It is said that an effort is to be made at the next session of Congress by a whiskey ring, having large amounts of whiskey on hand, to increase the tax by raising it to the old rate, \$2 per gallon, thus making a profit of \$1.50 on the stockin store. Commissioner Rollins thinks that Congress will not entertain such a proposition, as his report now in preparation will show that the receipts from the whiskey tax have been largely in excess under the workings of the new law of the re- up. ceipts for a corresponding period under the old \$2 law. It is also believed that the receipts will reach the estimates of the Committee of Ways and Means.

The report of Gen. Geo. H. Thomas regarding affairs in the Department of the Cumberland, gives a valuable official history of the Ku-Klux Klan. The report draws a gloomy picture of the present condition-of affairs in Tennessee and Kentucký. "It is mortifying to acknowledge," says Gen. Thomas, "that the State and local laws, and the more powerful force of public opinion, do not protect citizens of the Department from violence. Indeed, crime is committed because public opinion favors it." This is the language of a dispassionate official report, from one of our most honored generals.
