May 4-17] PURIFY YOUR BLOOD! LONDON

The Great Alterative and Blood Purifier.

BLOOD PANACEA.

It is the most perfect vegetable compound of altera-tives, tonics, diurctics and diaphoretics, making it the most effective, invigorating, renovating and blood cleansing cordial known to the world.

ARGORATHE, TENOVICING AND ADDRESSES, EATHOWN TO THE WORLD DISEASES, EATSTILL, CUTALNEOUS DISEASES, EATSIPELAS, BOILS, FIMPLES AND
BLOTCHES WITH THE FACE, SORE
ETES, SCALD HEAD, TETTER AN
FECTIONS, OLD AND STUBBOOK
YELLOW JAUNDICE, SALT REBUM,
WHITE SWELLINGS, MERCURIAL
DISEASES, GENERAL DESILITY,
PALPITATION AND FLUTTERING AT
the HEART, CORSUMPTION,
ASTEMA, STPHILISANDATION Of the
BLADDER and KIDNETS, PAINS in
the BACE, DROPSY, FEMALE COMTLAINTS, &c. To the broken down
female it gives life and energy by
restoring the lost powers of nature,
when health sigain succeeds the
feeble form and pullid cheek of the
sufferer.

Nothing can be more surprising than its invigorating effects on the human system. Persons all weakness and lassitude, by using the PANACEA, at once become robust and full of energy under its influence. Ladies who have pale complexions and are dark about the eyes, blotches and pimples on the face, rough skin or freekles, and are "out of spiritis" should use a bottle or two of LONDON BLOOD PANACEA. It will cleans your blood, remove the freekles and blotches, and give you animatien, sparkling eyes, fine spirits and a beautiful complexion. Try it.

Price 91.00 Per Bottle.

The genuine have LONDON BLOOD PANACEA, S. A. FOUTZ, BALTIMOR, Mo., blown in the bettle, and my signature on the wrapper.

S. A. FOUTZ. Manufacturer and Proprietor, BALTIMORE, MD. For sale by druggists and storekeepers throughout the United States.

GEISERS PATENT imore
Every article sold is WARRANTED to be of SELF-BEGULTING GRALV SEP 1R 110R CLEANER AND BAGGER.

With the latest Improved Triple Geared Horse Power, driven either by Gear or Belt

No. I is a eight-horse power, with east iron thresher frame and wrought iron and wood cylinder, sixtoen inches in diameter a d trarry three inches long. Frunk has ten inch rake crank and seven rakes toen menes in minimize a single property of the second rate, these carry the straw of their tops, and deliver the straw of the straw of their tops, and deliver the straw of their tops, and deliver the straw of the straw of their tops, and deliver the straw of their tops, and deliver the straw of their tops, and their tops of their tops in a separate place. The cours in the absorber closed, to confine the striw and chaff, remedies all difficulties in channer grain against with a weather. It has the grain by responsible management, sufficiently clean for mark t, and its aparity under ordinary encumstances, is from twenty to forty hush negatify close to the same number of hands; but to force the work under favorable treum-tunes, it will three to be to off a bushels per bour, and with more case and agreenbleness battle than any other machine now in common use

The No 2 Machine fully represented in the the vecut, is particularly a apied to the farmer's use; ir The No 2 Wagning and remarks a set in the end, is paracularly a specific the memora use; in intended to apply to any common lever or rulw v power; weighs 1,300 points; has an ign threst erfection and cylinder; 125 inches in diqueter 1,258 inches long; believes the clean grain in bags, or if desired in half bushed at believes the craw fifteen feet from the feeter, or if desired, can deliver the stow and chaff together; will thresh and clean in good grain, ready for market from 100 to 175 bushed wheat, or troig 300 to 5.0 has do if outs per day using four of six torses, and the same number of ands; but to force the work, an for most favorable circumstances, good grain, &a. will thresh and clear considerably more. The Michiga with three in and clean all kinds of grain generally threshed with the condition in hine, and requires an more horse power, but in many cases does not run so hard. It will pply very well to a two-borse railway power

N' w here is what the P treas and three seem in wants, a Separator to go from form to farm to three! grain with more satisfiction than any other separator now in use, and why is it ? Because this separator has a self re plating Bust, which prevents grain from blowing into the chaff and also has a self repulsing feeder to feed the cleaner and it has rollers and combs in the cleaner which prevents it from choaking. Why the this muchine run so tight, and give so little trouble? Because there is less friction in the Journals, and the rakes an if in are genred so that you have no trouble with Belts beeking and slipping, causing dust to full into the wheat. Why does it clean against the wind? Because the blast has fire taction on the grain and the cleaner is so well arranged that the wind has no chance to drive the dirt into the hopper. Why is it built perminently on two wheels and the front carriage separate, residents, affach when necessary? Because it is more convenient in the harn without the front carriage. riare. You can turn the machine or run it from place to place more easily. Why has it not got Elevators like some oth runchines? Because the Elevators carry the fifth back diternately into the cleaner which must eventually no into the good wheat or in the chaff, and all know that fill h should be kept eparate for feed, &c. we might as well keep shoveling the l'ailings from under our hand fin into the hopper an expect to get the grain clean. Why is this separator more cleanly and satisfactory to work about than others? Because the Fan and Trunk pides are closed up to prevent the wheat-haff and dust from coming out, and scattering over the floor, causing waist and giving much trouble with dirt and sor eyes, &c. Why do Phroshermen get more work with these separators than they do with others? Bo cause this separator has all these advantages and many more, which makes it a separator suitable at a paying one for all farmers and Thiashermen that have grain to thrush, we list in most cases " ringers must suit themselves to the machine, occause the machine will not suit riself to the farmer. In short this is the cheapest, most durable, retiable, simple and most agreeable to work chout and the only set arretor that will clean and bag the grain sufficiently clean for market under all cir unistances

Farmers can rest assured that this machine is no ou and , and judging from the high recommends and of farmers that are using the m. we must come to the conclusion that it as the very Machine that itsmers want and will have as soon as they have an opportunity to appreciate and attest its merits for which we hope they will give us an opportunity, as we are willing to e responsible if it does not perform as represented in this Circular.

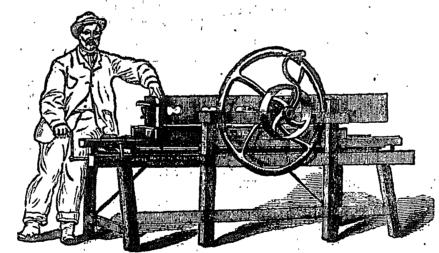

A reduction of 2 per cent on all in this want it in on a hefore the first of word. 1868.

Shop Prices of Machines range from \$215, to \$540. We warrant the machines to be as above represented; also against any ressumable defects of materi workmanship. &c.

"Dr. P. Sahmey's collabilited Blood Searches or Frances," is a medicine that we can recommend to those, who are efficient, having used it in our own family and furnished our friends with the article; we can, therefore, from experience say that it is a medicine pointessing rate medicinal properties. Being a mild purgative, it is well to keep it always in the family where there are children or those subject to colde or other sickness. It is compounded from medicinal Books, Leaves, Barks, Scotle and Barries, which are said to be entirely free from poison: We are personally acquainted with the proprietor who was our family Physician for several years, and we were at one time raised from a bed of smitchin under his judicious treatment."—Ohristian Family Companions

positions.
