COAL.-The strike in the mines having ended, the miners in the region owned by the D liware, Lackawanna and Western Railroad Company commenced work again on Monday at Scianton and the vicinity. This resumption of work will probably he followed by the miners in the employ of the Delaware and Hudson Company and of all the other companies mining coal in the Wyoming region .-There is no danger that there will be any scarcity of coal next winter. The strike of which so much has been said was in a large measure a begus strike. Its object was to alarm consumers into hurrying to lay in their winter's aup ply at exorbitant, fictitious prices. But the prompt exposure of the scheme by the newspapers put the public on their guard against this cunning dodge.-Consumers have delayed their purchases, and they may safely delay them until Octoher. Alarmed in their turn at the unexpected result of their combinations, the coal dealers have at length changed their base and the bogus strike is at au end .- N. Y. Herald.
