

VILLAGE RECORD.

WAYNESBORO.

Friday, August 27, 1889.

Five hundred Chinese will shortly arrive in Missouri, for field labor.

A squaw, 117 years old, sells big cat fish in the streets of Sioux City, Iowa, and takes her regular business.

A negro woman, at Martinsburg, Va., died from the effects of fright caused by the Ku Klux in Robinson's Circus.

Mountain Boy and Lady Thora trotted at Saratoga on Monday. The betting up to the end of the second heat was 100 to 80 on Lady Thora, but Mountain Boy won in three straight heats, his best time being 2:24.

John W. Geary was born in a log house near Mt. Pleasant, Westmoreland Co., in 1819. Now in his 50th year, and in the very prime of a truly dignified and honorable manhood.

The wealthy and successful business man, Stephen Girard said: "Show me a newspaper well filled with home advertisements, and I will show you a community full of life and enterprise."

The Boston Traveller says that the bankers of Boston highly commend Secretary Boutwell's policy, and expect that if gold and bonds are kept so near par as at present, specie payments will be resumed by July, 1870.

Supervisor Conklin it is said has developed immense frauds perpetrated in Ohio on the revenue over a year since. Warrants have been issued for the arrest of extensive whiskey dealers and other persons implicated in that State, some of whom were until recently in the employ of the Government.

The union of officers at Gettysburg to lay out the prominent points of the battle, in order that they may be commemorated by monuments, assembled in small force at the battle field on Monday. One ex-Confederate was present, and letters were read from General Lee and his son Fitzhugh disapproving of the idea. A programme was adopted for carrying out the proposition.

A Chinese immigration agent has been in South Carolina for some weeks past, and has made contracts with a number of planters to furnish them with Chinese laborers by the first of the new year. One rice planter has contracted for two hundred and fifty Chinamen.

It is estimated that the reduction of Government expenses occasioned by the dismissal of employees from the Treasury Department, exclusive of the Printing Bureau, already reaches \$50,000 per month, with assurances of at least half as much in addition in the course of a few months.

Late advices indicate that the Spaniards are in a desperate strait in Cuba. Whipped on every hand, they will soon be compelled to leave the island in possession of the natives. Will Cuba then annex herself to the United States, or will she become an independent State like unto Mexico?

A Miss Hill, niece of General A. P. Hill, of Virginia, was accidentally shot and killed by her brother-in-law, Mr. G. W. Skinner, at his residence, in Washington county, Alabama, a few evenings ago. Mr. Skinner was about to leave the house to spend the night with a sick neighbor, and was engaged in rechecking his loaded pistol, when one of the barrels exploded, and the ball from it entered the side of the unfortunate lady, killing her instantly.

A late Scranton despatch says all prospect for an immediate resumption of mining operations in that section has fled. The operators on Saturday made their most liberal offer of wages, but the miners, in a body, have decided not to work, and decline anything and everything but the sliding scale or basis system.

No further overtures will be made for some time, as operators have offered what they deem more than fair wages, and don't intend to make any more concessions, but fight it out. It is considered by all that negotiations are off and will remain so for an indefinite period.

The body of Martin Billymor, of Northumberland county, who was convicted of illicit distilling at the last term of the United States Court, and confined in jail at Williamsport, was found back of the jail on Saturday last with his throat cut. On account of aberration of mind he had been allowed unusual liberty by the jailer. He held the fatal knife in his hand when found.

BUYING COAL NOW—The New York Times gives the following sensible advice to consumers of coal, and we earnestly urge it upon our readers:

"It is said that the coal companies of Syracuse refuse to sell more than one ton of coal to a customer at a time. The people of Syracuse and every other city would do well to refuse to buy more than one ton of coal at a time. We know of some consumers to whom the difference between \$8 and \$10 a ton is trifling, who have not allowed their coal dealers this year to furnish them, according to their custom at this season, with the winter's supply. They have put their refusal on the ground of the common benefit. Coal cannot well be higher, and it will be better to use as little and lay in as little stock as possible, the monopolists might be made suffer."

LOCAL MATTERS.

D. H. Halliday offers at private sale a valuable lot of ground on Leitersburg St.

Another Bell.—The Presbyterian congregation in this place are about purchasing a bell for their new church.

Any person wishing to secure a patent scrubber complete can get one at O. N. Beaver's.

A meeting of the Democrats of Washington Township, for the purpose of electing delegates to the County Convention, will be held in the Town Hall on Saturday next at 2 o'clock, P. M.

We are informed that Clarence N. Beaver has prima Cheese for sale. Families wishing any should give him a call.

UNDER ROOF.—The new Lutheran Church in this place is now under roof and the workmen are engaged on the spire. The building is commodious and presents a fine appearance.

Philadelphia city proper, is at present under a water panic, the water in the Schuylkill being too low to work the machinery at Fairmount. See letter from our old correspondent, "Ralph," in another column.

The dirt in "money matters," like the "drought," continues. Those of our patrons largely in arrears will greatly relieve at the same time oblige us, by giving us "stamps" instead of promises. We have been overstocked with the latter for a long time.

A Treat.—The other night the members of our Band were made the recipients of a handsome treat of ice cream and other edibles, by Messrs. Hennesberger & Hoover, of the "Waynesboro' Bakery and Confectionary." Such evidences of musical appreciation are commendable.

Pic Nic.—We are requested to say that Waynesboro' Lodge I. O. O. F. will hold a Basket Pic Nic in Emanuel Miller's woods, on the turnpike about a half mile from town, on Thursday the 23d day of September.—Members and all persons friendly to the order are invited to attend. Music and speakers have been engaged for the occasion.

MILL BURNED.—On Wednesday morning last the Brick Steam Mill at Mercersburg, belonging to the Messrs. Hollingers, formerly Judge Carson's, with a Saw Mill, was entirely destroyed by fire. Our informant says the fire is supposed to have been the result of accident. We have no particulars as to the amount of loss sustained.

THE WEATHER.—The drought continues with the weather excessively warm. During last week the mercury in the shade ranged from 98 to 104. Notwithstanding the great heat and lack of rain the corn-fields present a remarkable appearance, having been damaged to only a limited extent. Pleasant showers would yet largely increase the yield of corn in our region.

ROBINSON'S SHOW.—According to previous announcement through the Record, Robinson's great Circus and Menagerie exhibited here on Thursday last, afternoon and evening. The attendance was unusually large, the large tent being crowded on both occasions. The exhibitions were the best witnessed here for many years. One feature commendable to Mr. R. was sobriety and good order on the part of the showmen.

Pic Nic.—We are requested to announce that a Basket Pic Nic will be held by the Improved Order of Red Men, on Thursday the 16th day of September next, in the grove of Mr. John Leshner, half mile north of Waynesboro'. The Waynesboro' Band will discourse music on the occasion. Speakers have been invited, Gov. Geary among the number. A cordial invitation is extended to the public.

TERRIBLE ACCIDENT.—A terrible accident occurred in Licking Creek Township, Fulton county, one day last week. The Fulton Republican says: Two boys of Franklin Sipes, aged 12 and 16 years, respectively, were hauling bark; the eldest boy was driving, and the youngest was walking by the side of the wagon. A few moments before the accident occurred, the eldest boy looked back and saw his brother walking by the side of the wagon, but when he looked back again, a few moments afterward, he was lying in the road, and the wagon had passed over his body. When his brother got to him, he was dead.

DEATH SENTENCE.—Dr. Paul Schoppo was denied a new trial, at the Cumberland County Court, Carlisle, on Friday last, and was on that day sentenced to be hanged. It will be recollected, the Doctor was convicted of the murder of Miss Steinecke, at a previous term of Court, but sentence was deferred. He made a statement denying his guilt. Wm. Gould, the court clerk, an old man, dropped dead as the sentence on Schoppo was pronounced.

Pay up arrearages and shame "old Nick."

SENTENCE OF ADAM TITUS.

On Tuesday last, Judge Graham, in open Court, at Carlisle, passed sentence of death upon the prisoner, Adam Titus, convicted and proven guilty of the murder of Henry Stamm, near Shippensburg, on Wednesday, December 28th, 1868. Titus was much affected during the time occupied by the Judge in delivering the fatal and solemn words which doomed him to the gallows and proudly vindicated the law of right and justice. It now only remains for Gov. Geary to fix the day of execution; and for Adam Titus to prepare to meet an end brought on by errors of his own creation.

The following is the sentence as delivered by Judge Graham to the prisoner:

"That you, Adam Titus, be taken to the Jail of Cumberland County by the Sheriff, and thence to the place of execution in the yard or within the walls of the Jail there to be hanged by the neck until you are dead, and may God have mercy on your soul."

The prisoner arose, and in a distinct tone said that he was willing to place his case before the Great Judge. That he had been adjudged guilty of murder in the first degree on evidence of Mrs. Fry, his mother-in-law—a woman unworthy of belief; that he did not have Stamm's money; that he would give the public a statement in writing when he got composed.—Shippensburg Sentinel.

FATAL ACCIDENT.—The citizens of Mercersburg were thrown into a great excitement, on Monday morning last, at this announcement that a son of Mr. John Hook, a resident of that town, aged about ten years, had been killed. It appears the lad had started in the morning, on horse back, with one end of the hitching strap fastened around his waist, for the purpose of bringing home from the pasture field the cattle of Mr. C. Loderbaugh; and when a short distance from town the cattle which the lad was driving coming in contact with another lot of cattle, commenced goring each other, when the boy, it is supposed, rode his horse amongst them for the purpose of separating them. At all events the horse was gored by the cattle, which caused him to take fright and run off, throwing the boy and dragging, tramping and rolling over him several times, lacerating his body in a terrible manner. The horse was finally caught and the boy cut loose, but died in a few moments afterwards. Terrible lesson to boys not to fasten themselves to horses.—Repository.

COURT PROCEEDINGS.—On Monday morning was commenced the trial of John Harmony, charged with murder of Frank Spital in the month of April last, an account of which was given in the town papers at the time. The following is a list of the names of the jurors, empaneled to try the case: Messrs. Samuel West, John Skope, Matthew Sharpe, G. W. Byers, John Kaufman, Washington Johnston, Jere Jordan, George Taylor, John Gzell, I. E. Fagan, A. Resser, and G. W. Bentz. Verdict guilty of murder in the second degree. Motion for a new trial filed, on the grounds that the verdict was against the law and the evidence. A new trial was granted, when the prisoner pleaded guilty to the charge of manslaughter, and was sentenced to one year's imprisonment in the Eastern Penitentiary.—Public Opinion.

MOST A FIRE.—On Wednesday about 3 o'clock in the afternoon an alarm of fire was given, and citizens under great excitement hurried to the residences of Jos H. Crobs, from the rear of which a cloud of smoke could be seen issuing. The wash-house, in close proximity to his cabinet-maker shop, was found to be on fire. The flames had already reached and penetrated the shingle roofing. Fortunately, however, a cistern was at the door with sufficient water in it to extinguish the fire with little damage to the property. Had the fire been discovered five minutes later the consequences might have proved disastrous indeed. Considering the nature of its surroundings and the scarcity of water, the escape was a fortunate one to Mr. C. and others. The fire was occasioned by a pot of varnish igniting.

PATENT GATE.—Our attention the other day was called to one of Landis' Patent Gates, on the premises of Mr. Abram Yranitz, near this place, which is certainly a great improvement upon others now in use. It is simple in construction, so much so that any ordinary mechanic can construct one at a cost of from four to six dollars. It has a rope attached to a pulley by which a person can enter or pass out of an enclosure without dismounting or getting out of a vehicle. The arrangement is such that the gate is made to open to or from the rider. Farmers or others in want of gates should examine the one to which we refer. Mr. John B. Whitmore, of Greenscastle, has purchased the right for its use in Franklin county.

ARE YOU REGISTERED.—Under the new Registry Law, all citizens who desire to vote in October must have their names on the Registry. Voters will save themselves much inconvenience by going to the Assessor, and having their names put on the list. The lists of assessed voters have been made out and may be seen, posted up at the places of holding elections or at the Assessors. Let every voter examine the lists of his district and see that his name is on it, and if it is not, have it placed there. Naturalized citizens, unless they have been voting in the district for five consecutive years, must present their certificates of naturalization to the Assessor when application is made for registration.

MUSICAL.

[All books designed for review in the Record must be addressed to Reviewers, Ringgold, Washington County, Md.]

Patry's Musical Monthly.—We like the appearance of this Journal, though we hold a slight prejudice against any thing that appears to be a mere "cheap" paper, as regards the quality of certain musical productions because it does not pay them to bring out anything fine.

The literary articles of the monthly, for August, are pleasing and instructive in their way; of the music—we are inclined to be doubtful.

The cars on the White Mountain Railroad were delayed by snow on the 7th inst., and 150 people were compelled to pass the night on Mount Washington, suffering much from the severity of the weather.

FARM FOR SALE.—A farm situated about 4 miles north-west of Waynesboro' on the Marsh Run, containing 200 acres. The improvements are a good two-story Brick House, large Stone Barn, and all necessary out-buildings. For further particulars enquire at this office.

ICE CREAM.—A prime article can be had these warm evenings at Beaver's Hall, which will be continued each evening during the season.

FROM PHILADELPHIA.

Philada, August 23.

WATER! WATER! The Arabs, it is said, call water "the gift of God,"—a beautiful idea, indeed! It is "the gift of God," for without it we could not exist. The people in this city are now in danger of being deprived altogether of the aqueous fluid, on account of the long-continued drought and defective machinery at the water-works. We have been on "half rations" for several weeks. No pavement-washing has been allowed, and nearly all the "large" manufacturing establishments have been compelled, for want of the fluid, to cease operations. Unless we are immediately supplied with a copious supply of rain by the all-wise Dispenser of all good, we shall be in a very pitiable condition. Intense heat, we are informed by the devotees of science, produces immense absorption. We have the heat, and may we not, as a consequence, look for the rain.

Our markets have never within the memory of the oldest inhabitant been better supplied with fruits of all kinds than this season. You must not think that I am tampering with your credulity when I say that the daily arrivals of peaches for several weeks has been from fifty thousand to one hundred thousand baskets. The early crop were not very good, being small, but the finer qualities are now arriving. All other fruits, as well as vegetables, are extremely plenty.

WOMAN'S RIGHTS.

A labor Congress has been in session here during the past week. The inevitable Miss Anthony, of New York, the champion of Woman's rights, was on hand, and ventilated her peculiar ideas in relation to the rights of women. She wants the right to vote and hold office, and no doubt would like to don the breeches also. When Napoleon (I mean the great Napoleon, not the scoundrel who governs France now) was asked what France most needed, he replied, "Mothers." The want in this country to-day is not women politicians and office holders, but women trained and fitted to rear and educate children. This is women's high and lolly mission, and how few are capable of doing it properly.—training children for their God and country. Miss Susan B. Anthony is a virago. She has a very glib tongue, and it never tires. What a pity she couldn't find a man when she was young. She might now be, it is not a voter herself, the happy, sweet-tempered mother of a voter. Her non-success in winning the affections of the opposite sex in early life has soured her disposition wonderfully. Poor Susan!

WARM.

The mercury at 99 degrees, and no indications of its falling, with the sun broiling us, and empty bath-tubs. What shall we do? Adieu. Yours, &c.

"RALPH."

Many people are prejudiced against the use of spirits in any form, but we can assure such that the Constitution Bitters are not objectionable on that account, for while they contain only pure whisky enough to keep them from changing, the combination of roots, barks and herbs are the real articles of merit that produce such wonderful effects. The thousands who are using them can testify to the above facts.

No one ever regretted buying a bottle of Seward's Cough Cure.

THE TOMB.

On the 1st inst., near Scotland, after a short illness Miss ELIZABETH DILLER, aged 75 years, 3 months and 15 days, formerly of Philadelphia.

Near Quincy, on the 20th inst., Mr. SAMUEL REED, aged 73 years, 7 months and 2 days.

In Quincy, Franklin county, Pa., on the 19th inst. ANNIE E., youngest daughter of John and Annie E. Midgower, aged 6 years, 3 months and 3 days.

In this bereavement we deeply sympathize with the family, nevertheless knowing that their loss is Annie's eternal gain. Though young she was a faithful Sunday school scholar, and in her school has lost one of its brightest gems, and her voice is heard no more singing those beautiful words:

"I want to be an angel!" But in that Sabbath school among the bereaved children she is singing a sweeter song to-day. How pleasant it is to know that "of such is the kingdom of heaven!" She was the pet of the family, and her very absence gives it a sad and gloomy appearance; but, while address may shroud the home for a while, and no whisper shall come from those pale lips of Annie's—"Papa, Mama, come here! yet, methinks I hear her whisper from above: Papa, Mama, Brother, Sister, come here and share with me the joys of life and glory.

A full corps of competent and experienced instructors will always compose the Faculty, so that young men, or parents and guardians having sons or wards to educate, may feel assured that full and impartial justice will be done to all favoring the College with their patronage.
