In the Schoeppe case, under the auspices of the German Legal Aid Society of New York, a delegation, consisting of Messrs. Fredk. Knapp, General Franz Sigel and Charles Goepff, will proceed from that city to Harrisburg, Pa., very soon to endeavor to procure from Gov. Geary a pardon for Dr. Schoeppe. A movement is on foot in Baltimore having the same object in view.

The Legislature of Vermont has enacted a law which makes liquor dealers responsible for any damage occurring to either persons or property through the conduct of those to whom they sell liquor. As the defense of a large number of our criminals is drunkenness, and as they are ostentatiously irresponsible parties, we think the Vermont law will prove efficacious.

A wood sawer, who was pilging wood near the railroad track at Edgerton, Ohio, one day last week, noticed while standing on the pile as the lightning train approached, a large stick lying upon the rail. Without a moment's hesitation he leaped directly before the train and grasped the stick. At that instant the engine struck him and hurled him some distance forward. He fell to the ground mangled and lifeless, but he had saved the train.

Wheat has declined materially in price in the Northwestern States during the last month. In Iowa it is quoted at about 65 cents in the Mississippi towns, such as Dubuque, Keokuk, Davenport, while at interior points, like Des Moines, and Cedar Rapids, it is only worth 35 or 40 cents. The enormous charges for transportation eastward is one cause of these low rates.

POLITICAL.—Returns from twenty-six counties of Mississippi show a majority of 32,000 for Alcorn, the Radical candidate for Governor, a gain of 27,000 over last year's vote. Judge Dent, a brother-in-law of President Grant, was the candidate of the conservatives. The Legislature will also be largely Republican, securing the ratification of the Fifteenth Amendment.

From Texas the returns are not full and very incomplete. The indications are, however, that General Hamilton, Conservative, has been elected Governor by a handsome majority.

A MUTUAL WILL.

The writer of the following letter, who gave his note "only as a form, you know," is now probably ready to insure in a sound stock Company, like the Aetna, of Hartford, represented in Waynesboro' by Jos. Douglas, attorney-at-law: "Mr. Editor—You ask in your paper, of a recent date, 'How are you, Mutuals?' I am sorry to say that I am not feeling very well. That unregenerate chap, with the black carpet-bag, who induced me to take two policies, and 'become a (contributing) member' of a certain Mutual, not a thousand miles away, beguiled me with his flattering tongue, and his vehement assurance that his company 'had made but very few assessments since its organization, and in all probability would not make any more.' I was a stranger and he 'took me in.' I trusted to his representations. I received notice the other day that I was expected to divide losses with the other policy holders, and 'ante up' a good per cent. of my premium note in cash. I did so, and kept the matter to myself. But I find that a great many others have been served the same way, and on the principle, I suppose, that 'misery loves company,' they have hunted me up, and we have formed a 'Mutual Insurance Indignation Association.' We have paid our assessments, surrendered our policies, and sworn dire vengeance on the whole black-carpet-bag-mutual fraternity. Hereafter, if one of these mutual agents enters our premises, he does it at his own risk. We have had enough of mutual insurance, and hereafter intend to steer clear of all such swindling concerns.

Yours, indignantly,
POLLY HOLLER.

HORSE STOLEN.

A valuable horse belonging to Mr. Jonas Shockey was stolen from his stable near this place on Saturday night last. Mr. Shockey telegraphed to different points and has had parties searching for the thief, but up to latest accounts no tidings of either has been received. We have no description of the horse nor the reward offered. This is the second horse taken from our vicinity within a short time.

Would it not be well for farmers and others in Washington township to hold a public meeting, and form an association for the purpose of protecting themselves against horse thieves and burglars?

P. S. Since the above was put in type a dispatch was received from Harry Bonebrake, at Charlottesville, Va., announcing that the thief had been captured in that place on Wednesday evening and the horse secured.

FATAL ACCIDENT.

Our community was shocked on Saturday evening with the announcement that Mr. Geo. Summers, of this vicinity, was found lying on the road not far from his home in an insensible state. It appears he was on his way to this place, having left his home about 1 o'clock, and the supposition is that he was thrown from his horse, or stricken down with paralysis. In the fall he received a very severe wound on the forehead, fracturing the skull. He was removed to his home, and Dr. I. N. Snively summoned to his bedside, but all efforts to rouse him proved unavailing, and he expired in a short time. Mr. Summers was a useful citizen and among our most highly esteemed farmers. He was in the sixty-fourth year of his age, and a most exemplary member of the Lutheran church, perhaps from the days of his youth. His loss will be seriously felt and his death very generally regretted in our community.

TAKING THEIR PLACES.

On Wednesday, the 1st inst., Messrs. W. H. McDowell, T. M. Mahon and Harry Strickler vacated the offices of Prothonotary, Clerk of the Courts, and Register and Recorder, and Messrs. George W. Welsh, B. A. Cornum and Hiram T. Snyder entered upon the discharge of their official duties. The retiring officers carry with them the kindest wishes of the members of the Bar, who cheerfully bear testimony to their uniform courtesy, and close attention to business. We have no hesitation in saying that they have rendered entire satisfaction in their respective offices. The new officers gave an entertainment, at the restaurant of Mr. Reuben Miley, on Wednesday evening, at which were present the retiring officers, the members of the Bar and a few personal friends. The affair passed off very pleasantly.—V. Spirit.

A WORD IN SEASON.

The readers of the Record would do well to bear in mind that at the store of Reid & Waynant, they can now get oranges, lemons, Jersey cranberries, finest ever brought here; layer raisins and seedless raisins, currants, citron, new crop New Orleans molasses, fancy family flour, shucked oysters, pounded white sugar, cocoanuts, very best extracts of lemon, vanilla, strawberry, &c. In short, when you want to get up your table "fixins" call at the Family Grocery.

CAUTION.

We call attention to the notice of Mrs. Hess, wife of Jacob F. Hess, de'd, in to-day's paper. From what we can learn on reliable authority the physician referred to is innocent of the charges preferred against him. Persons should be careful how they circulate reports affecting the character or standing of another. It is a dangerous business.

An old chap in town.

got mad at his wife the other day, because she refused to call him a dear duck when he called her an old goose.

DEATH OF A HAGERSTOWN.

The Philadelphia Inquirer, states that Mr. W. Wise, an express messenger shot himself at a railroad depot in Cleveland, on Monday, adding that he left a note acquainting "whiskey friends," of being the cause of his crime. The full name of Mr. Wise is Wm. H. Harrison, but he was familiarly known among his friends as "Tip." He was the son of one of our oldest citizens, Mr. Richard Wise, bricklayer—and has been from his youth engaged in the position of Express Messenger to the Adams Express. He commenced his career as a messenger between Harrisburg and Hagerstown and has, through efficiency and service, been gradually promoted to the line between Pittsburg and Cleveland. We understand that the sad occurrence took place in his arm chair, as the train was entering the depot at Cleveland, and that when the dead body was discovered it occupied a sitting position in the chair, still grasping the pistol, while the note above referred to was found lying on the floor.—Hag. Mail.

WINNING WOMEN.

Keep your eyes open, boys, when you are after a woman. If the little dear is cross and scolds her mother in the back room, you may be sure you will get particular fits all around the house. If she apologizes for wiping the dishes, you need a girl to fan her. If she blushes, and is ashamed to be seen at the wash-tub with her sleeves rolled up, be sure, sir, that she belongs to, or is aspiring the odious aristocracy, has little breeding and little sense. If you marry a woman who knows nothing but to commit manslaughter on the piano, you have got the poorest piece of music ever gotten up. Find the one whose mind is right, and then pitch in. Don't be hanging around like a sheep thief, as though ashamed to be seen around in the day time, but walk up like a chicken to dough, and ask for the article like a man. That's business.

Dr. Paul Schoeppe, charged and convicted of the murder of Miss Steinecke.

at Carlisle, has written a letter in his own behalf, to his Excellency, Governor Geary, in which he says "he did not kill that woman. All she got from me was two grains of tartar emetic, and ten grains of pulvis ipecacuanha," which he alleges was "for the purpose of making her sleep." "In regard to the charge made against me that I had poisoned Miss Steinecke with prussic acid, I here swear before God, that Miss Steinecke never got one drop of prussic acid from me." He closes his letter thus: "Your Excellency will kindly allow me here to tell you this whole case was brought up against me. As soon as it turned out that Miss Steinecke had left a will making me her sole heir, people began to talk, I had poisoned Miss Steinecke in order to get her money. Many, very many persons grudge me this fortune. Your Excellency can be assured, had it not been for the money, I would never have been indicted. Already, long before the trial, and long before there existed an alleged corpus delicti, it was perfectly certain to the minds of the people here that I had committed a murder. All the witnesses of the Commonwealth who swore against me went upon the witness stand with the certain opinion in their minds that I was a murderer, and had poisoned this woman. They did not ask in the first place, 'Did this woman die by poison?' They said so—'Dr. Schoeppe has poisoned this woman; how can we now fix this case?'"

"I was a poor foreigner, without influential friends and powerful connections, whereas as the word of my public prosecutor was of great influence with public opinion. An immense prejudice was raised against me. Even intelligent men were not free of this. So, for instance, remarked ex-Judge Watts, long before the trial, 'They should not try Dr. Schoeppe at all; he ought to be hanged right away.' I am convinced your Excellency will not term such words 'justice,' for the law says 'crime shall never be presumed.'"

GOVERNMENT SALE.

The sale of the property belonging to the United States at Harper's Ferry was commenced on Tuesday last, 30th ult. Capitalists from abroad were present in considerable numbers besides a large concourse of men of wealth of this and adjacent counties. The interest felt by the citizens of the place was manifested by the presence of so many of them. There was a spirited contest for the principal works and lively bidding for minor property. The "Musket Factory" along the Potomac and vast Water-Power thereof, was the first offered and was started at a bid of \$10,000, by the B. & O. R. Co.—bids in opposition being made by several parties until the amount reached \$100,000, when the contest narrowed down to John L. Wilson, Esq., in the Railroad interest, and Capt. F. C. Adams, of Washington City, representing Northern means; bids between the two parties were then given thousand by thousand until the amount bid by the R. R. Co. was \$175,000, and by Capt. Adams \$175,000, at which sum the property was sold. As the result was announced cheer after cheer rent the air—the assembled residents seeming to read in the dim future a glorious record for Harper's Ferry.

"Hall's Rifle Works" was next offered and likewise started at \$10,000 by the B. & O. R. Co. and the same party (Capt. Adams) bidding in opposition. It was sold to him at \$30,000—the R. R. Co. having gone as high as \$29,000.

Next came the Ferry over the Shenandoah river, together with 63 acres of land adjoining, John W. Near, of Harper's Ferry, was the purchaser at \$1,750. The Perpetual Right to the Wood on 1395 acres of Mountain land was sold to C. King, of Harper's Ferry, for \$3,500. The "Friend's Ore Bank," with right to dig iron ore on 1600 acres of land, was purchased by W. C. Bradley, of Maryland, at \$1,310.

The property along Shenandoah street, including the old Arsenal and Pay Office lot, &c., was sold in lots 30 feet front, at prices ranging from \$1,500 to \$2,500 per lot, the aggregate of the one day's sales was about \$230,000. Two hundred lots remained to be sold.

THE SCHOEPPE CASE.

The following letter has been received by the Governor from chemist in New York: "New York, Nov. 30, 1889.—His Excellency, Governor J. W. Geary, Harrisburg: The undersigned, chemist by profession, have read in the papers that your Excellency has issued your warrant for the execution of Dr. Schoeppe, for the alleged crime of murder by poison.

We have examined with care the chemical testimony upon which such conviction was had. A criminal act is alleged to have been proven by the evidence of a chemist, who testified to having discovered in the deceased indications of prussic acid. This scientific witness stated with precision the experiments upon which his opinion was based. These experiments were conducted in such a way that they would have given evidence of the presence of prussic acid in any ordinary healthy stomach. The first step in the examination, that of treating the stomach with sulphuric acid, precluding the possibility of determining whether the faint traces of prussic acid claimed to have been discovered existed in the stomach as such, or resulted from the action of the sulphuric acid on the nervous fluids which must have lined the interior of that organ.

In view of these considerations, in the interest of scientific truth, and in the interest of a wise administration of justice, we have thought it our duty, though personally unacquainted with Dr. Schoeppe, to express to you this our opinion that the evidence of the presence of prussic acid, as such, in the stomach, upon which he was adjudged guilty, is insufficient to sustain his conviction.

According to the recent report of Adjutant General Thomas, who has charge of our National Cemeteries, the total number of white officers and soldiers, known and unknown, buried, is nearly five hundred thousand; and the number of colored soldiers nearly 50,000, two thirds of whom are not known by name. General Thomas states that the expense attending the burial or reinterment of their bodies, and the laying out and improving of the national cemeteries, has reached \$4,000,000, and he estimates that it will cost \$2,000,000 more to complete the work and keep the national cemeteries (of which there are thirty-five in number) in good order.
