Barbering! Barbering!

WANTED - Bacon, Lard, Butter, Eggs, Cotton Rags, &c., for which we will give the highest market price in trade.

Improved Thrashing Machine!

Daniel Geiser, J. F. Oiler, Josiah Fahrney.

Farmers will please look at the great advantage in Thrashing Grain with

GEISERS' PATENT SELF-REGULATING GRAIN SEPARATOR, CLEANER AND BAGGER.

With the latest Improved Triple Geared Horse Power, driven either by Gear or Belt

No. 1 is a eight-horse power, with cast iron threshing frame and wrought iron and wood cylinder, sixteen inches in diameter and thirty three inches long.

The No. 2 Machine, fully represented in the above cut, is particularly adapted to the farmer's uses in intended to apply to any common lever of railway power, weighs 1,500 pounds.

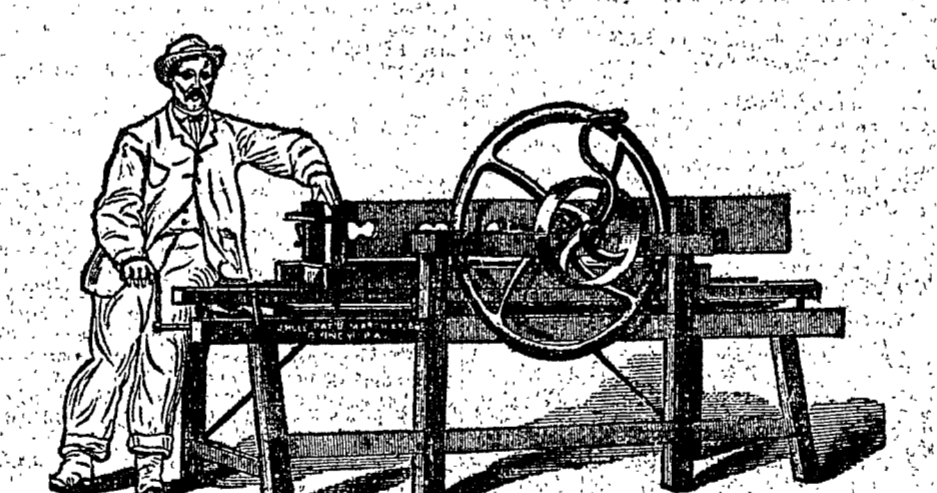

Now heres what the Farmer and his hired man want, a Separator, to go from farm to farm, to thrash grain, with more satisfaction than any other separator now in use, and why is it? Because this separator has a self regulating blast, which prevents grain from blowing into the chaff, and also has a self regulating feeder to feed the cleaner and it has rollers and combs in the cleaner which prevents it from choking.

Why does this machine run so light, and give so little trouble? Because there is less friction in the journals, and the rollers and combs are geared so that you have no trouble with the rollers and slipping, causing dust to fall into the wheat.

Shop Prices of Machines range from \$215. to \$540.

DANIEL GEISER Proprietor, WAYNESBORO, FRANKLIN CO., PA.

Null's Pat. Post Boring Machine.

PATENTED MARCH 24, 1868.

STATE AND COUNTY RIGHTS FOR SALE.

A series of trials of this machine has convinced the inventor and all persons who have witnessed operations that it is superior to any other in use in the following particulars:

LABOR SAVING QUALITIES - EASE OF OPERATION - SIMPLICITY OF CONSTRUCTION

This machine is constructed so as to be operated either by hand, horse, water or steam power.

JONATHAN NULL, Quincey, Franklin County, Pa.
