PURIFY YOUR BLOOD!

LONDON BLOOD PANACEA.

The Great Alterative and Blood Purifier.

It is the most perfect vegetable compound of astringent, tonic, diaphoretic, making it the most effective, invigorating, renovating and blood-cleansing cordial known to the world.

For the cure of SCURF or King's Evil, CUTANEOUS DISEASES, ERYSIPELAS, BOILS, FURUNCLES and ECTHYMA. Also on the Face, SORES, BRUISES, SCALD HEAD, TETTER AFFECTIONS, OLD and NEW SCURF, ULCERS, BURNING, CHANCERIES, DISTEMPER, GENERAL DYSPEPSIA, PARIETAL AND FLUTTERING of the Heart, COLIC, CONSTIPATION, BILIOUSNESS, SPITTING OF BLOOD, RHEUMATISM, CALCULI, GRAVEL, and EMBOLI in the Bladder, Dropsy, FEMALE COMPLAINTS, &c. To the broken down female it gives life and energy by restoring the lost powers of nature, when health again succeeds the feeble form and pallid cheek of the sufferer.

Nothing can be more surprising than its invigorating effects on the human system. Persons afflicted with indigestion and full of energy under its influence. Ladies who have a complexion like lead, blotches on the face, itching of the eyes, blotches and pimples on the face, rough skin of the face, and a general feeling of debility, will cleanse their blood, remove the impurities of the system, and give you animation, sparkling eyes, fine skin and a beautiful complexion.

Price \$1.00 Per Bottle.

The genuine LONDON BLOOD PANACEA, S. A. FOUTZ, Proprietor, Baltimore, Md., is the only one of its kind, and my signature on the wrapper.

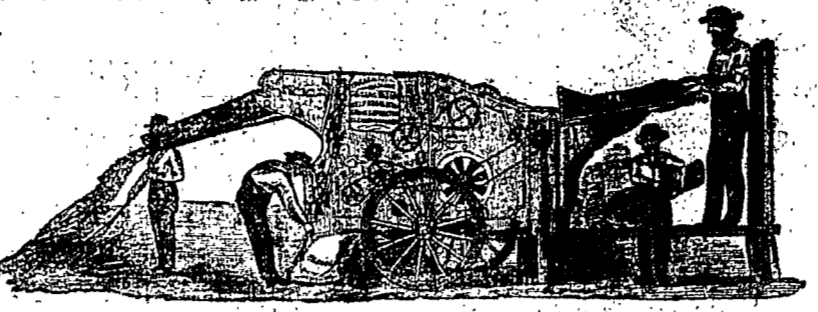

S. A. FOUTZ,

Improved Thrashing Machine!

Daniel Geiser, B. E. Price, J. F. Oiler, Josiah Fahrney.

Farmers will please look at the great advantage in Thrashing Grain with

GEISERS' PATENT SELF-REGULATING GRAIN SEPARATOR, CLEANER AND BAGGER.

With the latest Improved Triple Geared Horse Power, driven either by Gear or Belt

No. 1 is a eight-horse power, with cast iron threshing frame and wrought iron and wood cylinders, sixteen inches in diameter and thirty three inches long. Trunk has ten-inch rake crank and seven rakes, five in each side, and delivers the straw over the second rake, these carry the straw out on their tips, and deliver it on the stacker, which will deliver about thirty-five feet beyond the feeder, on a stack fifteen to eighteen feet high, and can be easily managed to carry the straw and chaff, remedies all difficulties in cleaning grain against winter weather. It bags the grain by reasonable management, sufficiently clean for market, and its capacity, under ordinary circumstances, is from twenty to forty bushels per hour, using eight horses and the same number of hands; but to force the work under favorable circumstance, it will thresh from forty to fifty bushels per hour, and with more ease and agreeableness to hands than any other machine now in common use.

The No. 2 Machine, fully represented in the above cut, is particularly adapted to the farmer's use; in intended to apply to any common lever or railway power, weighs 1,300 pounds, has iron threshing frame and cylinder, 12 1/2 inches in diameter and 28 inches long; delivers the clean grain in bags, or if desired in half bushels. It delivers the straw fifteen feet from the feeder, if desired, can deliver the straw and chaff together will thresh and clean, in good grain, ready for market, from 100 to 175 bushels per hour, from 200 to 500 bushels of oats per day, using four or six horses, and the same number of hands; but to force the work, under most favorable circumstances, good grain, &c., will thresh and clean considerably more. The Machine will thresh and clean all kinds of grain generally threshed with the common machine, and requires no more horse power, but in many cases does not run so hard. It will apply very well to a two-horse railway power.

Now here is what the Farmer and thrasher wants, a Separator to go from farm to farm, to thresh grain, with more satisfaction than any other separator now in use, and why is it? Because this separator has a self-regulating blast, which prevents grain from blowing into the chaff, and also has a self-regulating feeder to feed the cleaner and it has rollers and combs in the cleaner which prevents it from chafing. Why does this machine run so light, and give so little trouble? Because there is less friction in the Journals, and the rakes and fan are geared so that you have no trouble with Belts breaking and slipping, causing dust to fall into the wheat. Why does it clean against the wind? Because the blast has direct action on the grain and the cleaner is so well arranged that the wind has no chance to drive the dirt into the hopper. Why is it built permanently on two wheels and the front carriage separate, ready to attach when necessary? Because it is more convenient in the barn without the front carriage. You can turn the machine or run it from place to place more easily. Why has it not got Elevators like some other machines? Because the Elevators carry the flitch back alternately into the cleaner which must eventually go into the good wheat or in the chaff, and all know that flitch should be kept separate for feed, &c. Why do we well keep shoveling the Fallings from under our hand fan into the hopper and expect to get the grain clean. Why is this separator more cleanly and satisfactory to work a farmer than others? Because the Fan and Trunk Sides are closed up to prevent the wheat chaff and dust from coming out scattering over the floor, causing waist and giving much trouble with dirt and sore eyes, &c. Why do Thrashers get more work with these separators than they do with other? Because this separator has all these advantages and many more, which makes it a separator suitable and a paying one for all farmers and Thrashers that have grain to thresh, whilst in most cases farmers must suit themselves to the machine, because the machines will not suit well to the farmer. In short this is the cheapest, most durable, reliable, simple and most agreeable to work about, and the only separator that will clean and bag the grain sufficiently clean for market under all circumstances.

Farmers can rest assured that this machine is no humbug, and judging from the high recommendation of farmers that are using them, we must come to the conclusion that it is the very Machine that farmers want and will have as soon as they have an opportunity to appreciate and attest its merits, for which we hope they will give us an opportunity, as we are willing to be responsible if it does not perform as represented in this Circular.

A reduction of 2 per cent on all orders handed in on or before the first of April, 1868.

Shop Prices of Machines range from \$215. to \$540.

We warrant the machines to be as above represented; also against any reasonable defects of materials, workmanship, &c.

FOUTZ'S

Horse and Cattle Powders.

This preparation, long and favorably known, will thoroughly renovate broken down and low spirited horses by strengthening and cleaning the system, and giving them new energy. It is a sure preventive of all diseases incident to the animal, such as LUNG FEVER, GLANDERS, YELLOW WATER, BRUISES, CHANCERS, DISTEMPER, FEVERS, POUND RING, LOSS OF APPETITE AND VITAL ENERGY, &c. Its use improves the wind, increases the appetite, gives smooth and glossy hair, and transforms the miserable skeleton into a sleek and spirited horse.

To keepers of Cows this preparation is invaluable. It is a sure preventive against Rinderpest, Cholera, &c. It has been proven by actual experiment to increase the quantity of milk in a cow twenty per cent, and make the butter firm and sweet. In fattening cattle, it gives them a superior quality, and makes them thrive much faster.

In all diseases of Swine, such as Coughs, Ulcers in the Lungs, Liver, &c. this article is a specific. By putting from one half a pound to a pound of this powder in the feed, it will prevent the disease, and will cure or entirely prevent it. If given in time, a cure is sure, and it is the only cure for the Hog Cholera.

DR. P. FAHRNEY'S

PAN-A-CE-A BLOOD PURIFIER

"Dr. P. Fahrney's celebrated Blood Purifier or Panacea," is a medicine that we can recommend to those who are afflicted, having used it in our own family and family of our friends with the result, we can, therefore, from experience say that it is a medicine possessing rare medicinal properties. Being a mild purgative, it is never hurtful to the system, and is perfectly safe for all ages, from the young child to the aged and infirm. It is composed of medicinal Roots, Leaves, Fruits, Seeds, and Berries, which are said to be entirely free from poison. We are personally acquainted with the proprietor who was one of the greatest medical geniuses of our age, and we were at one time raised from a bed of affliction under his judicious treatment.—"Christian Family Companion."

FAHRNEY'S BLOOD PURIFIER.—From our personal acquaintance with Dr. P. Fahrney, and from the reputation of the medicinal qualities of the ingredients of the Panacea, we can cheerfully recommend it to a fair trial to all who may need a PANACEA for the physical maladies of mortals, until the great PANACEA for all diseases shall be found in the leaves of the tree of life.—"Prophetic Watchtower."

Sold by F. Fourthman, Waynesboro', Hirschfeld & Gehl, Ringgold; Wm. B. Raby-Quincy; E. J. Small, Mon Alto; L. J. Bell, Smithburg, Md., and Druggists generally.

Null's Pat. Post Boring Machine.

PATENTED MARCH 24, 1868.

STATE AND COUNTY RIGHTS FOR SALE.

A series of trials of this machine has convinced the inventor and all persons who have witnessed its operations that it is superior to any other in use in the following particulars:

LABOR SAVING QUALITIES—EASE OF OPERATION—SIMPLICITY OF CONSTRUCTION.

This machine is constructed so as to be operated either by hand, horse, water or steam power. By hand 25 to 30 posts can be bored per day; by one-horse power from 100 to 150 per day; by two-horse power 200 per day, and by water or steam power from 200 to 300 per day. It is also a self-feeder. The subscriber is now prepared to dispose of State and County Rights for the above valuable invention.
