Congress reassembled on Monday. A bill was introduced in the House to increase the National currency to \$300,000,000 and fund the debt at 4 1/2 per cent. coin interest.

Brigham Young is very much excited about the proposed action of Congress concerning the Mormons. He is reported as advocating armed resistance should Representative Callahan's bill become a law.

Advices received from Ohio are to the effect that the chances are in favor of the ratification of the Fifteenth Amendment. The Senate will certainly agree to it, and it is now believed the House will do the same.

The Washington Star says that a package containing \$30,000 was stolen from Adams Express Company, in that city, between Saturday evening and Monday morning last.

The Washington National Intelligencer has "gone dead" a second time. It was started up a few months ago by Alexander Delmar, as a Free Trade organ, but the cause is too weak to sustain an organ at Washington.

It is stated that just before Mr. Stanton left the War Department, he sold the largest part of his library, which in 1863 was one of the finest in the country, in order to meet his current expenditures. The great characteristics of the man were well understood by the country, but it is only since his death that many beautiful incidents illustrating his noble qualities are becoming generally known.

In the House of Representatives on Tuesday the bill for the admission of Virginia was reported from the Reconstruction Committee. It sets forth that the people of the State are believed to be well disposed towards the National Government, and having complied with its requirements, the State shall be admitted into the Union. The conditions imposed are that those persons who held office as members of Congress, Legislature, or any executive or judicial position under the United States, and afterwards engaged in rebellion, shall not again hold office, unless relieved of their disabilities by Congress. The laws of the State shall not be changed so as to take away from the colored race its present political privileges. The bill, together with Mr. Bingham's substitute, was sent back to the committee.

Ayer's American Almanac, for the next year, has arrived for delivery gratis by the Druggists to all who call for it. This little annual has the largest circulation of any book in the world, made by the fact that it furnishes the best medical advice which is available to the people—enables them to determine what their complaints are and how to cure them. It contains the starting announcement of the *conflagration of a world*, or the combustion of one of the stars in the firmament with all its attendant planets.

Governor's Message.

Gov. Geary's Message was sent to the Legislature on Wednesday, of last week. The following is a synopsis of its contents:

The message opens with a reference to the blessings of health and prosperity enjoyed during the year, and urges the responsible nature of the duties devolving on the Legislature.

The State Finances are represented to be eminently satisfactory. The receipts from all sources during the year amounted to \$8,254,686.65 and the expenditures to \$3,868,774.10 leaving a balance of \$4,385,912.55 in the Treasury.

The State Debt on the 30th of November, 1869, was \$32,814,540.95. At the beginning of Gov. Geary's administration in 1867 it stood at \$27,704,400.77. Since then the debt has been reduced \$4,889,960.22, of which \$472,400.18 was paid the last year.

The Governor renews the recommendation that the Legislature require the large balances accumulating from time to time, in the hands of the State Treasurer, to be invested in State bonds, whereby a large saving to the Treasury would be secured, and the dispendious annual scramble for that office done away with.

There are within the State 1,971 school districts; 18,986 schools; 3,445 graded schools; 12,900 school directors; 79 superintendents, 17,142 teachers, and 815,753 pupils. The average cost of tuition for each pupil is ninety-seven cents per month. The total cost of tuition for the year is \$3,500,804.26. Total cost including expenditures of all kinds during the year, \$6,980,148.92. Estimated value of school property \$14,045,632. It is estimated that 85,000 children are attending private schools, leaving 75,000 out of 975,753 children in the State not attending schools of any kind.

The whole number of children admitted into the Soldiers' Orphan Schools since their establishment was 4,509; 307 have been discharged on orders, 518 on age, and 58 have died, leaving 3,681 at the end of the year. It is estimated that \$534,500 will be required to support these schools during the next year.

The Governor recommends the establishment of a Home for Disabled Soldiers, and the adoption of suitable legislation to bring the insurance companies of the State under proper control—to prevent the recurrence of such disasters as the Avondale mining slaughter—to secure a proper inspection of gas and gas metres wherever used, and sundry other matters pertaining to State administration.

The Message closes with a brief reference to National affairs. The Reconstruction measures of Congress are endorsed. A judicious protection and encouragement of American manufactures, labor, and products, is urged. The struggling Cubans receive a kind word, and the Governor thinks the National Government should in some way give them a helping hand. He opposes any construction of national currency, and holds that while an early resumption of specie payments is desirable, it should not be forced by injudicious legislation.

A Bridegroom gets Drunk

The Port Hope Canadian says that a couple residing in the rural districts, not far from town, were engaged to be married, and were "called" three times in one of the town churches. On the day fixed for the celebration of the ceremony the happy couple came to town arrayed in all the glory of new store clothes, bringing with them a brother of the bridegroom, who was to officiate as best man, and who the result proved, was fully entitled to that character.

Leaving the blushing damsel in charge of his brother, the intended husband adjourned to a bar-room to get "securing hot" to cheer his spirits under the trying ordeal through which he was to pass.

After waiting a reasonable time for his appearance, his affianced and the rest of the party grew uneasy, and finally, an expedition was organized to go in search of him. They discovered him in the tavern in a comatose condition, and reported that fact to the proper quarter. The bride bore up bravely under this trial, declaring that she did not care a cent, he was a good-for-nothing drunken wretch, and she was glad to get clear of him.

Moreover, she was not going to be humbugged that way out of getting a husband; she came to town to be married, and married she was determined to be—to the first man that would take her. Rather than see the girl disappointed about a trifling like that, the brother, who came to do the "best man" business volunteered to be her victim himself.

The bargain was soon made, and off he started for a license, returning in a short time, when they were married and started for home, leaving the other individual to enjoy the spree as best he could. The affair was created no little talk and much merriment among those acquainted with the facts, and the intended husband is now having a rough time among the wags.

HEAVY DAMAGES.

In the great suit of John S. Perry against Jagger & Littlefield, which has been before the United States Court for the past seven or eight years, and for three years or more before the Hon. A. A. Boyce, of Ohio, appointed as Master, to ascertain and report the gains and profits made by the defendants in violating the assignments and infringing the patents under which the celebrated Oriental Stoves are manufactured and sold, we learn that a report has been made awarding to Mr. Perry as damages, the sum of \$52,747.82.

Some thousands of Stoves that were sold by the Littlefield Stove Manufacturing Company are understood not to be included in this award, but are to be the subject of further proceedings.

ALZHEIMER.

This is a newly discovered article to be used for a hair dressing, which is said to be superior to anything of the kind yet placed before the public. It renders the hair soft and glossy, and will, it is said, cause the hair to grow on scalps which have long been bald, and, yet it will not operate on the roots of the same when applied, as to restore it to its original color and luxuriance in a very brief period of time. It is beyond question, a very superior thing, and will more than fill the expectations of any one who may purchase it.—*Syracuse Paper.*

Brackbill still continues to frame all kinds of pictures at the Diamond Gallery.—Give him a call.

The weather for the past few days has been unusually mild, too spring-like for mid-winter.

We understand several parties in town and vicinity, took advantage of the late cold snap, and succeeded in getting their ice houses filled.

Claimants for Border Damages are requested to call on Jos. Douglas, Esq., this week and get their papers properly adjusted. This will be the last opportunity given.

COACHMAKING.

We refer our readers to the advertisements of Jacob Adams and Geo. B. Hawker in to-day's paper. These gentlemen are first-class mechanics, and should be liberally patronized by the public.

GOOD TEMPLARS.

We are requested to say that the presence of the members of the Independent Order of Good Templars is requested at the Basement of the M.E. Church, this (Friday) evening.

A meeting was recently held at Fairfield, in Adams County, at which a Company was organized with the view of building a turnpike between that place and Gettysburg. A committee was appointed to solicit subscriptions.

DENTISTRY.

Persons desiring the services of a Dentist, will find Dr. A. K. Brackbill a skillful operator, and we are gratified to learn that he is being liberally patronized. He occupies the office on Mechanic Street, formerly used by Dr. T. D. French.

BIG LOAD.

On Thursday of last week, Mr. John A. Barr hauled with six horses, from Williamsport to Middleburg, one hundred and thirty-three hundred weight of coal. His must be a model team of draught horses. Can any of our Iowa farmer patrons beat this "pull"?

CALL ACCEPTED.

We learn from the Echo that the esteemed Pastor of the Lutheran Church in this place, Rev. A. Babrum, has accepted the call to the Lutheran congregation of Greencastle, and will enter on the discharge of his pastoral duties on the first of April.

STABLE BURNT.

We learn that the stable at Pikeville, on the premises of James Hovis, was destroyed by fire on Wednesday morning last. The building was occupied by a man named Favorite. A valuable cow perished in the flames, and its contents, hay, fodder, &c. were consumed.

FURNITURE, &c.

We direct special attention to the mammoth furniture establishment of I. H. Whitmore, of Greencastle, advertised in to-day's paper. Mr. W. has the largest as well as the finest selection of furniture, carpets, &c. in the county. Persons in this region desiring articles in his line will do well to give him a call.

A FARM SOLD.

Mr. Valentine Harbaugh, residing in Harbaugh's Valley, has recently sold his farm, containing 145 acres, more or less, for the sum of \$7,250, to his brother Washington Harbaugh, and intends moving to Friend's Cove, Bedford county, Pa.

SEVEN TRAUMAS.

Advertising has created many a new business; has enlarged many an old business; has rescued many a lost business; has saved many a failing business; has preserved many a large business, and secured success in every business. He who hath ears to hear, let him hear—and advertise in the Record.

ARRESTED.

We learn that the notorious John Sites, an account of whose conduct in connection with Frank Kurtz, in the United Brethren Church, at Quincy, we gave some time since, was arrested by officer Heister in his home on the night of the first inst. He is now quartered in Fort Fletcher, with his accomplices in crime.

THANKS.

Hon. D. Watson Rowe, of Chambersburg, will accept our thanks for a copy of a neatly bound sketch of the 120th Regiment of P. V., giving an authentic account of the Regiment, by one of its officers. It will certainly be prized and preserved by the officers and privates of the 120th. The price of the book is \$1.00, which is very low. The proceeds from its sale are to be applied for the benefit of the "Franklin County Soldiers' Monumental Association."

Rev. L. R. Swinney,

Near Blue Rock, on the 26th of December, 1869, Mrs. MARY MAGDALENA HARBAGH, aged 86 years and 3 days.

In the full exercise of her mental powers, while her children were standing around her bed, she turned her eyes upon them, and with a smile, said: "It is all right. Why do you weep? I would not live always! With comforting evidence that she was leaving them in Christian hope and peace, she closed her eyes, and without a sigh or a struggle joined her sainted husband in that better world where parting comes not. She leaves six children to mourn a loss which the gracious favor of God alone can compensate. O, God of their father and mother, be their God! In this new outgrowth of filial grief, and in memory of a mother's radiant life, how naturally the plaintive inspiration rises from the stricken hearts: Mother, dear mother! why linger away From the home of thy loved ones; O why so long stay? Thy place so lonely, so desolate, drear— All seems so changed when mother's not here! Without thee, dear mother, our home is like night; Our doors are not fair, our skies are not bright; I'dly we wander the long hours away, Mother, dear mother! O why dost thou stay? I know that thy spirit is still with us here, That on loved golden pinions thou'rt hovering near; Thy why so long linger from pleasure away? Haste thee, dear mother! why linger away? C. S. H.

Ayer's Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. Faded or gray hair is soon restored to its original color, with the gloss and freshness of youth.

This hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a party sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous, and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a
