

VILLAGE RECORD.

WAYNESBORO. Friday, May 21, 1890.

The Indiana Legislature has finally adopted the Fifteenth Amendment to the Constitution of the United States. Connecticut has joined the list of States which have ratified the Fifteenth Constitutional Amendment. Four years ago sanguine friends of the Pacific railroad predicted that the work might be completed in 1876. Mrs. Ann S. Stephens is now engaged in writing a life of Andrew Johnson. General Canby has fixed the first Tuesday in July as the day for holding the election in Virginia. An Indiana clergyman makes his pastoral calls on a velocipede. He was a colonel of cavalry during the war. Since the 1st day of January last 81,000 immigrants have landed at New York from abroad. The number of arrivals since May 1st is 27,957. President Grant on Saturday shook hands with nearly two hundred Lutheran clergymen, representing the General Synod of that Church, in session at Washington. Travel on the Pacific Railroad has commenced in earnest. The first through train from Sacramento arrived at Omaha on Sunday with four hundred passengers. There are thirty seven Departments and two thousand and fifty Posts of the Grand Army of the Republic in the United States. The Chicago Journal says: All reports we have thus far received, whether through our exchanges, by letter, or otherwise, from the various parts of the North-western States, are to the effect that the new wheat crop is in excellent condition. A much greater quantity of land has been put into wheat this year than ever before, and if the present promise will be fulfilled at the harvest, the wheat crop of 1890 will be unprecedented. The President declared some time since that he would remove one of his own appointees as quickly as any other if he found he was unworthy of trust. It is understood at Washington that this rule is being put in force, and removals are being made where parties are shown notoriously unfit for their positions. In the State Department it is mentioned that several places have been rendered vacant in this manner. In the other departments the same laudable policy will be enforced wherever it will be of benefit to the public service. The Grand Army of the Republic has passed resolutions disavowing any political object pertaining to the organization, and resolved to hold its next meeting in May, 1870, in Washington city. General John A. Logan was elected Commander-in-Chief; Governor Fairchild, of Wisconsin, was chosen Senior Vice Commander; Dr. S. P. Wylie Mitchell was elected Surgeon General for the United States; Rev. A. H. Quiet was chosen Chaplain in Chief. One by one the States of the Union join hands in making the Fifteenth amendment part of the fundamental law of the land. Soon the word "white" will be a dead letter in every State Constitution in America, and all men irrespective of race or color, stand forth freemen in the fullest sense of the word. America is soon to become what our forefathers intended she should be, a government of the people. MINERS' STRIKE.—A Scranton despatch of the 15th inst., says about fifteen thousand miners south of and around Wilkesbarre and in the vicinity of Pittston, suspended work that morning. The employees of the large companies around Scranton and Carbondale had not determined whether they would quit work, and the continuance of the strike largely depended upon their action. A great fire occurred at Dayton, Ohio, on Sunday morning, which, commencing in Turner's Opera House, utterly destroyed that and six residences near by. Mr. Harman Sandmyer, the proprietor of a store in one of the buildings, whilst endeavoring to save some of his stock, was buried beneath a falling wall and died in sight of his friends and relatives, who were powerless to rescue him. The total loss occasioned by this disastrous conflagration is estimated at from six to eight hundred thousand dollars. Joseph Atkins, a Republican member of the Georgia Legislature, was murdered on Monday in Warren county of that State, when within three miles of his home. Our Maryland exchanges all speak in glowing terms of the crop prospect in all sections of the State. It is reported that the Baltimore city Council has appropriated one million dollars for the completion of the W. M. Railroad to Williamsport. Don't take too much interest in the affairs of your neighbors—six per cent. will do. Bid egg—a loafer in a printing office.

LOCAL MATTERS.

RHUBARB.—A fresh supply of choice Rhubarb just received by Reid & Waynant. Capt. Geo. Miller is the new Post Master at Greencastle. The Fourth of July this year falls on Sunday. KEROSENE.—A good article for sale by Wm. Stewart, Ringgold, Md. HATS.—A fine lot of late style Hats just received at the "variety store" of E. & J. Elden. RED MEN.—We understand a Lodge of Red Men was organized in this place a few evenings since. GLASSWARE.—Our neighbors Reid & Waynant have just opened a large and beautiful stock of Glassware. MILLING.—Attention is directed to the advertisement of Messrs. Hoover & Summers in to day's paper. BUTCHERING.—We call special attention to the advertisement of Messrs Hoover & Hartman in another column. Peter Fahrney's Blood Searcher or Panacea and Jacob Fahrney's Blood Purifier at the Corner Drug Store. HORSE STOLEN.—Mrs. Shartle, residing near Welsh Run, had two fine horses stolen from her barn on the night of the 9th inst. DEATH.—Robert Lindsey, an old and respected citizen, of Montgomery township, died suddenly on Tuesday, 11th inst., in the 70th year of his age. NEXT FAIR.—The Franklin County Agricultural Company have fixed upon the 5th, 6th, 7th and 8th days of October for holding their next County Fair. A CALL.—The first Lutheran Church of Chambersburg have given the Rev. Wm. V. Gotwalt, late of Dayton, Ohio, a unanimous call to become their pastor. SOMETHING NEW.—Those in want of a first-rate white wash brush will find it to their advantage to call and examine those sold by Hiteshaw & Gehr, Ringgold, Md. The Repository says: "It is reported that one of the robbers of Mr. Valentine, of Greencastle, near McConnellsburg, a few weeks since, has confessed his guilt and says the money was used at the trial of Samuel Seiler, at our last session of court." Now is the time to clean dirty alleys, streets, door yards, and your premises generally. Look also to your cellars, and give them a thorough renovation. This is the only way to secure neatness in everything, and provide against sickness. Clean up is our best advice at this time. NEW APPOINTMENTS.—We understand says the Spirit, that Mr. Scull, Assessor of the 16th Congressional District, has made his appointments for this County. Messrs J. L. P. Dietrich, Robert Moore, Wm. H. Blair and A. H. Gordon have all been removed, and Messrs. Jeremiah Cook, Thomas J. Grimason Daniel Keefe and Henry X. Stoner been appointed to fill their places. Mr. Stoner takes the place of Mr. Gordon here as Assistant Assessor. PAVEMENTS.—We observe that some of the pavements on Main Street are just now sadly in want of repairs. This neglect on the part of property holders must be attributed to some cause. Is it for economy's sake or a scarcity of bricks? It is anything but agreeable to blunder out of one hole into another of a dark evening, especially when said holes are filled with water. These much-needed repairs could be made with little cost in most instances. A few days since Mr. Cyrus Stoner was engaged at his mill sawing a large log belonging to Benj. Newcomer, near Ringgold, Md., into shingles, when he discovered in a bolt from the butt cut some five or six rifle balls, embedded about six inches from the heart or center. He counted the annual rings or growths, sixty five in solid wood.—The sap growths numbered about six, which would make seventy-one total, allowing ten growths for depth of penetration. It thus appears the balls were shot into the tree upwards of sixty years ago. RECEIPTS.—For subscription during the past week: C. K. Myers, \$2.00; Joseph Gilbert, 2.00; Abram Miller, 4.00; Cyrus B. Newcomer, 6.00; Daniel Newcomer, Sen., 2.00; Dr. M. S. Newcomer, 2.00; David Rohrer, 2.00; Isaac Winger, 4.00; Jacob W. Myers, 2.00; Wm. B. Hunter, 2.00. A QUERY.—We are frequently interrogated about the Scotland Rail Road by persons dropping into our office. We have no knowledge as to the prospects of a Railroad in that direction just now, and consequently cannot give the desired information. If anybody can do it for us we would be glad to hear from him and make it known to our readers. The last we heard of the proposed enterprise it was in the hands of our friends, Messrs Weisting, Geiser and Cook, Committee to confer with the Penna. Central Railr. d Company.

NUNNERY MEETING.—The annual meeting of the Snow Hill Society was held at the Nunnery, near this place, on Saturday last. The day was a delightful one, and the attendance as usual was large. About noon our town was thronged with strangers who were cared for by the proprietors of our public houses by whom ample preparations for the accommodation of all had been made. Between this place and the Nunnery, in the morning, a horse took fright and ran away with a buggy, ousting its occupants, a lady and a gentleman, but neither fortunately received any serious injury. The flying horse and vehicle passed out of town through East Main Street. We did not learn the names of the parties. Later in the day as Mr. J. F. Kurtz was returning in company with others from the meeting with two horses and a vehicle belonging to Franklin Weagly, the horses became frightened and ran down a hill; the tongue of his vehicle struck the hub of a buggy in front with such force as to splinter it in pieces. The horses were thus checked. The buggy with which the carriage came in contact was but slightly damaged and the lady and gentleman in it uninjured. Mr. Kurtz in jumping from the carriage sprained one of his knee joints very seriously, and has since been confined to his room. THE BIRDS.—These lovely warblers, of the Spring and Summer, can now perch upon the lower branches, approach the doors of our houses and even dare to peep in at our windows without fear of harm or molestation, as the Legislature has passed a stringent law which fully protects their brief life among the leaves and flowers. The cruelty of some men has heretofore made the birds timid and induced them to keep away, at a safe distance, from human habitations, but now they can build their nests under the leaves and venture to catch a fly or two at the door sill, and if any one harms them, assert their right to an action of assault and battery. We live in a progressive age. Civilization, in its most refined and christian sense, is rapidly taking the place of the old barbarisms practiced, and there is a growing disposition to protect the weak against the strong. Be it so.—This world is full of beauty and nothing created contributes so much towards it as the innocent and sinless songsters of the woods and fields, who sing their morning anthems to the great Creator and charm our evening twilight with their sweet warblings.—Ez. CEMETERY MEETING.—A second meeting of the citizens favorable to a public Cemetery was held in the Town Hall on Tuesday evening last. But few persons were in attendance and no business of importance transacted. We think it strange that our citizens generally do not take more interest in this movement. There may be some excuse for persons in the country desirous of securing a public Cemetery absenting themselves on such occasions, but none for those in town. The Committee appointed at a former meeting to solicit stock will meet at the Town Hall to-morrow (Saturday) at three o'clock, P. M. A full attendance is requested. The following receipt we copy from editor's department of the last Lady's Friend: RHUBARB.—We have told our readers before how to cook rhubarb, but it is worth repeating, as any other way than baking spoils it. If you want to imitate green apple-sauce, cut up the rhubarb stalks into a nice white or yellow earthen pie-dish, sprinkle sugar over, cover with a plate, and set in the oven till soft—fifteen or twenty minutes. For pies, cover the dish with paste, cut up the rhubarb in the same way as you would apples, sweeten, and put on the top crust. To stew the rhubarb previously is a mistake. THE FASTEST HORSE IN THE WORLD.—A mile in 2:17.—Every effort is being made to have Bonner's great Horse, Dexter, at the Ingertown Horse Show, which takes place the 26th, 27th, and 28th of this month; of course every body that can get there will go to see him. An easy way to pay the expense of the trip is to stop in at Updegraff's Hat and Glove Factory, opposite the Washington House, and supply yourself and children with hats at half price, your Wires and your Daughters with Sun Downs, Parasols, and Sun Umbrellas, Mitts and Kid Gloves, and especially a pair of their own make of Ladies' Dog Skin Gloves, almost as neat as kid gloves and wear five times as long. PLANTS.—The best varieties of Sweet-potato and Garden plants can be had of M. C. Dietrich, on the Leitersburg pike, near the Antietam Junction. PROMONTORY POINT, Utah, May 14.—The following message, just received, is furnished for publication: Washington, May 11.—Gen. G. M. Dodge.—Your dispatch of the 10th inst. is received. In common with millions, I sat yesterday and heard the mystic taps of the telegraphic battery announcing the driving of the last spike in the great Pacific road. Indeed, I am its friend! Yes, I claim yet to be a part of it; for, as early as 1854, I was vice president of the effort begun in San Francisco, under contract with Robinson, Seymour & Co. As soon as General Thomas makes certain preliminary inspections in his command on the Pacific, I will go out, and I need not say with how different feelings from those of 1846, when the only way to California was by sailing around Cape Horn, taking the ship 190 days. All honor to you, Durant, Jack and Dan Gasement, Reed, and the thousands of brave fellows who fought out this glorious national problem in spite of deserts, storms, Indians, d. ubts of the incredulous, and all obstacles which you have now happily surmounted. W. T. SHERMAN, General.

Aim at perfection in everything, though in most things it is unattainable, however, they who aim at it, and persevere, will come much nearer to it than those whose laziness and despondency make them give it up as unattainable. The above is particularly applicable to the subject of health—all should do everything in their power to attain perfection, as near as possible, in that. This can be secured by a regular and continued use of the Zingari Bitters. We have been using Seward & Bentley's Alisma a few weeks, and have come to the conclusion that there is one preparation for the hair that is good. It is an elegant dressing, and makes the hair dark and glossy, giving it a lively appearance. It is not as expensive as an ordinary hair oil, and far better to use. Seward's Cough Cure, has cured Asthma. SPECIAL NOTICES. SPRING AND SUMMER STYLES OF HATS FOR 1890.
