Improved Thrashing Machine!

Daniel Geiser.
E. E. Price.

J. F. Offer.
Josiah Fahrney.

Farmer will please look at the great advantage in Thrashing Grain with

GEISERS' PATENT SELF-REGULATING GRAIN SEPARATOR, CLEANER AND BAGGER.

With the latest Improved Triple Geared Horse Power, driven either by Gear or Belt

No. 1 is a eight-horse power, with cast iron thrasher frame and wrought iron and wood cylinder, sixteen inches in diameter and thirty three inches long. Trunk has ten inch rake crank and seven rakes is thirty-five inches wide, and delivers the straw on the second rake, these carry the straw out on their tops, and deliver it on the stacker, which will deliver about thirty-five feet beyond the feeder, on a stack fifteen to eighteen feet high, and can be easily managed to carry the chaff with the straw, or deliver it in a separate place. The crank and fan sides being closed, to confine the straw and chaff, remedies all difficulties in cleaning grain against windy weather. It bags the grain by reasonable management, sufficiently clean for market, and its capacity, under ordinary circumstances, is from twenty to thirty bushels per hour, using eight horses at the same number of hands; but to force the work under favorable circumstances, it will thresh from forty to fifty bushels per hour, and with more ease and agreeableness to hands than any other machine now in common use.

The No. 2 Machine fully represented in the above cut, is particularly adapted to the farmer's use; in intended to apply to any common lever or railway power; weighs 1,300 pounds; has an iron thrasher frame, and cylinder, 12 1/2 inches in diameter and 48 inches long; delivers the clean grain in bags, or if desired in half bushels. It delivers the straw fifteen feet from the feeder, or if desired, can deliver the straw and chaff together; will thresh and clean, in good grain, nearly four hundred (400) to 175 bushels of wheat, or from 300 to 500 bushels of oats per day, using four or six horses, and the same number of hands; but to force the work, under most favorable circumstances, good grain, &c., will thresh and clean considerably more. The Machine will thresh and clean all kinds of grain generally threshed with the common machine, and requires no more horse power, but in many cases does not run so hard. It will apply very well to a two-horse railway power.

Now here is what the Farmer and thrasher in wants, a Separator to go from farm to farm, to thrash grain, with more satisfaction than any other separator now in use, and why is it? Because this separator has a self-regulating Blast, which prevents grain from blowing into the chaff, and also has a self-regulating feeder to feed the cleaner, and it has rollers and comes in the cleaner which prevents it from clogging. Why does this machine run so light, and give so little trouble? Because there is less friction in the Journals, and the rakes and fan are geared so that you have no trouble with their breaking and slipping, causing dust to fall into the wheat. Why does it clean against the wind? Because the blast has direct action on the grain and the cleaner is so well arranged that the wind has no chance to drive the dirt into the hopper. Why is it built permanently on two wheels and the front carriage separate, ready to attach when necessary? Because it is more convenient in the barn without the front carriage. You can turn the machine or run it from place to place more easily. Why has it not got elevators like some other machines? Because the Elevators carry the fifth back alternately into the cleaner which must eventually go into the good wheat or in the chaff, and all know, that fifth should be kept separate for feed, &c. We will clean, to light as well keep above the fallings from under our band fan into the hopper and expect to get the grain clean. Why is this separator more cleanly and satisfactory to work about than others? Because the Fan and Trunk sides are closed up to prevent the wheat chaff and dust from coming out and scattering over the floor, causing waste and giving much trouble with dirt and sore eyes, &c. Why do thrashermen get more work with these separators than they do with others? Because this separator has all these advantages and many more, which makes it a separator suitable and a paying one for all farmers and Thrashermen that have grain to thresh, what in most cases farmers must suit themselves to the machine, because the machine will do suit itself to the farmer. In short this is the cheapest, most durable, reliable, simple and most agreeable to work about, and the only separator that will clean and bag the grain sufficiently clean for market under all circumstances.

Farmers can rest assured that this machine is no mistake, and judging from the high recommendation of farmers that are using them, we must come to the conclusion that it is the very Machine that farmers want and will have as soon as they have an opportunity to appreciate and attest its merits, for which we hope they will give us an opportunity, as we are willing to be responsible if it does not perform as represented in this Circular.

A reduction of 2 per cent on all orders handed in on or before the first of April, 1868.

Shop Prices of Machines range from \$215, to \$540.

We warrant the machines to be as above represented; also against any reasonable defects of material workmanship, &c.

DANIEL GEISER Proprietor.
Geiser, Price & Co., Manufacturers.
WAYNESBORO, FRANKLIN CO., PA.

Null's Pat. Post Boring Machine.

PATENTED MARCH 24, 1868.

STATE AND COUNTY RIGHTS FOR SALE.

A series of trials of this machine has convinced the inventor and all persons who have witnessed its operations that it is superior to any other in use in the following particulars:

LABOR SAVING QUALITIES—
EASE OF OPERATION—
SIMPLICITY OF CONSTRUCTION

This machine is constructed so as to be operated either by hand, horse, water or steam power. It has 25 to 30 posts can be bored per day; by one-horse power from 100 to 150 per day; by two-horse power 200 per day, and by water or steam power from 200 to 300 per day. It is also a self-feeder. The subscriber is now prepared to dispose of State and County Rights for the above valuable invention.

FOUTZ'S HORSE AND CATTLE POWDERS.

This preparation, long and favorably known, will thoroughly invigorate broken down and low-spirited animals by strengthening and cleansing the stomach and intestines. It is a sure preventive of all diseases incident to this species, such as LUNG FEVER, GLANDERS, YELLOW WATER, BRUISES, SCURF, &c. It increases the appetite, gives smooth and glossy skin—and transforms the miserable, emaciated animal into a fine-looking and healthy horse.

To keepers of Cows this preparation is invaluable. It is a sure preventive against Rinderpest, Hollow Horn, &c. It has been proven by half a paper to a paper in a barrel of milk to increase the quantity of milk and cream twenty per cent, and make the butter firm and sweet. It also cures the milk from becoming rancid.

In all diseases of Swine, such as Coughs, Typhoid, the Lung, Liver, &c., this article acts as a specific. By giving from one to half a paper to a paper in a barrel of milk to increase the quantity of milk and cream twenty per cent, and make the butter firm and sweet. It also cures the milk from becoming rancid.

DR. P. FAHRNEY'S PAN-ACE-A

GOOD SEARCHES OF

"Dr. P. Fahrney's celebrated Blood Purifier or Panacea" is a medicine that we can recommend to those who are afflicted, having used it in our own family and furnished our friends with a certificate we can, therefore, from experience say that it is a medicine possessing rare medicinal properties. Being a mild purgative, it is never violent, and is safe in families where there are children or those subject to colds or other ailments. It is compounded from medicinal Root, roots, gums, Seeds and other ingredients which are said to be entirely free from poison. We are personally acquainted with the proprietor who was one of our family physicians, until the great Panacea for all diseases shall be found in the leaves of the tree of life.—Christian Family Companion.

Sold by P. Fourthman, Waynesboro; Hirschew & Gebr. Ringgold; Wm. B. Raley, Quincy; J. J. Smith, Mt. Alto; L. J. Bell, Smithsburg, Md., and Druggists generally.

NOTICE

WARRIEN, my husband Jacob F. Hess, has died, leaving a large estate, which he had been subject to all his life time, and not under the influence of medicine, as has been reported by some loose, reckless characters, in order to break down the practice of the attending physician, who tried his utmost to save him. I will therefore caution the public not to believe such reports as they are positively not true.
