"Dr. P. Fahrney's celebrated Blood Searcher or Panacca," is a medicine that we can recommend to to those who are afflicted, having used it in our own family and furnished our friends with the article, we can, therefore, from experience say that it is a medicine possessing rare medicinal properties. Being a mild purgative, it is well to keep it always in the family where there are children or those subject to colds or other sickness. It is compounded from medicinal Roots, Leaves, Burks, Seeds and Berries, which are said to be entirely free from poison. We are personally acquainted with the proprietor who was our family Physician for several years, and we were at one time raised from a bed of affliction under plation.
