# VILLAGE RECORD.

## WAYNIN BORO Friday, February 12, 1869,

President Johnson has signed the par

don of Dr. Mudd.

Mrs. Surratt's remains have been given her friends by order of the President.

Resolutions tendering the hospitalities of Baltimore to President Johnson, whilst on his way to Tennessee from Washington, were laid upon the table in the Second Reid & Waynant, Branch of the City Council on Monday even ing.

George S. Twitchell Jr., the Philadel phia murderer, seems to realize his situation, and spends much time in reading religious works and listening to his minister, Dr. Bringhurst. He is quiet and docile, his salas of voluable personal property those to manner being described as amiable and win- be made by Elias Shookey and David Giluing. He still protests, however, that he bert, of Washington county. knows nothing of the crime for which he is to be hanged. A movement has been made by citizens of Philadelphia to secure his Subject, why every body buys their Clocks, pardon by Gov. Geary.

GF Mr. Defrees, the Congressional printer, states that, "it requires the enormous amount of two hundred and twenty five tons of printing paper to complete the Agricultural Rcport of 1868." To transport this edition would require a train of army wagons of over

strong, each carrying a hundred pounds. The Adams county. edition consists of 224,500 volumes.

some very remarkable conversions in opinion have been effected by our civil war. One of the most extraordinary is that of ex-Governor Wise, who declares in a recent let- ly. ter that he "praises God for the war every day, notwithstanding its disaster and deaths, as a special providence, indispensable to free me and my heirs forever from the weakness, it not wickedness, of African slavery." I will be satisfactory to many people to learn that the fiery ex-Governor praises God every day for anything, and still more so to learn that it is the abolition of slavery that elicits his hallelujahs.

10 In the United States Senate on Mon day Mr. Sherman presented a memorial asking the recognition of the Supreme Being in the Constitution, and said it was remarkable that there was no such mention in that instrument. These petitions, he said, had pation, we had lately received at the hands of Providence, it seemed to him peculiarly fitting that the Judiciary Committee should now take the subject into consideration and report a provision.

To the House of Representatives on Monday Mr. Miller introduced a joint resolution proposing an amendment to the Constitution of the United States so as to allow the qualified voters of the respective States to vote directly for President and Vice President of the United States, and in case of a tie vote the election to be by Congress from the two candidates having the highest number of votes. Mr. Selve introduced a joint resolution proposing an amendment to the shall hereafter be elected by a direct vote of the people, and increasing the term of Representatives to four years. Both propositions were referred to the Judiciary Committee.

THE BOOK BUSINESS .- But few persons have any proper comprehension of how wast 4,000 bushels were offered, but sales were is the book business in this country. Take made of only about 1,000 bushels at 65@ one "item" for instance, as illustrative : 70 cts. Matthew Hale Smith's "Sunshine and Shadow in New York," which is the exciting work of the day, has already reached the enormous sale of 25,000 copies within thirty days. The publishers (J. B. Burr & Co, of Hartford, Conn.) use two tons of paper a day and run six large-roller - presses-constantly to supply the current demand. - This is doing a wholesale business with one book alone. This is a large work too, it must be remembered, between seven and eight hundred pages royal octavo : and yet it is said to rival in rapidity of sale "Uncle Tom's Cabin" of old. Think of the countlessness of the small oves published. Surely ours is a reading country.

The Senate Committee on the Pacific Railroad have decided upon a general Railroad bill, which will include the Northern Pacific, Atlantic and Pacific, Eastern Division, and Portland and Mumboldt routes, making in all 4,800 miles. For these Government is to guarantee the interest, but demands the security of ten per cent of their earnings, and in case of failure to pay the same, they are to be proceeded sgainst under the Bankrupt law. To secure the payment of the interest the Government is to retain all money realized by the sale of lands, and after securing the interest to apply the residue to the redemption of the bonds as they accrue.
