Improved Thrashing Machine!

Daniel Geiser. B. E. Price.

J. F. Oiler. Josiah Fahrney.

Farmers will please look at the great advantage in Thrashing Grain with

GEISERS' PATENT SELF-REGULATING GRAIN SEPARATOR, CLEANER AND BAGGER.

With the latest Improved Triple Geared Horse Power, driven either by Gear or Belt

No. 1 is a eight-horse power, with cast iron thrasher frame and wrought iron and wood cylinder, sixteen inches in diameter and thirty three inches long. Trunk has ten inch rake crank and seven rakes is thirty-five inches wide, and delivers the straw on the second rick, the corn the straw out on their legs, and deliver it on the stacker, which will deliver about thirty-five feet beyond the feeder, on a track fifteen to eighteen feet high, and it is very easily turned to carry the straw with the straw, or deliver it in a separate place. The crank and fan sides being close, to confine the straw and chaff, remedies all difficulties in cleaning grain against windy weather. It bags the grain by reasonable management, sufficiently clean for market, and its capacity, under ordinary circumstances, is from twenty to forty bushels per hour, using eight horses and the same number of hands; but to force the work under favorable circumstances, it will thresh from forty to fifty bushels per hour, and with more ease and agreeableness to the horse than any other machine now in common use.

The No. 2 Machine, fully represented in the above cut, is particularly adapted to the farmer's use; in intended to apply to any common lever or railway power; weighs 1,300 pounds; has an iron thrasher frame, and cylinder, 12 1/2 inches in diameter and 43 inches long; delivers the clean grain in bags, or if desired, in a half-bushel. It delivers the straw fifteen feet from the feeder, or if desired, can deliver the straw and chaff together will thresh and clean, in good grain, ready for market, from 100 to 175 bushels of wheat, or from 100 to 500 bushels of oats per day, using four or six horses, and the same number of hands; but to force the work, an horse most favorable circumstances, 2,000 grain, &c., will thresh and clean considerably more. The Machine will thresh and clean all kinds of grain generally threshed with the common machine, and requires no more horse power, but in many cases does not run so hard. It will apply very well to a two-horse railway power.

No horse is what the farmer and thrasher want, a Separator to go from farm to farm, to thrash grain, with more satisfaction than any other separator now in use, and why is it? Because this separator has a self-regulating blast, which prevents grain from blowing into the chaff, and also has a self-regulating feeder to feed the cleaner and it has rollers in the cleaner which prevents it from chafing. Why does this machine run so light, and give so little trouble? Because there is less friction in the journals, and the rakes and fan are geared so that you have no trouble with Belts breaking and slipping, causing dust to fall into the wheat. Why does it clean so well against the wind? Because the blast has direct action on the grain and the cleaner is so well arranged that the wind has no chance to drive the dirt into the hopper. Why is it built upon wheels on two wheels and the front carriage separate, ready to attach when necessary? Because it is in no movement in the barn with the front carriage. You can turn the machine on or run from place to place more easily. Why has it not got Elevators like some other machines? Because the Elevators carry the fifth bucket alternately into the cleaner which must eventually go into the good wheat or in the chaff, and all know, that dirt should be kept separate for feed, &c. we might as well keep shoveling the Tailings from under our feet into the hopper as expect to get the grain clean. Why is this separator more cleanly and satisfactory to work about than others? Because the Fan and Trunk Sides are closed up to prevent the wheat chaff and dust from coming out and scattering over the floor, causing waist and giving much trouble with dirt and dust on the eyes, &c. Why do Thrashers use this work with these separators than they do with others? Because this separator has all these advantages and many more, which makes it a separator suitable and a paying one for all farmers and Thrashers that have grain to thresh, whilst in most cases farmers must suit themselves to the machine, because the machine will not suit itself to the farmer. In short this is the cheapest, most durable, reliable, simple and most agreeable to work about and the only separator that will clean and bag the grain sufficiently clean for market under all circumstances.

Farmers can rest assured that this machine is no humbug, and judging from the high recommendation of farmers that are using them, we must come to the conclusion that it is the very Machine that farmers want and will have as soon as they have an opportunity to appreciate and attest its merits, for which we hope they will give us an opportunity, as we are willing to be responsible if it does not perform as represented in this Circular.

A reduction of 2 per cent on all orders handed in on or before the first of April, 1868.

Shop Prices of Machines range from \$215, to \$540.

We warrant the machines to be as above represented, also against any reasonable defects of material workmanship, &c.

DANIEL GEISER Proprietor. WAYNESBORO, FRANKLIN CO., PA.

Geiser, Price & Co., Manufacturers.

Null's Pat. Post Boring Machine.

PATENTED MARCH 24, 1868.

STATE AND COUNTY RIGHTS FOR SALE,

A series of trials of this machine has convinced the inventor and all persons who have witnessed its operations that it is superior to any other in the following particulars:

LABOR SAVING QUALITIES— EASE OF OPERATION— SIMPLICITY OF CONSTRUCTION.

This machine is constructed so as to be operated either by hand, horse, water or steam power! By hand 25 to 30 posts can be bored per day; by one-horse power from 100 to 150 per day; by two-horse power 200 per day; and by water or steam power from 200 to 300 per day. It is also a self-feeder.

The subscriber is now prepared to dispose of State and County Rights for the above valuable invention. Address

JONATHAN NULL, Quincey, Franklin County, Pa. June 19-1f

CORNUCOPIA.

PURIFY YOUR BLOOD!

LONDON BLOOD PANACEA.

The Great Alternative and Blood Purifier.

It is the most perfect vegetable compound of alterative tonic, diuretic and emollient. It purifies the blood, cures all kinds of skin diseases, restores the system to its natural vigor, and is the most effective, invigorating, renovating and blood cleansing medicine known to the world.

For the cure of Profusor Kiver's Evil, Cutaneous Diseases, Erysipelas, Boils, Pimples and PLEURISY on the Face, Scars, EYES, Scald Head, Tetter Affections, Old and Stubborn GLEETS, Syphilis, Discharges, Yellow Jaundice, Salt Rheum, White Swelling, MERCURIAL Poison, GOUT, GRAVEL, RHEUMATISM, PALLIDITY and FLEETINGNESS OF THE HEART, CONSUMPTION, LEPROSY, STROKES, SPASMS, AGGRAVATIONS, INFLAMMATION OF THE BLADDER AND KIDNEYS, PAINS in the Back, Dropsy, Female Catarrhs, &c. To the broken down female it gives life and energy by restoring the lost nervous matter, when health again succeeds the feeble form and pallid cheek of the sufferer.

Nothing can be more surprising than its invigorating effects on the human system. Persons all weakness and listless, by using the PANACEA at once become robust and full of energy under its influence. Ladies who have pale complexions and are dark about the eyes, blotches and pimples on the face, rough skin or freckles, and are "out of spirits," should use a bottle or two of LONDON BLOOD PANACEA. It will cleanse your blood, remove freckles and blotches, and give you animation, sparkling eyes, fine spirits and a beautiful complexion. Try it.

Price 10 Cents Per Bottle.

The genuine has LONDON BLOOD PANACEA, S. A. FOUTZ, BALTIMORE, Md., blown in the bottle, and any signature thereon.
