At West Bloomfield, New York, during a what printers is !" violent thunder storm one night of last week, five cows were killed by lightning. The remarkable feature in the case is the cows were in a raviue, with a high hill thirty rods or so kind within eighty rods of where they were. the cows all lay in a row facing one way about eight or ten feet apart. Mr. Wager, one of the owners, went for them in the morning, and on arriving at the top of the ill, being tired, sat down to rest and comhenced calling them-they naturally paid no attention-so he concluded he would go and stir them up. On reaching them he found them all dead. The cows were insured for filly dollars each.
