

VILLAGE RECORD.

WAYNESBORO.

Friday, April 2, 1869.

Both branches of the Pennsylvania Legislature have ratified the Fifteenth Amendment.

The Adventists are preparing to 'go up' on the 10th of July. There is, they say, no fooling about it this time.

Pottsville has been selected as the place for holding the next session of the Methodist Episcopal Conference, in the spring of 1870.

Gen. Hancock is spoken of as the democratic candidate for President four years hence.

During February 39,112 acres of public lands were sold to actual settlers, at the rate of \$1.25 per acre.

If you go into a store and find boys lying on the counter asleep, you may just bet your bottom dollar that the proprietor don't advertise.

So far eleven States have taken definite action on the Fifteenth Amendment, nine of which have ratified and two rejected it.

The President has refused to grant an interview to Mrs. Dr. Mary Walker, who is addicted to male attire, unless she presents herself in a garb suitable to her sex.

Hon. Edward Bates, who was for a time Attorney General during Mr. Lincoln's first Administration, died in St. Louis on Thursday afternoon.

A dispatch passed over the wires last week that Andrew Johnson had made his last swing, but though he has been quite sick he is toddling about again.

President Grant was slightly indisposed on Saturday and received no visitors. His illness is not serious, but a temporary prostration from the over work and harassments of the position since his inauguration.

General Stoneman on Saturday issued an order removing Governor Wells, of Virginia, and assuming the duties of the office himself. A large number of removals have recently been made throughout the State.

An old woman of Franklin county, Va., named Kesiah Smithers, died on the 21st of February last, at the advanced age of one hundred and twenty five. She is said to have had a cross of Indian blood in her veins, and was remarkably active even in her old age.

The President has fully determined on the policy of sending Quakers to deal with the Indians, and will soon begin appointing prominent members of that society as superintendants and Indian agents.

The snow in the northern portion of New Hampshire, in many places, is from nine to eleven feet deep on a level. Fences are entirely obliterated, and people take the most available routes they can find from point to point without regard to prescribed lines of travel. Along the Grand Trunk, as far down as Bethel, the snow is up to the ear windows, and in many places much deeper.

In the House of Representatives on Monday Mr. Morgan offered a resolution instructing the Committee of Ways and Means to report a bill to relieve from all taxes coffee, tea, sugar, salt and tobacco, and to impose a tax of 2 1/2 per cent. on all United States bonds heretofore issued or to be issued. The resolution was laid on the table.

HEADS IN DANGER.—A Washington paper gives as a rumor that the Secretary of the Treasury and the Commissioner of Internal Revenue, with the consent of the President, have determined to make a clean sweep of a number of Internal Revenue officials in Pennsylvania, consisting of collectors, assessors, storekeepers, and gaugers.

RICHMOND'S POSTMISTRESS.—The appointment by Postmaster General Creswell of Miss Van Lew, as Postmistress of Richmond, seems to have given great satisfaction. The Richmond Journal of Friday says:

Miss Bettie Van Lew, our new post woman, is in receipt daily of letters from all parts of the Union, congratulating her upon the appointment she has received from the President, in reward for her services to the Union and fidelity to the flag. As it would be impossible for her to reply to each of her well-wishers, she requests us to return them her thanks by general proclamation. So in her name, we say: "Thank you, ladies and gentlemen, for your kind sympathies and good wishes." She is also bothered almost as much as General Grant with applications for places in the post office, and asks us to state that there are no vacancies.

PATENT MEDICINES.—The Committee on Public Health in the New York Legislature have reported favorably a bill creating a Commission, consisting of three persons, to be appointed by the Governor, whose duty it shall be to inspect patent medicines and ascertain their ingredients, and report the same annually to the Legislature and to the State Medical Society. A movement that might be followed in other quarters with decided public advantage.

MEETING OF CLASSIS.—The Maryland Classis of the Reformed Church will convene in Frederick on Thursday evening, April 29th.

"WHAT WILL HE DO WITH IT?"—What in the name of common sense and comfort does a man who has all his life been a coal heaver and deck hand on steamboats, want with half a million of dollars? Why, its enough to set the fellow crazy, or at least ruin him. And yet just such a man, all his life so situated, a lucky fellow who answers to that enormous sum, or very near it. When this shower of wealth fell upon him, he was employed on a St. Louis and New Orleans packet, and it is not related that he fainted at the receipt of the news, jumped overboard, or performed any extraordinary feat, which shows that the man had no idea of what had really befallen him. It appears that he was cousin and heir to an old, unobscured citizen of St. Louis, named Sullivan, whose corpse, in a state of decomposition, was found some two years ago in a lonely room in a building in that city, and who, as the sequel shows, was possessed of great wealth. Murty, as the heir of this man, has quite lately been put in possession of nearly two hundred thousand dollars cash, besides real estate, lands and stocks, which amount in all to half a million. What will the unhappy Irishman do with it!

EXCESS OF LAWYERS.—Evidently Senator Sprague, of Rhode Island, has formed no very high estimate of lawyers as practical statesmen. He startled the U. S. Senate last week by a bold, unlooked for and terrible onslaught upon the tribe. "The greatest evil in both Houses of Congress," he said, "is that too many of the members are lawyers, never educated only in one line, in one range of ideas and experience, and therefore incompetent to represent faithfully the diverse interests and necessities of the great mass of the people." Or the sixty-six members of the Senate, forty-five are lawyers, and five of the remaining received a legal education. The preponderance in the other House, says the Senator, is still larger. His speech produced a decided sensation.

LOCAL MATTERS.

Alex. Hamilton has corn and oats for sale.

Butter is retailing at forty cents. A "steep price" for those who have to invest.

Attention is directed to the advertisements of John Riddleberger and Geo. Foreman in this issue.

FAMILY HORSE FOR SALE.—Rev. C. V. Wilson offers at private sale a valuable family horse.

PREACHING.—Rev. Mr. Demoyer will preach his first sermon in the M. E. Church on Sunday morning next.

Col. G. W. Z. Black, of "The Republican," has been appointed Postmaster of Frederick, Md.

MOVING DAY has again come and gone. We trust those of our prompt paying patrons who have been compelled to "fit" are comfortably and securely quartered in their new places of abode.

Yesterday was the first day of April, or All-Fools' Day. Those who failed to settle up arrears at this office, should not forget that it is never too late to do a good act.

We invite special attention to the advertisement of Rev. D. F. Good, proprietor of the "Anti-tan Factory and Saw Mill," to be found in another column.

REMOVED.—The trial of Mrs. Rowland and the colored man named Carroll, charged with the murder of the former's husband, has been removed to Cumberland, Md.

Rev. C. V. Wilson of this place, was assigned by the late M. E. Conference which met at Danville, Pa., to Marklesburg, Huntington county, and will leave for his field of labor sometime during next week.

The Repository says the Presbyterian church of St. Joseph, Mo., has sent a call to Rev. J. W. Wightman, pastor of the Presbyterian churches of Greencastle and this place.

PUBLIC SALE.—The undersigned will offer at public sale, in Waynesboro', on Saturday the 10th inst., at 1 o'clock, P. M., her Household property, consisting of Stoves, Furniture and the usual variety of other articles. Terms made known on day of sale. SUSAN FARNSTOCK.

Our friend Johnny Lantz, of Quincy, has taken possession of the Washington House, in Chambersburg. Mr. L. is possessed of that which should constitute an acceptable and successful landlord, affability of manners and generosity of disposition in a large degree.

CHANGED.—The Adams House, in Greencastle, yesterday passed into the hands of our young friend, Mr. H. R. Gaff, who has been clerking for several years for Mr. Adams the retiring landlord. Mr. Gaff is experienced in the Hotel business, and we predict will make a tip-top landlord.

A report was in circulation here on Tuesday morning that the Chambersburg Jail had been burnt the night previous. We learn from the papers of that place that the reflection of the fire seen from our town and vicinity was from the burning of a large bank barn belonging to Jacob Strickler, in Guilford township, which is supposed to have been the work of an incendiary.

R. R. MEETING.—A large Railroad Meeting was held at Mercersburg on Saturday last, which was addressed by the Hon. Mr. Jones, of Bucks county, the representative of the "Caladonia Land, Iron and Railroad Company," under whose charter it is proposed to build the road. Their charter allows them to hold and work mineral and other lands anywhere in the State, and to construct railroads from their land to connect with any other road. This company propose to the citizens of that section that if they will take \$150,000 of the stock of the said company they will obligate themselves to build within one year, a road from Mercersburg to whatever point may be hereafter determined upon, on the Franklin or Western Maryland railroad, that they will erect anthracite furnaces there, and at once commence developing the mineral lands along the base of our mountains. The stockholders of this railroad are to have an interest in the land &c.

Subscription books were opened and \$75,000 at once subscribed.

OUTRAGEOUS.—We learn that a crime of the most malignant type was committed in Fayetteville, on Saturday night last. Some villain or villains entered the Union church, in that place, and completely demolished the chandeliers and lamps, with a single exception of one lamp, that most probably escaped notice. They first succeeded in tearing them from their fastenings, dashed them to the floor, and from the appearance of several burners, actually trampled upon them. The bible, a very large and costly edition, but lately placed on the pulpit, was thrown down and trampled. The oil from the broken lamps was strewn over the floor. Every exertion should be made, and we have no doubt, to ferret out the guilty parties, and we sincerely hope for the good of the community that the efforts put forth by the citizens may be successful in bringing them to justice. Crime seems to have become quite prevalent in our county lately, but we scarcely believed that in the community of Fayetteville there lived a being, so lost to every manly attribute—so deeply steeped in crime, as to enter the House of God and thus deenerate it; what the motive was that prompted such a dastardly outrage, remains to be discovered when the guilty are arrested, but the general opinion is that it was done, not for revenge, but maliciously, and prompted by a spirit of devilishness.—Repository.

RELIGIOUS MEETINGS.—A series of religious meetings was commenced in the Presbyterian Church of this place on Monday evening of last week, which have had the effect of awakening a serious interest on the subject of religion in our midst. On Sunday last, Communion occasion, about twenty individuals were admitted to membership in the church. The Pastor, Rev. J. W. Wightman, has been assisted in his labors by Rev. Mr. Hays of the Central Presbyterian Church of Chambersburg. The meetings are being continued.

COURT.—The following individuals have been selected from this township and Quincy for the next term of Court, commencing at Chambersburg, on Monday, April 12th:

Grand Jurors.—Joseph Gilbert, Richard Jacobs, Wm. A. Reid, John Sanders, Traverse Jurors.—Adam Kaufman, D. M. Deatrich, John Downing, Henry Gilbert, Martin Geiser, M. Hostine, E. Seider, Wm. Stover, Jr. Second week.—Ephraim Baer, D. H. Garver, Jacob Hoekermith, L. C. Knepper, Peter Knepper, Joseph Middour, Samuel Nicodemus, Samuel Ryder, Peter Whitmore.

PRINTER DECEASED.—Mr. Isaac N. Gordon, who had been afflicted with Pulmonary disease for several years, expired at the residence of his brother, J. H. Gordon, near this place, on the 26th inst. Mr. G served an apprenticeship to the printing business in this office, and for several years thereafter was a resident of Baltimore, Md. The deceased possessed a naturally kind disposition and was a young man of exemplary habits. His age was 32 years and 8 months.

HUBER HOUSE.—Mr. F. Bowden, of this place, yesterday took possession of the well-known Huber House, in Hagerstown, which is to be kept as a Boarding house, with an Eating and Drinking Saloon connected therewith. Mr. B.'s experience and reputation as a Hotel-keeper should secure for him a liberal patronage.

The business of his Hotel and Restaurant in this place will for the present be entrusted to his son, S. S. Bowden, in connection with Messrs. Henry Funk and Aaron Beck, reliable and accommodating gentlemen.

General Grant has been sent from Connecticut a cigar six feet long, and weighing sixteen lbs.

A GOOD DAY'S SHOOTING.—We notice in the Baltimore Star, of Monday, that our old friend, S. N. Hyde, Esq., of Baltimore, in connection with two other gentlemen of that city, bagged 850 fine robins in less than three hours shooting, on Saturday last, in the neighborhood of Boothby's Hill, in Harford county, Md.—Hanover Spectator.

We agree with the Lewistown Gazette, that the owner of the land who permits such an indiscriminate slaughter of these birds deserves to have his trees denuded by caterpillars and his crops destroyed by flies, grasshoppers, &c. These 350 robins would have gladdened the homesteads of many families, created pleasure in the hearts of hundreds of children who delight in the presence of robin redbreast, and destroyed millions of worms, insects, and larvae, which will now be left to increase by incalculable numbers. Yes, it was a bad day's shooting, Mr. Spectator.

LADY LOAFERS.—Brigham Young who ought, by this time, to have learned something of women from the multiplicity of his wives, in a recent lecture on education delivered by him to the ladies of Mormondom, said: "See in the fashionable world, the education given to a young lady! It consists mainly of how to bow and curtsy, how to meet a gentleman, how to be graceful in a ball room, how to get into and out of a carriage, how to walk on the streets, how high her clothes should be lifted, or how many feet they should drag behind her; and, in addition to this, to thrum on the piano and have a smattering of French or Italian.—These are what should be called female loafers; they are no good to themselves or anybody else. They cannot knit their stockings, make their dresses or underclothing or do anything useful."

THE PHRENOLOGICAL JOURNAL for April contains the portraits and Biographies of Harvey P. Pees, LL. D., the eminent instructor of the deaf and dumb; James T. Brady, the distinguished lawyer; Henry D. Barron, the legislator; Henry Frank the Jewish publisher; besides sketches and illustrated articles on Hiram Powers and John Stuart Mill; Phrenology and Religion; Fish Culture, with nine engravings; Napoleon's Head, nothing but a baby, the Planchette Mystery; Crecedo, and illustrated Poem; Japanese Houses, a good Inheritance, Industry and Respectability, Is there an open Polar Sea? Music. Price \$3 a year or 30 cts. a number. S. R. WELLS, Publisher, 389 Broadway, N. Y.

THE LADY'S FRIEND, for April.—"The Fortune Teller" is the subject of the fine steel engraving which leads off the last number of this charming monthly. This is followed by a handsome and refined steel plate of the latest Paris fashions. Then we have a striking picture of an Avalanche among the Alps, followed by a number of engravings devoted to ladies and children's dresses, bodies, fancy work, etc. The music for this number is the popular song, "Pulling hard against the stream," and the literary contents are varied and deeply interesting. Published by Deacon & Peterson, 319 Walnut street, Philadelphia, at \$2.50 a year which also includes a large steel engraving.

A COURAGEOUS MAN.—A man named John A. Wood, whose standing weight is 135 pounds, has had the courage to have himself married to a certain Miss Rosina D. Richardson, otherwise called the New Hampshire giantess, whose standing weight is 400 pounds. If there is any Sorosis about that woman, her husband should be a man of iron not of wood. Poor John! he must be rather sappy—but he has a brave heart.

Jacob Surget, 97 years old, died at New York last week and left a property valued at \$100,000.

The President appoints, directly or indirectly, 41,000 officers, and controls patronage amounting to \$150,000,000.

A statistician says a man stands sixteen chances of being killed by lightning to one of being worth a million of money.

One thousand and forty dollars in gold pieces of the year 1795, or thereabouts, were recently disposed of in Trenton, N. J., after having been hoarded for seventy-four years. The loss of interest in that time was somewhat over \$4,000.

A Revenue agent in Cincinnati, visiting a suspected distillery, came upon one room marked "private," and securely locked.—After some little delay he managed to effect an entrance, only to discover a young man on a bed in the worst stages of smallpox.—The agent did not stop to confiscate anything.

MARKETS. PHILADELPHIA, Tuesday March 30, 1869. FLOUR.—There is evidently more firmness in the breadstuffs market, and it is the general opinion that prices of flour have about touched bottom. The demand is very good, but confined to the wants of the home trade, whose stock, it is universally conceded, have become reduced to low figures. About 1,800 barrels changed hands, mostly Iowa, Wisconsin, and Minnesota extra families, at \$6.75 @ 7.25 per bbl., including Pennsylvania do. do. at \$7.25 @ 8.50, Ohio do. do. at \$9. @ 10.50; fancy at \$10 @ 12, extras at \$8 @ 9.50, and superfine at \$5 @ 6.80. Rye flour is steady at \$7.80 @ 8. In corn meal nothing doing. The wheat market is influenced by an advance in neighboring markets, and light business, is firmer with a fair inquiry; sales of red at \$1.00 @ 1.65, amber at \$1.80 @ 1.90, and white at \$1.80 @ 1.95. Rye is dull and cannot be quoted over \$1.45 @ 1.50. Corn is dull; sales of 3,000 bushels at 85c @ 87c. for yellow, and 83c @ 85c. for mixed western. Oats are steady, with sales of western at 73c to 75c, and Penn'a at 60c @ 63c. In barley and malt there is no change. Clover seed is in fair request, with further sales at \$9.75 @ 10.50, the latter from second hands.—Prices of timothy and flaxseed are steady.
