operate. We have, also, a full line of

**STAIR RODS.**

All the above articles are being sold at astonishingly low prices, and it will be to the interest of those who wish to purchase at that line to visit their establishment, at West Queen Street, next door to H. SIERER'S Mammouth Furniture Establishment, Chambersburg, Pa. June 12—6m.

**H. SIERER & CO.**  
MANUFACTURER AND DEALER IN  
FURNITURE,  
CHAMBERSBURG, PENN'A.

H. SIERER, would call the attention of all who are in need of Furniture, Mattresses, Looking Glasses, &c., to the fact that he has a large stock on hand, at his rooms on West Queen Street, than all similar establishments in the county combined, and that he can and does offer inducements to Housekeepers and others, in want of Goods in his line, such as no other Furniture Dealers can do. Having a large Factory filled with the latest improved Machinery, driven by water power—which is much cheaper than steam—he is enabled to make his furniture at less cost than parties not having the same advantages.

More than 60 BUREAUS, of 25 different styles from \$7.50 to \$100.00 each. Upwards of 800 CHAIRS, of all styles from \$1.25 to \$35.00 each. ROCKING CHAIRS from \$1.50 to \$30. FULL CHAMBER SUITS, solid Walnut, from \$60 to \$275 each. COTTAGE SUITS, from \$30 to \$75 each. TETA-A-TETES and sofas, from \$2.50 to \$60 each. Spring-seat PARLOR CHAIRS, from \$25 to \$50 per half dozen. LOUNGES, from \$7 to \$10 each. Marble-top PARLOR TABLES, solid Walnut, from \$10 to \$40 each. Wood Top PARLOR TABLES, from \$2 to \$15 each.

Among which are more than thirty different styles. Also, EXTENSION, BREAKFAST, DINING and HALL TABLES, in endless variety. CHILDREN'S CARRIAGES, 15 different styles ranging in price from \$5 to \$25 and all other articles kept in first class Furniture establishments. He also sells Wholesale to the Trade, all of whom he requests to call and learn prices before purchasing elsewhere. H. SIERER, West Queen Street, June 5—6m. Chambersburg, Pa.

**THE HERO FRUIT JAR**

The best in the market, at AMBERSON, BENEDECT & CO. July 17.

Improved Threshing Machine!

Daniel Geiser, B. E. Price. J. F. Otter, Josiah Fahrney.

Farmers will please look at the great advantage in Threshing Grain with

**GEISERS' PATENT SELF-REGULATING GRAIN SEPARATOR,**

CLEANER AND BAGGER. With the latest Improved Triple Geared Horse Power, driven either by Gear or Belt

No. 1 is a eight-horse power, with cast iron thresher frame and wrought iron and wood cylinder, sixteen inches in diameter and thirty three inches long. Trunk has ten inch rake crank and seven rakes is thirty-five inches wide, and delivers the straw on the second rake, these carry the straw out on their tops, and deliver it on the stacker, which will deliver about thirty-five feet beyond the feeder, on a stack fifteen to eighteen feet high, and can be easily managed to carry the chaff with the straw, or deliver it in a separate place. The trunk and fan sides being closed, to confine the straw and chaff, remedies all difficulties in cleaning grain against windy weather. It bags the grain by reasonable management, sufficiently clean for market, and its capacity, under ordinary circumstances, is from twenty to forty bushels per hour, using eight horses and the same number of hands; but to force the work under favorable circumstances, it will thresh from forty to fifty bushels per hour, and with more ease and agreeableness to hands than any other machine now in common use.

The No. 2 Machine, fully represented in the above cut, is particularly adapted to the farmer's use; it is intended to apply to any course of railway power; weighs 1,300 pounds; has an iron thresher frame, and cylinder, 12 1/2 inches in diameter and 28 inches long; delivers the clean grain in bags, or if desired, in a half bushel. It delivers the straw fifteen feet from the feeder, or if desired, can deliver the straw and chaff together; will thresh and clean, in good grain, ready for market, from 100 to 175 bushels of wheat, or from 300 to 500 bushels of oats per day, using four or six horses, and the same number of hands; but to force the work, under most favorable circumstances, good grain, &c., will thresh and clean considerably more. The Machine will thresh and clean all kinds of grain generally threshed with the common machine, and requires no more horse power, but in many cases does not run so hard. It will apply very well to a two-horse railway power.

Now here is what the Farmer and thresherman wants, a Separator to go from farm to farm, to thresh grain, with more satisfaction than any other separator now in use, and why is it? Because this separator has a self regulating Blast, which prevents grain from blowing into the chaff, and also has a self-regulating feeder-to-feed-the-cleaner and it has rollers and combs in the cleaner which prevents it from choking. Why does this machine run so light, and give so little trouble? Because there is less friction in the Journals, and the rakes and fan are geared so that you have no trouble with Belts breaking and slipping, causing dust to fall into the wheel. Why does it clean against the wind? Because the blast has direct action on the grain and the cleaner is so well arranged that the wind has no chance to drive the dirt into the hopper. Why is it built permanently on two wheels and the frog carriage separate, ready to attach when necessary? Because it is more convenient in the barn without the front carriage. You can turn the machine or run it from place to place more easily. Why has it not got Elevators like some other machines? Because the Elevators carry the fifth back alternately into the cleaner which must eventually go into the good wheat or in the chaff, and all know that fifth should be kept separate for feed, &c., we might as well keep shoveling the Tailings from under our hand into the hopper and expect to get the grain clean. Why is this separator more cleanly and satisfactory to work about than others? Because the Fan and Trunk Sides are closed up to prevent the wheat chaff and dust from coming out and scattering over the floor, causing waist and giving much trouble with dirt and sore eyes, &c. Why do Threshermen get more work with these separators than they do with others? Because this separator has all these advantages and many more, which makes it a separator suitable and a paying one for all farmers and Threshermen that have grain to thresh, whilst in most cases farmers must suit themselves to the machine, because the machine will not suit itself to the farmer. In short, this is the cheapest, most durable, reliable, simple and most agreeable to work about; and the only separator that will clean and bag the grain sufficiently clean for market under all circumstances.

Farmers can rest assured that this machine is no humbug, and judging from the high recommendation of farmers that are using them, we must come to the conclusion that it is the very Machine that farmers want and will have as soon as they have an opportunity to appreciate and attest its merits, for which we hope they will give us an opportunity, as we are willing to be responsible if it does not perform as represented in this Circular.

A reduction of 20 per cent. on all orders handed in on or before the first of April, 1868.

**Shop Prices of Machines range from \$215, to \$540.**

We warrant the machines to be as above represented; also against any reasonable defects of material workmanship, &c.

**DANIEL GEISER, Proprietor.** Geiser, Price & Co., Manufacturers.

WAYNESBORO', FRANKLIN CO., PA.

**Null's Pat. Post Boring Machine.**

PATENTED MARCH 24, 1868.

A series of trials of this machine has convince the inventor and all persons who have witnessed its operations that it is superior to any other in use in the following particulars:

LABOR SAVING QUALITIES—EASE OF OPERATION—SIMPLICITY OF CONSTRUCTION.

This machine is constructed so as to be operated either by hand, horse, water or steam power. By hand 25 to 30 posts can be bored per day; by one-horse power from 100 to 150 per day; by two-horse power 200 per day, and by water or steam power from 200 to 300 per day.

The subscriber is now prepared to dispose of State and County Rights for the above valuable invention.

Address **JONATHAN NULL,** Quincy, Franklin County, Pa.

June 19—1f
