

VILLAGE RECORD.

WAYNESBORO.

Friday, August 7, 1869.

Jeff. Davis and family sailed from Quebec on Saturday a week for Europe.

The owner of the Granite Mills Mr. Deford, says his loss by the flood is nearly a quarter of a million of dollars.

Nearly three thousand operatives in and around Ellicott City are out of employment, owing to the factories and mills being destroyed.

The loss by the late flood in the Mid-dletown (Md.) Valley, the Register thinks will exceed \$150,000.

William Wood, a Union soldier during the war, was taken from his home, in Monroe county, Kentucky, on Monday night, by the Ku Klux Klan, and hanged.

Two bushels of rats were found in the vat of a brewery recently seized by revenue officers in Philadelphia. A great deal of body to it.

There is to be a picnic of fat men at Utica, N. Y., next month. No person will be allowed to participate in the festivities who weighs under 250 pounds.

A very destructive fire occurred at Oil City, Pa., on Friday last, laying about 200 houses in ashes, which was occasioned by the bursting of a car tank, the oil coming in contact with the fire in an engine room. Nearly one hundred families were thus rendered homeless.

Commissioner Rollins has notified revenue officers that spirits may be withdrawn from bond by the payment of the tax of fifty cents per gallon and \$2 per bbl. of forty gallons (equal to sixty cents a proof gallon). He also says that all distilleries must be closed until the distillers have given new bonds, and complied with the new Tax law in all particulars.

The Conneville railroad is now placed on a sure basis. The two millions loan for its completion is all taken, and the line from Conneville to Cumberland is in active preparation for the renewal of the work.

LOCAL MATTERS.

ONE LAND FOR SALE.—Apply to A. S. Mond, Quincy, Pa.

A large stock of Grant Pins and Medals at Alex. Leeds', the watchmaker.

SCHOOL.—Mrs. A. M. Smith will re-open School on the 10th of August.

VALUABLE PROPERTY.—The town residence belonging to the heirs of Dr. Thos. Walker, Dec'd, on Tuesday last was appraised at \$7,300.

PREACHING.—The M. E. Church in this place, which has been undergoing repairs for several weeks, will be re-opened on Sunday next. Rev. Mr. Harbes of Chambersburg will preach morning and evening.

At the last meeting of the Waynesboro' Building Association stock was sold at a premium 23 per cent. The same evening Mr. Jerome Beaver was elected Secretary, vice E. Elden, resigned. Salary \$50 per annum.

IMPROVEMENTS.—We observe that our present efficient High Constable, Mr. John H. Miller, is remodeling his house on East Main street and adding another story to it. When completed it will be a comfortable and attractive residence.

Those Addressparger and Chas. Schrader are also erecting each a new house on Mohanck Street.

RELICS.—Rev. Daniel Holsinger, of this vicinity, has now in his possession the following articles, brought from Switzerland by a Mr. Ingold in 1752, viz: A Brass Kettle, a two gallon Honey Crook and a Waffle Iron. These articles are at least 118 years old, and have thus been handed down to posterity. Also a piece of silver brought by Ingold's daughter; Mrs. Snowberger, who was only 9 years old at the time.

MORE RAIN.—During the past week our section of country has been highly favored with refreshing showers of rain. We understand the corn generally is coming well and that the prospects for a good crop was never better. Potatoes are abundant and have been retailing on our streets as low as ninety cents per bushel.

FOR THE CAMPAIGN.—The first number of the "Campaign Telegraph," a neatly executed and interesting Campaign paper, published by Geo. Bergner, Esq., of the Harrisburg Daily Telegraph, is on our table. Single copies till after the Presidential election cents. Clubs of 40 copies 25 cents, and copies 20 cents. We commend the "Campaign Telegraph" to the friends of ant and Colfax.

STILL ADVANCING.—We notice the firm of Messrs. Geiser, Price & Co., are still improving their manufacturing facilities, and are now prepared to do up work with dispatch and in the most complete manner.—That the Geiser Grain Separator is taking the lead of all other Separators is evident from the manner in which it is working its way into all parts of the country, challenging its competitors and compelling them to take the rear rank.

We notice they are now filling a foreign order for Mr. Z. C. Ladd, of Santiago, Chili, S. A. who has spent some months traveling through the United States looking up the most complete Separator in use, and has finally concluded (after examining many other machines) that the Geiser Separator is the best, and has accordingly purchased several of them.

Mr. Ladd is a stranger to us, but there is no doubt as to his knowledge of machinery. We notice an extract from the Daily Guardian & Falls City Register stating that he is also engaged in shipping a very heavy lot of machinery for mill purposes to his country, which are furnished by Messrs Todd & Rafferty, of Paterson, N. J., who are also furnishing engines for the Geiser Separators.

THE TICKET.—The following ticket was nominated by the Democratic County Convention on Tuesday:—

State Senator, C. M. Duncan. Judge, J. McDowell Sharp. Assemblyman, Col. B. F. Winger. Sheriff, Frederick Zollinger. District Attorney, Wm. S. Stenger.—Commissioner, Wm. F. McAllen. Director of the Poor, Jacob R. Smith. Auditor, Wm. D. McKinstry. County Surveyor, Hugh Auld. Three Congressional conferees were selected and instructed to support Hon. F. M. Kimmel.

There are several things which a young man shouldn't do while he is courting his sweet-heart. He shouldn't ask her if her front teeth are natural. He shouldn't ask her if she remembers when the seven-teen year locusts were here the last time before this. There are also some things which he should do. When she yawns and wonders what time it is, and complains of having slept badly the night before—it was so hot, you know—he should look up his hat.

A large stock of Seymour Pins and Medals at Alex Leeds', the watchmaker.

The survey of the Frederick and Pennsylvania Lino Railroad was commenced last week. The road will connect with the Western Maryland Railroad at Monocacy, to which point the latter road will be completed in three months.

THAT SCHOOL BUILDING.—For the last couple of years a new School Building in this place has been talked about. Sometime since the School Board decided, unanimously, we believe, that they would erect such a building, and for its site selected the Western School House lot, a very desirable one at that. Specifications were made out and we announced through our advertising columns that they would receive proposals for its erection until the 25th of July. But nothing so far it seems has been done. We learn from a member of the Board that a gentleman has signified a willingness to enter into a contract for the erection of the building, but not even a meeting has been held to consider his proposition, although weeks have since elapsed. Have the members of the Board changed their minds on the subject for prudential reasons or have they been induced to abandon so necessary and laudable an undertaking from the croakings of persons who oppose all public enterprises from selfish considerations? There is manifestly a weakness somewhere. If the Board was in earnest when they advertised for proposals, why this lack of interest now? A building of the kind is almost indispensable owing to the condition of the school houses in present use. The corporation will be compelled ere long to incur the expense of providing a suitable building for school purposes, and the sooner in our opinion the better. In the present situation of affairs it is impossible to retain in our midst competent teachers and have flourishing schools. The cause of education is languishing here for lack of provision in this respect. The apathy or tardiness on the part of those whose duty it is to push forward the enterprise is therefore a source of regret among all friends of education in our community.

We have referred to this matter again because a number of our most prominent citizens have of late been murmuring about the matter. We advise the Board to go forward with the work they have commenced. The friends of education are not in the minority in our town and no damage is likely to be done to their popularity by so doing.

REPUBLICAN TICKET.—The Republican County Convention on Wednesday nominated the following ticket:—

State Senator, Col. W. T. Dixon. Assemblyman, Capt. John H. Walker. Sheriff, Josiah W. Fletcher. District Attorney, S. W. Hays. Commissioner, ———. Leubman. Director of the Poor, ———. Bowman. Auditor, Capt. Jos. Winger. County Surveyor, Emanuel Kuhn. The conferees were instructed in favor of Hon. John Cassin for Congress.

The New Albany Commercial is responsible for the following:—

"There resides not far from Scottsville, in this county, a family named Dumont, consisting of father, mother, and nineteen children—seventeen boys and two girls. There are in the family, eight pairs of twins, including the two girls and fourteen boys.—There has never been a death in the family, and both parents and children are remarkably stout and vigorous." The family are East Tennessee Refugees, and all chew tobacco except two of the boys. None of them read or write, and all vote the Democratic ticket."

A young woman named Miss Maggie Stover, residing in Woodberry, Bedford county, committed suicide on the 8th ult, by hanging herself. She had been for some time laboring under aberration of the mind.

FOR SALE.—A Perpetual Scholarship in the "Eclectic Medical College of Pennsylvania," located in Philadelphia. We offer a liberal inducement to any young man wishing to enter this institution.

HEARTRENDING ACCIDENT.—A most distressing accident occurred in this place about five o'clock on Saturday evening last, which resulted in the death of Miss Sarah Albert, a young lady 16 years of age, and daughter of Mr. Ezra Albert, of this town. Miss Albert was employed at the house of Mr. A. C. Bragonier, a few doors from her own home, and having ignited a fire in the stove in order to prepare supper, but which did not burn rapidly enough, she took a half gallon can of kerosene oil and commenced to pour a portion of it upon the fire. As soon as the oil came in contact with the fire an explosion of the can occurred, with a loud report, and the burning oil was thrown all over her, setting her clothes on fire. Horribly frightened as she must have been, she sprang through the kitchen window and ran into the yard, calling loudly for help. Her father and others soon came to her rescue, but not until every stitch of clothing had been burned from her person, and her face and body burned almost to a crisp. In this distressing condition she was carried home, and the services of physicians obtained, but the unfortunate girl was beyond the reach of human aid. She seemed to suffer but little pain, and was entirely sensible, making known her wants and conversing freely with her parents, up to within an hour of her death, which occurred in about four hours.—Middleton (Md.) Register.

Mrs. Betsy Rogers of Newbury, Mass., has followed the business of picking berries for 70 years. She will be 95 next month. The Newburyport Herald says: "On her birthday she proposes to walk to town—a half dozen miles—with the same berry-basket on her arm, and walk back." She belongs to a tough and long-lived race. Her mother reached the age of 97. There are others of the same sort in Newbury. We saw an old woman the other day who had been picking berries all day in the hot sun, walking over two miles to her work, who was 84 years old, and whose oldest child was over 63. She told us she had walked back a journey of ten miles—six different times this season."

If our friends will use preparations for restoring gray hair they should use the best in the market. Our attention has lately been called to an article which has an extensive sale and a very high reputation, known as Ring's Vegetable Ambrosia, and we are inclined to think that it possesses more desirable and less objectional qualities than any other in the market. It restores gray or faded hair to its original color in a most remarkable manner, and by its invigorating and soothing properties removes all dandruff and humors from the scalp. Give it a fair trial and you cannot fail to like it.

A man in Poulney, Vt., found a pocket book containing notes and bonds to the amount of \$12,000, which he returned to its owner, who rewarded his honesty with a gift of twenty-five cents.

A firm in New Bedford is making three-wheeled wagons and carriages, which are much liked by those who have tried them. They are said to turn in less space and with less danger of upsetting than four-wheeled vehicles.

Rufus Ludwig, who killed his wife after being married to her only eleven days was hanged in Salisbury, N. C. on the 26th of June. He went to the scaffold smoking a cigar.

They have just received in Portland, Me., the largest sweet potato ever raised on the Island of Cuba. This monster weighs forty pounds, is twenty-four inches long, nine inches in diameter and twenty-nine inches in circumference.

NEW YORK, August 3.—Charles G. Halpin, better known as Miles O'Reilly, died at twelve o'clock last night, at the Astor House, this city.

Some bibulous individual in Quincy, Ill., drank 110 glasses of lager in one afternoon recently.

THE TOMB.

Near Fountain Dale, Adams county, on the 25th ult., Mr. NATHAN ANDERSON, aged 46 years, 2 months and 15 days. On the 27th of July, near Waynesboro', of Cholera Infantum EDWIN FULLERTON son of D. F. and R. S. Gordon, aged 6 months, 3 weeks and 3 days. Little heart forever stainless, Bright eyes, that sha'll never dim, Roly lips, no time shall fail 'em, Jesus called him unto him. He is gone, angel one, Leaving many a lonely spot, But 'tis Jesus who has called him, Suffer and forbid him not. Then farewell Eddie, why do we weep, Thou art so happy now, Upon the Saviour's breast you sleep, While Angels cool thy brow. Thy little hands that scarce could hold, The slightest pressure from our hand, Now clasps its mate in holy prayer, Or strikes a harp of beauteous gold. Then let us dry the falling tear, And banish every pain, In your bright land of perfect joy, Dear boy we'll meet again.

MARKETS.

PHILADELPHIA Aug. 4.—FLOUR.—The Flour market continues dull. There is no shipping demand and the home consumers operate cautiously. FRANKLIN NORMAL AND COLLEGIATE INSTITUTE. WAYNESBORO', PA.

OBJECT. THE object of this Institution is threefold: 1. To give Teachers for the Public Schools; 2. To give students a thorough Practical education; 3. To give gentlemen a thorough Practical education, or to prepare them for any class in our best colleges.

SYSTEM OF INSTRUCTION, &c. The system of instruction is principally the Pestalozzian. This system, which deserves to be called that of reason and common sense, has been tried and proved in over a half century's practice in the reformed schools of Germany and Switzerland, and of late, in the best schools of this country, and is the only one that will make clear and vigorous thinkers, instead of "mere parrots." Pupils are neither required nor permitted merely to commit text-books to memory—on the contrary, they are taught to study understandingly, which makes learning a pleasure rather than an irksome task.

The Principal will spare no pains to make this Institution one of the best in the country. He has had ample opportunities for learning what constitutes a good school. Besides having had more than ten years' actual experience in teaching, he has visited a large number of the best schools of the country, especially of New England, and also made himself acquainted with the best European systems of instruction. Besides Prof. C. V. Wilson, who is already favorably known as a teacher, the Principal will be assisted by one or two experienced females.

GOVERNMENT AND DISCIPLINE. The government is mild and parental, appealing to the pupils' reason and sense of right and propriety; yet, obedience and good behavior are strictly required.

BRANCHES TAUGHT.

The branches taught are Orthography, Reading, Penmanship, Geography, Arithmetic, Grammar, Book-keeping, Algebra, Geometry, Physiology, Composition, Declaration, Rhetoric, History, Botany, Trigonometry, Natural Philosophy, Geology, Analytical Geometry, Mental Philosophy, Zoology, Electricity, Logic, Moral Philosophy, Evidences of Christianity, Analogy of Religion, Astronomy, Calculus, Methods of Instruction, Latin, Greek, French, German, Italian, Gymnastics, Music, Drawing, and Painting.

SESSIONS AND VACATIONS. The Scholastic year is divided into three sessions of thirteen weeks each. The Fall Session begins August 20th, and ends November 19th. The Winter Session begins November 23d, and ends March 1st, 1869. The Spring Session begins March 8th, 1869, and ends June 8th, 1869.

There are three vacations. The first occurs during the Holidays, the second, during the first week of March, and the third, after the close of the Spring Session. Pupils may enter at any time, though they will generally find it greatly to their advantage to enter at the beginning of the Session.

EXPENSES. The tuition, except for Primary pupils, is ten dollars (\$10) a session. There are no extra charges except for Instrumental Music, and for injury that may be done to the school property.

REMARKS. Good board can be had in private families. Parents having sons or daughters to educate, are respectfully invited to visit this school in order to judge of its merits.
