GEO. BENDER.
 May 4-1y] Waynesboro

Improved Threshing Machine!

Daniel Geiser.
 B. E. Price.

J. F. Otter.
 Josiah Fahrney.

Farmers will please look at the great advantage in Threshing Grain with

GEISERS' PATENT

SELF-REGULATING GRAIN SEPARATOR,

CLEANER AND BAGGER.

With the latest Improved Triple Geared Horse Power, driven either by Gear or Belt

No. 1 is a eight-horse power, with cast iron thresher frame and wrought iron and wood cylinder, sixteen inches in diameter and thirty three inches long. Trunk has ten rack crank and seven rakes is thirty-five inches wide, and delivers the straw on the second rake, those carry the straw out on their tops, and deliver it in the stack, which will deliver about thirty-five bushels per hour, or deliver it fifteen to eighteen feet high, and can be easily raised to carry the chaff with the straw, or deliver it in a separate place. The crank and fan does both, and is particularly adapted to the farmer's use; it will clean grain against any weather. It bags the grain by reasonable management, sufficiently clean for market, and its capacity, under ordinary circumstances, is from twenty to forty bushels per hour, using eight horses and the same number of hands; but to force the work under favorable circumstances, it will thresh from forty to fifty bushels per hour, and with more ease and agreeableness than any other machine now in common use.

The No. 2 Machine, fully represented in the above cut, is particularly adapted to the farmer's use; it is intended to apply to any common horse or railway power, weighs 1,300 pounds; has an iron thresher frame, and cylinder, 13 1/2 inches in diameter and 48 inches long; delivers the clean grain in bags, or if desired, in a half bushel. It delivers the straw fifteen feet from the feeder, or if desired, can deliver the straw and chaff together, will thresh and clean, in good grain, ready for market, from 100 to 175 bushels of wheat, or from 200 to 300 bushels of oats per day, using four or six horses, and the same number of hands; but to force the work, on the most favorable circumstances, good grain, &c., will thresh and clean considerably more. The Machine will thresh and clean all kinds of grain generally threshed with the common machine, and requires no more horse power, but in many cases does not run so hard. It will apply very well to a two-horse railway power.

Now heres what the Farmer and thrasher in wants, a Separator to go from farm to farm, to thrash grain, with more satisfaction than any other separator now in use, and why is it? Because this separator has a self-regulating flint, which prevents grain from blowing into the chaff, and also has a self-regulating feeder to feed the cleaner and it has rollers and cones in the cleaner which prevents it from blowing in the Journals, and the rakes in the fan are so arranged so that you have no trouble with Belts breaking and slipping, causing dust to fall into the wheat. Why does it clean against the wind? Because the flint has the action on the grain and the cleaner is so well arranged that the wind has no chance to drive the dirt into the hopper. Why is it built primarily on two wheels and the front carriage separate, ready to attach when necessary? Because it is more convenient in the barn without the iron carriage. You can turn the machine or run it from place to place more easily. Why has it not got Elevators which must eventually go into the hopper when it is in the chaff, and all know, that flint should be kept separate for feed, &c., we might as well keep shoveling the fallings from under our hand into the hopper and expect to get the grain clean. Why is this separator more cleanly and satisfactory to work about than others? Because the Fan and Trunk sides are so closed up to prevent the wheat chaff and dust from coming up and settling over the flour, causing a waste and a giving much trouble with dirt and sores on the eyes, &c. Why do Farmers get more work with these separators than they do with others? Because they are so arranged that they have all these advantages and many more, which makes it a separator suitable and a paying one for all farmers and thrashmen that have grain to thresh, we list in most cases farmers must suit themselves to the machine, because the machine will not suit itself to the farmer. In short this is the cheapest, most durable, reliable, simple and most agreeable to work about, and the only separator that will clean and bag the grain sufficiently clean for market under all circumstances.

Farmers can rest assured that this machine is no humbug, and judging from the high recommendation of farmers that are using them, we must come to the conclusion that it is the very machine that farmers want and will have as soon as they have an opportunity to appreciate and attest its merits, for which we hope they will give us an opportunity, as we are willing to be responsible if it does not perform as represented in this Circular.

A reduction of 2 per cent. on all orders handed in on or before the first of April, 1868.

Shop Prices of Machines range from \$215. to \$540.

We warrant the machines to be as above represented; also against any reasonable defects of material workmanship, &c.

DANIEL GEISER, Proprietor.
 Geiser, Price & Co., Manufacturers.
 WAYNESBORO', FRANKLIN CO., PA.

FOUTZ'S

CHELATERED

Horse and Cattle Powders.

This preparation, long and admirably known, will thoroughly redigest broken down and low spirited horses, by strengthening and cleaning the stomach and bowels.

It is a sure preventive of all diseases incident to this animal, such as LUNG FEVER, BRANDED, YELLOW FEVER, WATER, HEAVES, COUGHS, DISTEMPERS, FEVERS, FOUNDRY, LOSS OF APPETITE AND LACK OF ENERGY, &c. Its use improves the wind, increases the appetite, gives smooth and glossy hair—and transforms the miserable skeleton into a fine-looking and spirited horse.

To keepers of Cows this preparation is invaluable. It is a sure preventive against Rinderpest, Hollow Horn, &c. It has been proven by actual experiment to increase the quantity of milk and cream twenty per cent, and make the butter finer and sweeter. In fattening cattle, it gives them an appetite, loosens their hides, and makes them fatten much faster.

To all diseases of Swine, such as Coughs, Diarrhea in the Lungs, Liver, &c. it is a sure preventive. By putting from one half a paper to a paper in a barrel of corn, the above diseases will be prevented or entirely prevented. If given in time, it is a certain preventive and cure for the Hog Cholera.

DAVID E. FOUTZ, Proprietor,
 BALTIMORE, Md.
 For sale by Druggists and Grocers throughout the United States, Canada and South America.

PURIFY YOUR BLOOD!

LONDON BLOOD PANACEA.

The Great Alternative and Blood Purifier.

It is the most perfect vegetable compound of alterative, tonic, diuretic and diaphoretic, making it the most effective, invigorating, renovating and blood cleansing compound known to the world.

For the cure of SCORFUM OF KING'S EVIL, CERTAIN DISPENSER, ERYTHELMA, BOILS, PIMPLES and all eruptions on the Face, SORE THROAT, SCALD HEAD, PETER AFTERS, RHEUMATISM, GOUT, YELLOW JAUNDICE, SALT RHEUM, WHITE SWELLINGS, MERCURIAL DISORDERS, GENERAL DEBILITY, PALENESS and FEVERISHNESS at the HEART, CONGESTION OF ASTHMA, SPITTING and SPURRING AFFECTIONS, INFLAMMATION of the BLADDER and KIDNEYS, PAINS in the BACK, PROST, FEMALE COMPLAINTS, &c. To be taken down from it gives life and energy by restoring the lost powers of nature, when health again succeeds, the feeble form and pallid check of the sufferer.

Not one can be more surprising than its invigorating effects on the human system. Persons all weak and feeble, by using the PANACEA, at once become robust and full of energy under its influence.

Indies who have pale complexions and are sick about the face, and who are afflicted with the face, rough skin, or freckles, and are out of spirits, should use two or three of LONDON BLOOD PANACEA. It will cleanse your blood, remove the freckles and blotches, and give you animation, sparkling eyes, fine spirits and a beautiful complexion. Try it.

Price 25 Cents per Bottle.

The genuine have LONDON BLOOD PANACEA, S. A. FOUTZ, BALTIMORE, Md. blown in the bottle, and its signature on the wrapper.

DR. P. FAHRNEY'S

PAN-A-CE-A

BLOOD SEARCHER OR

"Dr. P. Fahrney's celebrated Blood Searcher or Panacea" is a medicine that we can recommend to those who are afflicted, having used it in our own family and furnished our friends with the article; we can, therefore, say that it is a medicine possessing rare medicinal properties. Being a mild purgative, it is well kept it always in the family where there are children or those subject to colic or other sickness. It is compounded from medicinal herbs, Zedaira, Burdock, &c., which are said to be entirely free from poison. We are personally acquainted with the proprietor who was our family Physician for several years, and we were at one time raised from a bed of affliction under his judicious treatment.—Christian Family Companion.

"FAHRNEY'S BLOOD SEARCHER"—From our personal acquaintance with Dr. P. Fahrney, and from the reputation of the above named medicine, in the community where he lives, we can cheerfully recommend it to all who are afflicted with any ailment for the physical maladies of mortality, until the great PANACEA for all diseases shall be found in the leaves of the tree of life.—Pharmaceutical Reviewer.

Sol. by J. A. Morrison, Waynesboro', H. H. H. & Co., Ringgold; W. B. Raby, Quincey; E. J. Small, Von Alto; J. J. Bell, Smithsburg, Md., and Druggists generally.
