

# VILLAGE RECORD.

## WAYNESBORO.

Friday, January 15, 1869.

Hon. John Scott, of Huntingdon, was last week elected U. S. Senator by the Legislature of this State.

When a hog is found at large in the streets of Charleston he is killed and his carcass distributed to the poor.

A bill introduced by Mr. Washburne to repeal the provisions of the Tenure of Office bill passed March 27, 1867, passed the House of Representatives on Monday.

Queen Victoria is almost as successful as a grandmother as she was as a mother. She possesses fifteen grand children and still they come.

DEAD.—The distinguished Virginian, Hon. John Minor Botts, died at his home in Culpeper, Va., on the 7th inst., in the 67th year of his age.

According to the Report of the Auditor General the Common Schools of this State last year cost the sum of \$343,866.99. During the same time \$772,066.20 were paid out of the treasury to charitable institutions.

During the year 1868 there were forty-eight murders committed in New York, and ninety-four persons destroyed their lives by the commission of suicide—of these sixty-three were men and thirty-one women.

"There is little doubt," says a Washington despatch, "that no confirmations of any of Andrew Johnson's nominations will take place between now and the fourth of March. Upon this the Republican Senators seem to have fixedly resolved."

A vessel arrived at London reports that thirty-nine of the missing passengers of the steamer *Libertaria*, which foundered at sea in November last, had been saved by the ship *Ocean Spray*, and would be landed at Madras.

General Sherman has received information that representatives from four hundred Comanche lodges have arrived at Fort Buscon, New Mexico, and offered to surrender. They were notified that no surrender would be received except at Fort Cobb, the object being to have all the tribes on the Plains within watching distance of General Sheridan.

There is a very prevalent error that the thirteenth section of the act of 1862, authorizing the President at any time hereafter, by proclamation to extend to persons who may have participated in the rebellion in any State, or part thereof, pardon and amnesty, is still in force. The section was repealed by the last Congress, so that the President in issuing his last Amnesty Proclamation has not this act to rely upon.

Mr. Washburne, of Illinois, the early friend of Gen. Grant, and the Chairman of the Committee of Ways and Means, made a strong speech in Congress last week in favor of Retrenchment and Economy. As he is supposed to speak the sentiments of Gen. Grant, the speech created a marked sensation, especially among the Government robbers.

The Annual Meeting of the Pennsylvania Fruit Growers Society will be held in the Orphan's Court room, at Harrisburg, on the third Wednesday in January, being the 20th, 1869. Discussions on all the new fruits, from Strawberries to Apples, inclusive, will be engaged in. Members are desired to attend, and exhibit such fruits as they may have.

IMPURE LIQUORS.—The result of investigations recently made by agents and chemists employed for that purpose by the New York World, shows conclusively that there is no pure liquor sold at the bars of hotels or restaurants—that all of them contain more or less of fuel oil and other poisons, and are consequently highly deleterious. This has long been suspected to be the case; but now that the fact has been established beyond question, will those heretofore addicted to the practice of drinking continue to swallow poison as usual, with the certain knowledge that health must suffer, and life be out short?

THE UNITED STATES CENSUS.—During the coming summer the regular ten year census of United States is to be taken. Congress will probably make special provisions for the great work. Statisticians calculate upon a population of forty millions. It was thirty-one millions in 1860, and twenty-one millions in 1850. One effect of the new census will no doubt be to alter the present Congressional representation of those States which deny to the colored men the right of suffrage. Kentucky and Maryland will certainly have to lose a few Congressmen or else enfranchise their colored population.

CORN AND COTTON.—The Department of Agriculture estimates the corn crop of 1868 at 905,178,000 bushels, and the cotton crop at 2,380,000 bales. The year previous the corn crop was 767,820,000 bushels and the cotton crop 2,450,000 bales.

IMMENSE WEALTH.—Baron James de Rothschild died worth 44,800,000 pounds sterling, over \$220,000,000. He left his wife £8,000,000, besides other property of great value; his eldest son £20,000,000; his second son £3,000,000; his third son £6,000,000, and his grandson £2,000,000.

# LOCAL MATTERS.

**PUBLIC SALE**—We direct attention to the sale of valuable personal property by Henry Shank, in to-day's paper.

**FARM SOLD**—Wm. B. Gabby, Esq., has sold his farm in Guilford township, to Francis and Jacob B. Werner, for \$18,000.

**FRESH FISH**—Will be received and for sale on Friday evening by REID & WAXMANT.

**Samuel Lady**, of Adams county, had his ear bitten off by a horse one day last week. Although search was made the ear could not afterwards be found.

**\$9.00**—It will be seen by reference to our advertising columns that good family flour is now being delivered to families at \$9.00 per barrel by Mr. Lohn.

**CLOCKS**—Our friend LEEDS, watch-maker and jeweler, has just now an unrivaled assortment of clocks, with a relic, manufactured in Switzerland, supposed to have been in use over one hundred and fifty years.

**Samuel Seiler**, implicated in the Mercersburg robbery, has been released from Jail, Dr. King, of Mercersburg, giving bail to the amount of \$1,500 for his appearance at court.

**HARD LUCK**—Mr. Albert Culp, of Lancaster county, has had his leg broken three times within the last six months, the last break being the result of his jumping from a sleigh. He is said to be doing well.

**REPORT**—The Report of the Waynesboro' Building Association will be found among the advertisements in to-day's paper, to which we invite special attention. The Association offers for sale 150 additional shares of stock.

**EARLY ROSE POTATOES**—The enterprising firm of Messrs. H. S. Gilbert & Co., of Chambersburg, the other day left with us a sample of the much-talked-of "Early Rose Potatoes," which can be seen at our office. Under favorable circumstances one peck of seed will yield twenty bushels. In this respect, as well as in quality, the variety may be said to be unsurpassed. These gentlemen can supply the demands of the public.

**BUILDING ASSOCIATION**—We understand a charter has been applied for a second Building Association in this place, which is to be styled the "Washington Township Building Association," and that it is proposed to hold the meetings of the Association monthly instead of weekly. The business of the institution would be thus less complicated and the expenses much less, and the meetings more generally attended. For our part we would give the monthly time of meeting the preference.

**Packard's Monthly** appears in a more convenient form. It is emphatically a magazine for young men, and they may derive valuable instruction and profit from its pages. The price is only \$1 a year. Subscribe for it. Address S. S. Packard, Publisher, 837 Broadway, New York.

The French have discovered that the white of an egg given in sweetened water is a sure cure for the croup. The remedy is to be repeated till a cure is effected.

An acquaintance informs us that his little boy, 6 years of age, last week had an attack of croup, which he believes would have proved fatal but for the above prescription. After his family physician had exhausted all means of arresting the disease and given up the case as hopeless, he (the physician) remembered seeing the above in print and concluded to try it as a last resort. He took the yolks of three eggs, put them in about a half tea-cup of water, mixed and made it very sweet with loaf-sugar. This he administered in table-spoonful doses every fifteen minutes. In a couple of hours the child was relieved. Parents should make a note of this simple remedy.

**RECIPTS**—The following comprises our receipts for subscription during the past week:

Geo. F. Summers,	\$2.00
Jacob Deardoff,	2 00
Benj. Layman,	2 00
D. B. Hess,	5 00

**VICK'S FLORAL GUIDE FOR 1869**—The first edition of one hundred thousand of Vick's Illustrated Catalogue of Seeds and Guide in the Flower Garden is now published. It makes a work of 100 pages, illustrated with about 150 fine wood engravings of Flowers and Vegetables, and an elegant colored plate, a Bouquet of Flowers itself worth far more than the price of the Guide. It is the most beautiful, as well as the most instructive Floral Guide published, giving plain and thorough directions for the culture of flowers and vegetables. The Floral Guide is published for the benefit of his customers, to whom it is sent free without application, but will be forwarded to all who apply by mail, for Ten Cents, which is not half the cost. Address JAMES VICK, Rochester, N. Y.

# DEATH OF AN AGED BROTHER AND SISTER.

Jacob Binkley and his sister Elizabeth, two aged persons, died last week, within a short time of each other, at their residence in East Washington Street of this town. These two old people have left an estate variously estimated at from Fifteen to Twenty-five Thousand Dollars, and yet they lived and died in the most abject poverty, denying themselves all the comforts and most of the necessities of life for the poor gratification of adding dollar to dollar. The brother died last, and just before his death, requested a neighbor to take charge of such funds as were in the house, consisting of a box of coin, supposed to contain Eight or Ten Hundred Dollars, and several parcels of Bank Notes which were wrapped up in old papers and rags, and stuck about in the Bureau drawers. Besides these effects, they owned seven or eight houses in this town and Funks-town, and held a considerable amount of private securities. And yet, as already stated, they refused to make use of even a small part of these ample means to render their last days on earth comfortable, and really died, as they had lived, in a wretched state of destitution. Having no issue, their estate will go to three nieces living in the lower part of the county, who are said to be worthy, deserving people, and who will doubtless make better use of it than those who accumulated it.—*Hog Herald.*

**FOR TOBACCO CHEWERS**—One of the most indecent habits extant, is that of chewing tobacco in churches and spitting the disgusting filth over the floors, to the great inconvenience of ladies and the annoyance of gentlemen, who are frequently compelled to occupy the same seat. The man who cannot refrain from chewing tobacco during the hour of divine services, is a slave to a practice that he should make great exertions to free himself from, as the church is not a fit place for an exhibition of the filth he ejects. We would ask those who are in the habit of chewing tobacco in churches and spitting upon the floors; what would you think of the man who would enter your parlor or sitting room and while there spit great pools of tobacco juice on your floors and carpets? Your parlor is designed as a place in which to make your guest comfortable during his stay with you, and the church is designed as a place for the comfort of hearers during Divine services. Neither is it intended as a depository of filth, and a man is no more justifiable in violating the common proprieties of every day life while in church, than while in your parlor; and no gentleman will be guilty of such an impropriety in either case. We submit these remarks to the careful consideration of all who are in the habit of chewing tobacco in churches, with the full assurance that a few moments serious reflection will suffice to convince them of the heinousness of their offensive habits, and that they will hereafter refrain from chewing during Divine services.—*So says the Harrisburg Telegraph.*

The minister to whom Miss Sarah Wilson had so strangely and suddenly transferred the greater portion of her estate, has surrendered the papers. We understand that he received a present of \$500 from her. He left town on the 5th inst., for his home in Ohio.—*Repository.*

The editor of a Vermont paper says he had a present on Christmas morning, which "was not a piano, but it could yell!"

**ORE LAND FOR SALE**—Apply to A. S. Monn, Quincy, Pa.

**EFFICACY ON ONIONS**—A writer says: "We are troubled often with severe coughs, the result of colds of long standing, which may turn to consumption or premature death. Hard coughs cause sleepless nights by constant irritation of the throat, and a strong effort to throw off offensive matter from the lungs. The remedy proposed has often been tried, and is simply to take into the stomach before retiring for the night, a piece of raw onion after chewing. This esculent in an uncooked state is very healing, and collects the water from the lungs and throat, causing immediate relief to the patient."

An intoxicated man recently laid down on the railroad track near the Covington, Kentucky, depot, and fell asleep. A little dog belonging to a house close by, seeing a train approach, ran and jumped upon his face, and barked and scratched him until he awoke, just in time to get out of the way of the cars. The man, believing this to be a divine warning to abstain from drinking, took the pledge forthwith.

# MARKETS.

PHILADELPHIA Tuesday, Jan. 12, 1869.—**FLOUR**—Dulness is the most prominent feature of the Flour market, and prices generally have a decidedly downward tendency. About 400-bbls. Flour, Wisconsin, and Minnesota extra families sold at \$7.75@8 for fancy. 300 bbls Pennsylvania and Ohio families sold at \$9.50@10.50, and 100 bbls fancy at \$11.50. We quote extras at \$6@6.50, and superfine at \$5.25@5.75.

**GRAIN**—There is no spirit in the Wheat market, there being very little inquiry for any description; sales of 1,500 bushels red at \$1.85@2; amber at \$2.05@2.08 for fair and good, and \$2.10@2.12 for choice, and white at \$2.20@2.40. Rye is quiet at \$1.60@1.62 for Western and Pennsylvania. Corn is rather firmer, but the aggregate transactions are light; sales of 5,000 bushels new yellow at \$8@9.2c; 1,000 bushels new white at 85c, and 1,000 bushels new Western mixed at 91c. Oats are dull and lower; sales of 4,000 bushels Western at 72@73c, and 1,000 bushels light Pennsylvania at 65c.

**SEEDS**—Cloverseed is quite active; sales of 700 bushels at \$7.87@8.25 for fair and good, and \$8.37@8.50 for prime.
