

VILLAGE RECORD.

WAYNESBORO, Friday, July 30, 1869.

Letters from Europe state that Secretary Boutwell's management of the Treasury Department has done much to strengthen the credit of our Government abroad.

A company is being formed for the construction of a Bridge over the Potomac at Williamsport. The estimated cost is \$25,000 and nearly the entire amount of stock has been subscribed.

Deputy Commissioner of Internal Revenue J. W. Douglass has decided that no special tax as brokers or auctioneers should be imposed upon the President or the Secretary of Building Associations who, by virtue of their constitution, sell at public auction the loans of the association.

The prospects for a large reduction of the public debt during the present month increase daily. The Treasury authorities are in fine spirits concerning the finances, and believe that unless the receipts fall off heavily during the remainder of the month the reduction will be at least \$8,000,000 or \$9,000,000.

A YEAR OF PLENTY.—From all parts of the country the cheering intelligence continues to come announcing the abundance of the earth's productions. The wheat crop just harvested is all that could be desired, and the yield is pronounced to be far above the average. In the South the cotton promises to furnish more bales than has been produced since the commencement of the war. In the West, excepting a portion of Illinois, the corn stands firm, and gives assurance of an uncommon harvest.

The poor rich men of New York, who returned to the Government twenty dollars of annual income and lived up to twenty thousand, are being overhauled by the Revenue Assessors, and some compelled to disgorge. One merchant had hid his modest light so long that when it was uncovered he was found to have evaded the tax to such an extent that he owed the Government seventy-six thousand dollars, and had to disgorge; another owed twenty-six thousand dollars; several had evaded to the extent of twenty and twenty-five thousand dollars, and so on for quantity.

The new Fifteen-Cent Note bears some resemblance to the new ten cent note recently issued, though they are nearly an inch longer than the ten cent notes. In the left hand upper corner is a fine vignette of the head of the Goddess of Liberty, with a head dress something like that on the bronze figure surmounting the Capitol dome. This is surrounded by a wreath with the faces at the base. In the right hand upper corner are the figures 15 legibly printed. The face bears the words, "Fractional currency, United States, fifteen cents; furnished only by the Assistant Treasurers and designated depositories of the United States." In the lower margin are the words, "National Bank Note Company, New York." The back is green, and has the figures 15, while the usual rates of exchange are printed in two segments of a circle, nearly enclosing a black space, instead of being printed in the middle of a circular space, as on other notes.

In addition to the new fractional currency the Treasury Department will soon issue new United States notes of the denomination of one dollar. The plates for these notes are being engraved. The vignette of Chief Justice Chase on the left of the face of the notes will be taken off and a bust of Washington substituted. This, and changes in the vignettes recently made on the face of the fractional currency, is in accordance with an act of Congress prohibiting the vignettes of persons now living from being on the face of the United States currency.

Ex-Governor Michael Hahn, of Louisiana, editor of the New Orleans Republican, arrived at Washington, on Monday, on his way to the North, where he intends to spend some months. The dispatch says, in reply to the question, what is the political condition of Louisiana? he answered: "We do not talk politics in Louisiana any longer. All the excitement and bitterness of one year ago has died out, and people are now devoting themselves almost entirely to money-making and commercial pursuits." Mr. Hahn represents his own State to be in the most flourishing condition, and predicts that the South generally will soon be the most prosperous and richest section of the country. He says that the cotton and sugar crops of Louisiana this year will be the largest and best ever produced there. In all the States through which he has passed in his trip here he has seen evidences of retarding industry and wealth, from which he argues the most beneficial results to the South and the whole country. The cotton crop is so far advanced that the worm can do no harm even if it should make its appearance, and even in Virginia he saw evidences of general industry and thrift. So far as the city of New Orleans is concerned, he said that it is prosperous beyond the most sanguine expectations. One bank there has recently declared a dividend of over thirty per cent., and the yellow fever has not yet made its appearance. The people cease to talk about the war, and there is a general disposition to forget and forgive the past.

LOCAL MATTERS.

Salted haddock at Reid & Waynant's.

A RUAR.—There has been quite a rush at the "Diamond Gallery" lately. Braekbill is turning out fine pictures. Go and see.

PREACHING.—The Pastor, Rev. J. W. Wightman, will preach in the Presbyterian Church on Sunday evening next.

Pearl Barley, Pearl Sago, Tapioca and Corn Starch, at the Corner Drug Store. *

VALUABLE PROPERTIES.—Dr. Benjamin Franz, in today's paper, offers two desirable town-properties at public sale.

The chap with the "big feet" was among the number who went to see the "Injuns."

The Tomstown "berry train" continues to arrive daily. Blackberries are retailed at 6 and 8 cents per quart, according to quality.

Oranges, Lemons, Raisins, Figs and Prunes, at Ambersson's Corner Drug Store. *

ABOUT.—The Katydid has made their appearance, an indication, according to the weatherwise, of cool mornings and evenings.

PROGRESSING.—Work on the new Lutheran Church has of late been going forward more speedily. The building will be under roof in a few days.

We have a payment to make on Monday next for paper. Small favors from those in arrears will be thankfully received up to that time.

GEISER SEPARATOR.—We understand the Geiser Manufacturing Company are turning out several hundred separators this season. The company of late has been compelled to increase its force of workmen.

New and Popular Music—see advertisement of the Corner Drug Store.

The office of Justice of the Peace, at Quincy, must be a profitable one, or one to which great honor attaches. We understand there are already no less than four candidates there for that office at the fall election.

ICE.—Another week or two will exhaust the ice houses in this place, which will end the ice-cream season unless a supply can be obtained from some other quarter.

DISSOLUTION.—Messrs. Wolfersberger & Stoner have dissolved partnership, the former taking the Buss line and the latter the Livery. Their advertisements will appear next week.

REWARD.—A gold Morton Pen, No. 6, in Engine-turned silver case, was lost in Waynesboro, on the evening of the 22d inst. The finder will receive the above reward on returning the pen to J. F. Kurtz.

BASKET PIC NIC.—The Good Templars of Quincy will hold a Basket Pic Nic near that place to-morrow, Saturday. Neighboring Lodges, and the friends of temperance generally are invited to attend.

THUNDER STORM.—Perhaps the heaviest thunder storm of the season occurred here about 11 o'clock on Wednesday night. For nearly an hour the rain fell in torrents until our streets were completely deluged with water. More seasonable weather for corn, than the present, has rarely been witnessed.

DANGEROUS BUSINESS.—Some maliciously disposed persons, boys it is presumed, have lately been removing the signs of our business men and in several instances breaking them. These young night-rangers are perhaps not aware that the law for such offences imposes a fine of \$50.00 and imprisonment in the county jail.

ACCIDENT.—Mrs. McEldry, an elderly lady of Baltimore, a boarder at the Clermont House, on the Mountain, on Sunday evening last, on the way to preaching at Monterey Springs, stepped into a hole and broke both bones of her leg. Dr. I. N. Snively, attending physician, informs us that she was at last accounts doing as well as could be expected.

GRAIN DRILL.—We are pleased to learn that the enterprising firm of Messrs. Lidy, Frick & Co., of this place, are filling orders for upwards of two hundred of the Willoughby Gum-spring Grain Drills. This firm within the last twelve months has greatly increased its facilities for manufacturing purposes and is now driving a prosperous business.

The Public Opinion is the title of a new paper published at Chambersburg, by M. A. Foltz, Esq. The second number is on our table. Typographically it presents a handsome appearance and is ably edited. Politically it is Republican, and will doubtless exert a telling influence upon the pending political campaign in this county. Mr. F. ranks among the public spirited citizens of our county, is a reliable gentleman, and we trust The Public Opinion, in his hands, may meet with general favor.

HAMILTON & RAWDEN SHOW.—The exhibition of Indians (or Southern "Swampers") and trained animals which came off here on Friday last proved a humbug, and as is usually the case, was liberally patronized. It is estimated they realized, expenses paid, not less than two hundred dollars. We noticed a number of persons too poor to settle their subscription accounts at this office forking over their half dollars to see the farce.

GONE.—Prof. Wm. Notling and family, including his mother-in-law, Mrs. Mary Sanders, left this place on Tuesday morning for Selins Grove, Snyder county, Pa., where he becomes Principal of a Female Institution. Mr. N. had a fine school here and was very successful as a teacher. Had a suitable building for school purposes been provided he would doubtless have remained in our midst. This want has thus lost us a useful citizen and deprived our town of its only select school.

We think it high time an interest in the cause of education should be awakened in our community. Our present situation is an exception to other towns in the county.—Greencastle has a handsome School Building and Mercersburg its Institution of learning, and so of other towns we might mention; but Waynesboro' is without even a comfortable one-story school house. The erection of a School Building has been talked of for the last two years, some favoring the proposition and others opposing it. The latter say the Borough is too much in debt to undertake the erection of such a building. If such is the case cannot a sufficient sum of money be obtained for the purpose, the principal payable in ten years, or after the present debt has been wiped out? Must we forego the benefits of a good school or schools for the next ten or fifteen years because the Borough is in debt? We are uncharitable enough to think selfishness, in some instances, at least, has something to do with such opposition to a School Building.

Convexo, Convex Spectacles at Alex. Leeds, the Watch-maker.

FREE ENTERTAINMENT.—A stranger, a live Yankee, of course, made his appearance in front of Bowden's Hotel, on Wednesday evening last, and soon attracted a large crowd, which he entertained for an hour or more with music on the Banjo, accompanied with comic and sentimental songs, offering for sale at the conclusion of each song an article called "Indian Balm," a cure for all the pains and aches to which flesh is heir. After disposing of a couple dozen bottles at 50 cents per bottle the curtain dropped and "Yank" retired. We expect to be able to obtrude some marvelous cures through the agency of this wonderful "Balm."

FURNITURE ESTABLISHMENT.—The other day we dropped into the Furniture Store of I. H. Whitmore, in Greencastle, and was surprised to find such an assortment of furniture on hand. His stock we believe embraces every article in the furniture line, a portion of which is ranged in sets from \$50 to \$200 each. His dressing bureaus and marble-top tables are particularly handsome. He has also a fine stock of carpets, children's buggies, &c. Mr. Whitmore is certainly an enterprising citizen and deserves to be liberally patronized. Among other prominent enterprises Greencastle can boast a first class Furniture store.

THINK OF IT.—An exchange aptly and truthfully says of local papers, that they enhance the value of property; they benefit particularly merchants and real estate owners thrice the amount yearly they pay for the support. There is nothing that would do a place more harm than to be without a newspaper. This every man knows. A local paper then, is a necessity. It is a sacred duty to support your local paper. You need not think that the publisher of a paper can run it for your benefit and pay expenses out of his own pocket. Give your home paper good advertising patronage, and a respectable list, and you will then have just such paper as you wish.

COURT.—Court will commence at Chambersburg on the 9th day of August and continue three weeks. The following is a list of Jurors from Washington and Quincy townships:

Grand Jurors.—Geo. Middour, John S. Oiler, Adolphus Spellman, Jerry Spousler, Matthew Gordon. Traverse Jurors.—David Barkdoll, Chas. C. Cook, David Hartman, John C. Martin, Solomon Stamy, Geo. Sheffer, Samuel Frantz, Wm. Hayman, Washington Johnston, J. C. McIlvane, A. Resner, Geo. W. Sarbaugh, Wm. Blair, Isaac Eiker, L. S. Forney, Jackson Gilbert, J. F. Kurtz, David Miller.

A few days ago we received from the President of the Pacific & Atlantic Telegraph Company a report of the business of the Company, showing a large increase of receipts from year to year. The stock-holders are receiving a dividend of 10 per cent. per annum, payable quarterly, which is certainly a very good investment for those who have money to invest. J. F. Kurtz is agent here for the sale of stock.

FOR SALE.—A desirable small property, situated 2 miles from Waynesboro'. The lot contains an acre and a half, more or less, on which is a good house with seven rooms and a basement, good stabling and all necessary out-buildings, new cistern, never-failing well at the door, fine fruit all kinds. Enquire of the PRINTER.

CAMP MEETING.—The colored folks intend holding a camp meeting near Greencastle, in this County, commencing on the 7th of August next.

The Cumberland Valley railroad company invites proposals for the construction of an extension of the Franklin railroad from Hagerstown to the Potomac river, a distance of eight miles.

Gov. Geary belongs to the order of Red Men.

INSTALLATION.—Rev. H. H. W. Hibbs, of the Philadelphia Classis, of the German Reformed Church, on Tuesday evening last was received into the Mercersburg Classis, and installed Pastor of the German Reformed Church, in this place. The committee to install him were, Rev. E. V. Gerhart, D. D., Rev. S. N. Callender and Rev. J. S. Loose. The charge to the Pastor was delivered by Dr. Gerhart and that to the congregation by Rev. Mr. Callender.

PERIODICALS.

[All books designed for review in the Record must be addressed to Reviewers, Ringgold, Washington County, Md.]

THE AMERICAN BIBLIOPOLIST.—Messrs. Sabin & Sons are the most accomplished booksellers of the age—we mean American booksellers, of course—and their publication, the Bibliopolist, proves them such. This new monthly is very sprightly, and delightfully critical. Every thing it contains is put up in the best manner, and is interesting in the extreme. Every sentence of the reviews, or critical matter is sparkling and to the point. Nothing is done by halves. To the bibliomaniac this must prove an invaluable monthly. Persons desirous of adding to their stock of books, or those who may wish to get up a private library would find it to be advantageous to them in making selections of works. Subscription price \$1.00 for one year.

STRUCK BY LIGHTNING.—On Thursday afternoon the dwelling of Daniel J. Crouse, near Cavertown, was struck by lightning, the electric fluid passing through the building, stunning several of the inmates and killing a cat. The trace of the lightning was visible, in one place cracking the wall of the room.

Messrs. Coe, Wetherill & Co., Advertising Agents, and one of the most reliable firms in the country, recently took possession of their new headquarters, in the Bulletin Building, Chestnut Street, above Sixth, in Philadelphia.

Benj. Kidwell, of Boonsboro', Md, whilst pitching grain on Friday a week, was suddenly prostrated by sunstroke, and expired within fifteen minutes.

FARM FOR SALE.—A well-improved and pleasantly situated farm, a few miles south west of Waynesboro', is offered at private sale. Enquire of the Printer. *if

Hall's Journal of Health, a high and reliable authority says the Diarrhea may be easily cured if the patient will swallow small lumps of ice.

COAL OPERATORS.—The West threatens to throw its vote and influence at the next session of Congress in favor of repealing the duty on foreign coal. The Chicago Republican says: "The Pennsylvania coal operators who are plundering the people by their sounderly combinations, may as well 'make hay while the sun shines.' We give them due notice, this is their last chance. The next session of Congress will attend to their case, and by abolishing the tariff on imported coal, knock their pins from under their villainous structure. There is not a protectionist outside the State of Pennsylvania who will not unite in the determination to end this system of beliberte robbery of the public by the surest and most summary means. The war cry of the Western Congressmen next fall will be, 'Away with the tariff on coal!' So play out your little game, gentlemen; it is almost ended."

GREAT ECLIPSE IN AUGUST.—The solar eclipse on Saturday, August 7, will be total at several points in the United States; among others, at Des Moines, Iowa. It is an event of surpassing interest, and the rarity of its occurrence gives it, in a scientific point of view, a value hardly to be estimated. Accordingly the government has ordered three astronomers from the Naval Observatory to proceed to Boonsboro', sixty miles from Des Moines, and two others to Behring's Strait. A party from the Coast Survey is to go to Des Moines, and another from the same body to the Missouri river, five hundred miles beyond Sioux City. The Superintendent of the Naval Almanac will make observations in Burlington, Iowa, and Professor Winlock, the Cambridge astronomer, selects Louisville as his post.

That portion of the Internal Revenue law which relates to incomes winds up as follows: "The taxes on incomes herein imposed shall be due and payable on the 30th day of April in each year until and including the year 1870, and do longer." A powerful pressure will be brought upon Congress during its next session to abolish immediately this unjust, unequal and consequently unpopular law. The condition of the finances of the country will warrant the abolition of all further tax on men's earnings.

Secretary Boutwell, in reply to an inquiry of the Collector of Customs at New Orleans, decides that the coolie trade is illegal and contrary to the treaty between this country and China, which is now awaiting the approval of the Emperor. The laws passed in 1867 relative to this "new modification of slavery," as the Secretary calls it, have not been abrogated, as some seem to suppose, but are in full force, and under their ministers, consuls, collectors and other officers of the government are directed to use every effort to suppress the trade.

Hon. Ed. McPherson, Clerk of the House of Representatives, sailed for Europe on Wednesday.

A Cuban heiress has appeared at Saratoga wearing \$100,000 in diamonds.

Another successful trial of the air ship Avitor was made the other day in the presence of San Francisco members of the press, a portion of the Chicago party and engineers. Several of the latter are announced as having expressed the opinion that the larger machine now under construction will be a success.

A FEARFUL SCENE.—A letter to the New York Tribune says: At Echo, on the Union Pacific Railroad, the other evening three freight trains stood upon the main track, when word came flashing over the telegraph to the superintendent: "A locomotive and tender, with steam up, and nobody on board, have broken from a freight train and started down grade." Ah! then and there was a hurrying to and fro. In a few seconds there came another message; "She has just past Castle Rock Station. Never were three trains got of a siding with less delay. Then the workmen piled sleepers high upon the track; lest even that should not stop her, she should do murder further down the road, they tore up rails below. Just as this was accomplished she came in sight. She shot through the sleepers like a bullet through a pine board, sending them flying in all directions, and darkening the air with the splinters; but at the broken track she jumped up and down with vexation, and finally plunged angrily, head foremost into a hillside. She had run twenty-six miles in twenty-nine minutes; the best time yet made upon the road.

A TERRIBLE AFFAIR.—At Washington township, Indiana, last week, Mr. Wilmot and his wife wanted to go to church in the evening. They had four children, the youngest eight years of age. These poor creatures are left locked in the house with a coal-oil lamp. The children go to bed. The lamp explodes, setting the house on fire. The residence is burned. Nobody can get in to rescue the children until it is too late. The charred remains of the sufferers are found on the bed or near the door.

A young man named Joseph Wagner, living in Charlestown, West Virginia, professed to have the power of charming snakes. Last week, having captured a rattlesnake, he was giving his friends an exhibition of this power. After fondling the snake in his arms, he threw it on the ground and switched it until it writhed with rage. He then took the reptile up in his arms again, and saying, "Are you mad? Kiss me and make up." He put its head in his mouth. The snake bit his tongue, and he died in about an hour afterward.

The age of humbugs seems to be passing away, and the people are refusing to buy worthless preparations as heretofore. They now select the good and leave the inferior. When they want Bitters, they select Constitution, for they have proved themselves to be the best and only Bitter that ought to be used. Seward's Cough Cure always gives satisfaction.

The wife and daughter of Wendell Bollman, Esq., President of the Western Maryland railroad, both died on the same day last week.

About 150 persons, converts to Mormonism, left Virginia last week for Utah.

The municipal authorities of Richmond, Indiana, have put the license to sell liquors up to \$500.

The next State elections will be held in Kentucky, August 2; Alabama, August 3; Tennessee, August 5; Montana, August 10.
