

WYANESBORO, Friday, July 23, 1899.

Walker's majority for Governor of Virginia is officially shown to be 17,500.

The new fractional currency will soon make its appearance.

Asa Packer, the Democratic nominee for Governor, is said to be worth twenty million dollars.

Work has been commenced on the Frederick (Md.) and Pennsylvania Line Railroad.

At its last Commencement Princeton College conferred the degree of L. L. D., on Hon. Daniel Weisel, of Hagerstown, Md.

The State of Virginia has ratified her Free Constitution by the largest majority ever given for any State Constitution, past or present. About 200,000. The disfranchising and proscriptive provisions are voted down by at least 30,000 majority.

The Orangemen and Catholics have come to mob violence once more in Ireland. On the 12th there was an attack upon an Orangemen's procession in Lurgan, and in return they demolished some twenty houses occupied by Catholics.

Second Comptroller Brodhead has decided that deserters are not entitled to bounties, which are to be paid only to an honorable discharge, and a deserter's discharge cannot be considered honorable so long as the rolls show up his true record. This decision probably saves to the Treasury \$20,000,000.

A horrible slaughter of railway passengers occurred on Wednesday night at Mast-Hope (Pike county, Pennsylvania), on the Erie Railroad. An express train at that point ran into a freight train standing on the track, and the engine, tender and baggage car, the express car, the smoking car and one passenger coach, were thrown off the track and smashed to pieces. The splintered cars were fired from the locomotive, and several of the wounded passengers burned up. Seven cars were destroyed, and nine passengers are known to have been burned to death. These murders are to be attributed solely to the negligence or carelessness of those having charge of the trains.

Gov. Walker, of Virginia, was in Washington a few days ago, and had a lengthy interview with the President, during which he is understood to have expressed an earnest determination to support the policy of the Administration, as it is construed by the party which elected him. He also expressed the opinion that the Fifteenth Amendment would be ratified by the Legislature as soon as it assembles, and urged the President to cause the necessary orders for the installation of the officers elect to be issued without delay. Governor Walker stated to the President that he would be Governor of Virginia, and that he would not permit himself to be influenced by the old politicians of the State. He spoke freely of the opposition he had to encounter in the recent canvass, and also of those who supported him, and said that he wanted to set at rest all reports that he was to be influenced by the ex-Rebel element.

CONFORTING TO FARMERS.—Will the grain quotation go so low as to rob the farmer of a just reward for his toil? To this question the New York Tribune answers. If the foreign crops were as full as ours, this danger would be imminent. But all over Northern Europe they have had a remarkable late and cool Summer. In England fires were lighted every day in June. The weather was rough and wet, and retained an ungenial character till the 25th, when Summer broke out, and overcoats at last went into closets. Such weather can but give England a harvest late and light, and correspondents of The Marl Lane Gazette are advising all who have reserved their wheat to hold their own, and have the pleasure of putting into their pockets ten or twelve shillings per quarter more than they had expected. Some accounts from Southern Russia, Hungary, and France looks the other way, but the harvest in these countries will probably not be enough to effect markets much. The conclusion is now safe that the European grain will be quite below an average, as much so as the American is above the average.

The San Francisco News Letter is certain that within a year the Californians will travel habitually to New York, Europe and China by aerial carriages. The News Letter is sure that the recent experiment was an unqualified success. If those air arrangements prove to be successful, and they sail low, a man will not be safe anywhere. It is claimed that they will move along at the rate of over 25 miles an hour, rapid enough in charge of a tipsy conductor to knock a hole through a good sized wall, or dip off the head (if fairly struck) of some innocent person.

An insane man in White Pigeon, Michigan, recently burned \$1,100 in greenbacks and buried the ashes. He had just received the money for four years' service on a farm, which he had suddenly taken a notion to leave. He explained that he had used the money in this singular and unprofitable way "to help him through purgatory." He had given no indication of insanity before.

To families who want prime Cheese—Go to C. N. Beavers', on the Diamond.

SMALL FARM.—We direct special attention to a desirable small farm offered at private sale in to-day's paper by D. B. Resh.

David H. Baker offers for sale in this issue a small but desirable home. See advertisement.

The Valley Echo says Mr. D. Z. Shook, of Greencastle, has been appointed telegraph operator at Monterey Springs.

NOTICE.—C. N. Beaver invites the public to call at N. E. corner of the Diamond if they want to buy cheap.

The Hagerstown Female Seminary, in charge of Rev. Wm. E. Byster, will open its Fall session on the first Monday of September. The institution is in a flourishing condition. See card in another column.

BOROUGH ORDINANCE.—We direct attention to the ordinance published to-day. Cutting, marking or otherwise defacing the Town Hall building it will be seen subjects the party to a fine and imprisonment in the Lock-up.

SOLD OUT.—Franklin Weagly has sold his Livery in this place to Wm. H. Funk and A. D. Gordon for the sum of \$3200, who purpose continuing the business.

RAINS.—The weather continues seasonable. The recent fine rains have produced a marked change in the corn fields in this neighborhood since our last issue.

FINE YIELD.—Mr. Geo. Fourthman, of this place, last spring planted one pound of Early-Rose potatoes, which has yielded him 90 pounds. All who planted the Early Rose did it very highly both as a yielder and for its superior quality.

THRASHING BY STEAM.—The experiment of thrashing and separating wheat by steam was tried the other day by I. S. Forney.—Frick's Engine was attached to the Geiser Separator. Those who witnessed the operation say it was a perfect success.

PRICES REDUCED.—Messrs. Hoover & Summers announce in to-day's paper that they will deliver to town customers good family flour at \$6 per barrel and shipstuffs at 25 cents per bushel.

A copper-head in stopping his paper—not the Record—recently wrote: "I think folks don't ort to spend their munny on papers. My father never did every body else was the smartest man in the kountree, and had the intelligentest family of buoys that ever dag taters."

A regular Washington correspondent of the Boston Post was during the war the chief of the rebel Associated Press. BORD, of the Hagerstown Free Press, as an assistant, would be well placed.

FINE PIG.—Henry J. Moate of Ringgold has a white Chester pig sixteen weeks old which weighs 110 pounds. In thirty-one days it gained 53 pounds. This is certainly an extra young porker.

SHOP REMOVED.—It will be seen by reference to his advertisement that Thos. Hollingsworth now occupies, as a shoemaker shop, the room on East Main Street, formerly used by J. Elden as a flour and feed store.

Four highwaymen, on Tuesday, robbed Mr. George C. Scott of a gold watch and money, near McConnellsburg, and then threw his buggy down the mountain side.

Two young scoundrels hailing from somewhere in Maryland, were recently overhauled by the Sheriff of Bedford county, whilst in the act of making off with 30 head of cattle and a horse, the property of certain farmers living near Bedford.

The Echo says that Mr. Jacob Spielman, of Austrim township, aged 97 years followed up closely and bound after a cradle for eight consecutive days during harvest.

The Repository says it is reported that the little daughter of James Streatly, that was supposed to have been lost near Mercersburg some time since, has been found. A telegram from Bridgeport, Cumberland county, Pa., was received by the father of the child, on Monday evening last, stating that she was in company with a band of gypsies, who no doubt stole her.

A Jury in Washington county, Md, has awarded \$2,217 to Jonas Bell, Esq., as the amount of damages done him from the Cumberland Valley railroad, by passing thro' his land, in its extension to Williamsport.

CONUNDRUM.—Why is Boyd, the "gray-back" of the Hagerstown Free Press, like some of the Gettysburg Bed Bugs? Because he is always sucking and never full.

Deaths are reported in all parts of the country of children poisoned by eating the seeds of lucifer matches. Parents should be careful.

THE LADY'S FRIEND.—The August number of this "Queen of the Monthlies" is adorned with a beautiful steel engraving of these two youthful lozels, "Paul and Virginia"—a double-page and handsomely colored Fashion-Plate, containing the latest Paris styles—a picture of Maidenhood, in illustration of Longfellow's sweet poem—and the usual number of miscellaneous engravings, illustrating sea-side costumes, children's fashions, hats, head-dresses, dinner and walking toilets, &c., &c. Published by Deacon & Peterson, 319 Walnut Street, Philadelphia, at \$2 50 a year (which also includes a large steel engraving).

Lost.—On Sunday afternoon, July 18, somewhere between Greencastle and the residence of Geo. J. Baltzell, near Waynesboro', Mr. H. R. Gaff, proprietor of the Adams House, Greencastle, lost a valuable gold ring. The ring was a plain band, on the top of which was a square block with the Masonic emblem of the 'compass and square,' with the letter G inclosed between them, engraved thereon. A liberal reward will be paid the finder by leaving it at this office or the Adams House, Greencastle.

A NUMEROUS OFFSPRING.—Mrs. Catherine Row, who died in this place on the 13th inst., aged 85 years, 7 months and 19 days, was mother of 11 children, 49 grand-children and 27 great-grand-children, making a total of 87. She was married 65 years and lived with her husband, Michael Row, dec'd, 63 years. Not many of the aged mothers of our town or neighborhood can equal in number the descendants of Mrs. Row.

THE SMITHSBURG FAIR.—The Ladies Fair, for the benefit of the Smithsburg Silver Cornet Band, opened on Tuesday evening, with a fine collection of articles and music by the Cavetown Band.—The musical programme for the first week is as follows:— Wednesday evening—Boliver Band, Frederick Co. Thursday evening—Greencastle Band. Friday evening—Juvenile Concert. Saturday afternoon—Juvenile Concert. Saturday evening—Heayer's Silver Cornet Band, Hagerstown. Monday evening—Lewistown Band, Frederick Co.

The Greencastle Band dined at the "Bowden House," in this place, on yesterday, and during their stay entertained our citizens with several pieces of choice music. The Record office was especially honored by the clever gentlemen composing the Band. About 1 P. M., they left for Smithsburg.

TO COOL A ROOM.—The simplest and cheapest way to cool a room is to wet a cloth of any size, the larger the better, and suspend it in the place you want cooled. Let the room be well ventilated, and the temperature will sink from ten to twenty degrees in less than an hour. This is the plan adopted by many Eastern nations.

NEWSPAPER BORROWER.—The newspaper borrower is, as a general thing, the meanest person in the community (always excepting those who subscribe for a paper and don't pay for it), and is entitled to none of the courtesies which honorable men love to extend to each other. The newspaper borrower would borrow a tooth brush if he wasn't too mean to lose that portion of his dinner which remains between his teeth.

The conservatives, at the recent election in Virginia, in opposition to the Republicans, ran and succeeded in electing several negroes to the Legislature of that State.—What will certain old conservatives—that don't take the Record—who prate so much about negro-lovers, woolly-heads, etc., now think of their brethren of the "Old Dominion."

FARM FOR SALE.—A well-improved and pleasantly situated farm, a few miles south west of Waynesboro', is offered at private sale. Enquire of the Printer. *f

An unprecedented flood has just occurred in Colorado Valley, Texas. The water in some places was 25 feet deep, and the towns of Lagrange and Columbus were evacuated. Twenty-five houses were seen floating down stream. In the bottoms the water was at the tops of the trees, and most of the fine crops have been destroyed. It was rumored that the towns of Bastrop and Webberville had been washed away and many lives had been lost.

We have been advertising the Alisma for the hair for some time, and our Druggists say that it is selling remarkably well, and what is better, gives universal satisfaction—better far than any other Hair Renewer in use. Seward's Cough Cure should be in every family.

A horse in Upshur county, W. Va., was destroyed by fire on the night of the 2d inst., and six persons—Mrs. Quirk and her three children, and two sisters named Kimball, one aged 15 and the other aged 10 years, perished in the flames.

It is proposed now to enforce the collection of the land tax in the South, it having been temporarily suspended by Congress at President Johnson's suggestion that the Southern States were too poor to pay it.

Two men, one boy and two horses were killed at Prairie City, Iowa, on the 3d inst., by the explosion of an anvil while celebrating the Fourth.

Last Tuesday John Roach, a drunken shoemaker, cut the throat of the daughter of his employer, at Staten Island, N. Y., and then cut his own. Both are dead.

It has been proved by statistics that the healthiest quarter of the year is that ending with June 30. The unhealthiest is that which immediately follows, and terminates with September 30.

The cholera is spreading in New York.
