

RING'S
Vegetable Ambrosia
FOR
GRAY HAIR.
This is the Ambrosia that Ring made.

This is the Cure that lay
in the Ambrosia that Ring made.

This is the Man who was bald and
gray.
Who now has raven locks, they say.
He used the Ambrosia that Ring made.

This is the Maiden, handsome and
young.
Who married the man once bald and
gray.
Who now has raven locks, they say.
He used the Ambrosia that Ring made.

This is the Parson, who, by the way,
married the man once bald and gray.
But who now has raven locks, they say.
He used the Cure that lay in the
Ambrosia that Ring made.

This is the Boy that rings away
to amuse the people and gray
to the fact which here does lay—
If you could not be bald or gray.
Use the Ambrosia that Ring made.

Improved Threshing Machine!

Daniel Geiser.
B. E. Price.
J. F. Oiler.
Josiah Fahrney.

Farmers will please look at the great advantage in Threshing
Grain with

GEISERS' PATENT
SELF-REGULATING GRAIN SEPARATOR,
CLEANER AND BAGGER.

With the latest Improved Triple Geared Horse Power,
driven either by Gear or Belt

No. 1 is a eight-horse power, with cast iron threshing frame and wrought iron and wood cylinder, sixteen inches in diameter and thirty three inches long. Trunk has ten-inch rake crank and seven rakes is thirty-five inches wide, and delivers the straw on the second rake, these carry the straw out on their tops, and deliver it in the stacker, which will deliver about thirty-five feet beyond the feeder, on a stack fifteen to eighteen feet high, and can be easily managed to carry the chaff with the straw, or deliver it in a separate place. The trunk and fan sides, being closed, to confine the straw and chaff, remedies a liability in cleaning grain against windy weather. It bags the grain by reasonable management, sufficiently clean for market, and its capacity, under ordinary circumstances, is from twenty to forty bushels per hour, using eight-horse power and the same number of hands; but to force the work under favorable circumstances, it will thresh from forty to fifty bushels per hour, and with more ease and agreeableness to have than any other machine now in common use.

The No. 2 Machine, fully represented in the above cut, is particularly adapted to the farmer's use; it is intended to apply to any common lever or railway power, weighs 1,300 pounds; has an iron threshing frame, and cylinder, 12 1/2 inches in diameter and 28 inches long; delivers the clean grain in bags, or it desired, in a half bushel. It delivers the straw fifteen feet from the feeder, or if desired, can deliver the straw and chaff together; will thresh and clean, in good grain, ready for market, from 100 to 170 bushels of wheat, or from 300 to 500 bushels of oats per day, using four or six horses, and the same number of hands; but to force the work, under most favorable circumstances, good grain &c., will thresh and clean considerably more. The Machine will thresh and clean all kinds of grain generally threshed with the common machine, and requires no more horse power, but in many cases does not run so hard. It will apply very well to a two-horse railway power.

Now here is what the Farmer and thrasher want, a Separator to go from farm to farm, to thresh grain, with more satisfaction than any other separator now in use, and why is it? Because this separator has a self-regulating blast, which prevents grain from blowing into the chaff, and also has a self-regulating feeder to feed the cleaner and also has rollers and comes in the cleaner which prevents it from clogging. Why does this machine run so tight, and give so little trouble? Because there is less fire in the journals, and the rollers and bearings are oiled, so that you have no trouble with belts breaking, iron-sipping, causing dust to fall into the wheat. Why does it clean against the wind? Because the blast has direct action on the grain and the cleaner is so well arranged that the wind has no chance to drive the dirt into the top. Why is it so convenient on two-wheeled and front carriage, separate, ready to attach when necessary? Because it is more convenient in the barn without the iron carriage. You can turn the machine or run it from place to place more easily. Why has it not got Elevators like some other machines? Because the Elevators carry the fifth back alternately into the cleaner which must eventually go into the good wheat or in the chaff, and all know, that fifth should be kept separate for feed, &c. Why do we keep shoveling the fallings from under our hand for into the separate for feed, &c. Why do we keep shoveling the fallings from under our hand for into the separate for feed, &c. Why do we keep shoveling the fallings from under our hand for into the separate for feed, &c. Why do we keep shoveling the fallings from under our hand for into the separate for feed, &c.

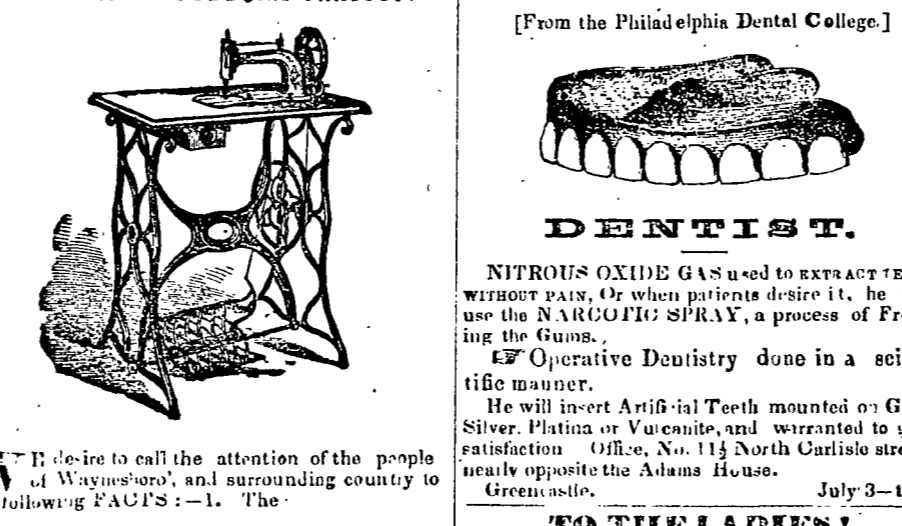

Farmers can rest assured that this machine is no humbug, and judging from the high recent commendation of farmers that are using them, we must come to the conclusion that it is the very Machine that farmers want and will have as soon as they have an opportunity to appropriate and test its merits, for which we hope they will give us an opportunity, as we are willing to be responsible if it does not perform as represented in this Circular.

A reduction of 2 per cent. on all orders handed in on or before the first of April, 1868.
Shop Prices of Machines range from \$215, to \$540.
We warrant the machine to be as above represented; also against any reasonable defects of material workmanship, &c.

TO THE LADIES!

M. C. RESSER would respectfully announce
to the citizens of Waynesboro' and vicinity
that she still intends to carry on the Millinery
business in all its branches; and don't intend quitting
has been reported, but expects to carry on
more extensively than ever. She also intends carrying
on MANTUA MAKING in connection with
her other business; having had considerable experience
in both she flatters herself that she will be
able to give satisfaction to all. Returning thanks
for a liberal patronage given her heretofore, she hopes
for a continuance of the same in the future.
March 20—1t.

TO DISTILLERS.

DISTILLERS and others distilling copper work,
such as Still, Kettles, &c., will find it to their
interest to order the undersigned, who is fully
prepared to do all kinds of copper work at the short-
est notice and put it up in the very best manner.
All the new improvements in Distillation introduced.
The attention of Distillers is also invited to
J. Springer's Patent Whisky Double through
which the greatest advantages in Distillation are
obtained. Steam and water pipe put up and all
kinds of Brass work furnished. **A. C. FLYNN,**

H. best cash price paid for CARPET RAGS.

WINDOW SHADES.

We have a large assortment in this line—entirely
new Patterns, very handsome and cheap—rang-
ing from 60 cents upwards. We also have
**TRIPP'S PATENT WINDOW SHADE FIX-
TURES,**
self-acting, a great improvement on the old style of
Fixture. It is quite a novelty; come and see them
operate. We have, also, a full line of
STAIR RODS.

All the above articles are being sold at as
consistently low prices, and it will be to the interest
of those who wish to purchase in that line to visit
their establishment, at West Queen Street, next door
to H. Sierer's Mammoth Furniture Establishment,
Chambersburg, Pa.
June 12—6m.

DR. T. D. FRENCH,

DENTIST,
I. N. SHERER would call the attention of all who
are in need of Furniture, Mattresses, Looking
Glasses, &c., to the fact that he has a larger stock
on hand, at his rooms on West Queen Street, than
all similar establishments in the county combined,
and that he can and does offer inducements to
Housekeepers and others, in want of Goods in his
line, such as no other Furniture Dealers can do.
Having a Large Factory filled with the latest im-
proved Machinery, driven by water power—which
is much cheaper than steam—he is enabled to make
his furniture at less cost than parties not having
the same advantages.
He has on hand upwards of 149 BEDSTEADS,
of over 30 different styles, ranging in price from \$5
to \$75.
More than 60 BUREAUS, of 25 dif-ferent styles
from \$7.50 to \$100.00 up.
Upwards of 200 CHAIRS, of all styles from
\$1.25 to \$35 each.
ROCKING CHAIRS from \$1.50 to \$30.
FULL CHAMBER SUITS, solid Walnut, from
\$60 to \$75 each.
COTTAGE STUFS, from \$30 to \$75 each
TELETYPE and Poles, from \$2 to \$50
each.
Spring-seat PARLOR CHAIRS, from \$28 to
\$50 per half dozen.
LOUNGES, from \$7 to \$10 each.
Marble-top PARLOR TABLES, solid walnut,
from \$10 to \$10 each.
Wood Top PARLOR TABLES, from \$2 to \$5
each.
Among which are more than thirty different styles.
Also, EX-FEN-ION, B. H. KAFAS, DINING
and HALL TABLES, in endless variety,
CHILDREN'S CARRIAGES, 15 different styles
ranging in price from \$5 to \$25 and all other arti-
cles kept in first class Furniture establishments.
He also sells Wholesale to the trade, all of whom
he requests to call and learn prices before purchasing
elsewhere. **H. SIERER, West Queen Street,
Chambersburg, Pa.**
June 5—3m.
