Florida's Legislature has agreed to res olutions ratifying the Fifteenth Amendment to the Constitution. Florida is the twentyfifth State that has signified its approval of this amendment, and the votes of but three more are necessary. There is little doubt that before the first of January next the ratification of the Amendment will be an accomplished fact.

ma\_The printers at Washington have got into a very foolish snarl about a colored compositor in the government office. The same half witted fools who will go home and eat food prepared by a colored cook, or who have colored nurses for their children, and in a hundred other ways recognize them as fellow beings, have their dignity hurt by being in a room with a decent colored man, merely because the latter is able to do what they do The result may yet be a blow at the associa tion which may exclude them for years to come from desirable employment, and at the same time do them more harm than good .--While it might have been better had Douglass not sought the situation at this time, yet it is ovident the Superintendent, whateventhe might have done under other circumstances, will not now yield to threats, because such a principle once established would simply convert the employees into masters and the Superintendent into a poppet. E Reports received at the Internal Revenue Office from officers in Virginia, East Tennessee and N. Carolina state that sixty illicit stills have been seized in the mountains of those sections. As the work of the officers in these localities is very dangerous, Commissioner Delano will ask the aid of an armed force to enforce the law. The business of illicit distilling is carried on very extensively, the stills being portable and frequently moved to different points in the mountains.

PARALYZED .- We regret to learn from a private letter that our old friend, Mr. Wm. Woods, of Frederick, Md., formerly of this vicinity, recently had a severe attack of paralysis, by which he has lost the use of his right side. Mr. W. has many triends in our town and neighborhood who will receive this announcement with regret.

Information was made before a justice, but the lad hearing of it left before he could be arrested.—*Rep*.

RETURNED.-Sergeant A. Shockey, son of Isaac Shockey, Esq., of this vicinity, returned to his home last week looking well and hearty. Sergeant Shockey served three yeears in the army during the late war in Maj. L. B. Kurtz's Company, and since served three years in the U.S. service on the Texas frontier. In the future may a bright and cheerful life be in store for this gallant young soldier.

MAJOR GORDON .-- We have received a copy of the Daily Argus, dated June 15th, was in the celebrated 54th Massachusetts | published at Cheyenne, Wyoming Territory, in which the following reference is made to our friend Brevet Maj. As natural consequence, we expect to hear of an increased influx of people to the Sweetwater country.

EVEN So .- The meanest, most contemptible, most degraded specimen of humanity known to civilized society, is a man who will take a paper for three or four years without paying for it, and then refuse to take it out of the post office. Such have souls so small that 499,000 of them do not make fire enough in "the regions of wee" to warm the toes of a musquito.

The late rains have raised the waters and have given quite an impetus to the growth of vegetables; but while the waters are rising the prices of goods are declining at Elden's store, where you can buy boots, shoes, hats, notions, watches, clocks, jewelry and fancy articles at reduced prices. They have just received more new goods. If you don't believe they sell cheap go and see for yourselves.

THE WEATHER .- During several days of this week our town and neighborhood has been favored with copious showers of rain, which has contributed immensely to the growth of corn, potatoes and vegetables generally. The potato crop now promises to prove one of unusual abundance. In consequence of the rain the grain has been somewhat lodged, but beyond this no damage is reported.
