ROBBING THE TREASURY. -- We are gratified to notice that a number of the most prominent and influential journals are outspoken in their condemnation of the recent action of our Liegislature in granting an appropriation of \$9.500.000 for Railroad improvements, which is really to enhance the interests of that powerful monoply, the Pennsylvania Central Railroad company. The Gettysburg Star and Sentinel says, in audacious robbery of the State Treasury, it out Herod's anything in the past listory of the State. While the press of Philadelphia and Pitthburg were bitterly assailing the Border Damage Claim bill as a "raid" on the Treasury this buge swindle was meturing under the auspices of Philadelphia and Pittsburg lobyists. When all was ready, noses counted, and its passage ensured, the bill was emigration to the United States has greatly sprung and rushed through with an indecency of hase that only equals the villainy of the bill. Under the guise of aid to newly projected railroads, the bill at one swoop takes nine millions and a half of collars from the Sinking Fund. It passed the Senate by a vote of 20 to 12, and the House by a vote of 59 to 34. To make the "ring" hig enough to ensure the swindle, sops were held out to various sections of the State. The bill has gone to the Governor, and we hope he may have nerve enough to resist the lobby influence which proved so potent with the Legislature, and veto it.

In brief, the bill gives \$6,000,000 of first class Mortgage Bonds of the Pennsylvania Railroad to the "Jersey Shore, Pine Creek and Buffalo Railroads,' a company which had no existence until last week, and which proposes to build a road from Jersey Shore, Lycoming county, to a point in McKean county, connecting there with the Buffalo road -the new Company to substitute an equal amount of Bonds of their own, which may or may not be worth a dollar. But six millions of dollars were wanted, and in the absence of capitalists willing to take the risk, the Sinking Fund is robbed wholesale. The \$3,500,000 guaranteed Bonds of the Allegheny Valley Railroad, now in the Sinking Fund, are parcelled out to three companies, organized to build roads in Clearfield, Green, Allegheny and Erie counties-these companthan the regular monthly average since lies to also to substitute an equal amount of their own bonds. Thus the Sinking Fund is robbed of nine and a half millions of dollars of first slass Bonds, worth par, to be supplied by Bonds of an inferior security. and problematical value. We do not hesitate to affirm that so flagitious a bill could sever have gone through on its merits, or without corrupt agencies, and all who voted for it should be held up to public indigna-

Hon. C. M. Dancan, of the Senate, and Capt. G. W. Skinner, of the House, voted for the bill.

THE PROTESTING MORMONS - At a mass meeting of the Mormons at Great Salt Lake City, a protest to the two houses of Congress was adopted against the passage of the Cullom bill for the suppression of polygamy. These protesting Mormons represent that the population of Utah Territory is about one hundred and fifty thousand, of which all except from five to ten thousand persons are of the Church of Jesus, Latter Day Saints; that they have reclaimed the desert and made it fruitful, quieted the Indians, made roads, built cities, &c., and that the people who bave done this are believers in polygamy, not simply as a social relation, but as a principle of religion "underlying our every hope of ultimate salvation and happiness in heaven;" that this revelation was given to Joseph Smith as an everlasting covenant, and that if the saints 'abide not in that covenant then ye are damned."

There are some strong points-says the New York Herald-in this protest; but it certainly is none the less evident that the institution of Mormon polygatoy cannot re- ped from our list unless satisfaction is given main much longer in Utah. If not removed by the government it will be removed by what these Utah raints call the "Gentile mob" It is, then, the duty of the government to provide in some way for the removal of Mormon polygamy, but it is also the duty of the government to 'deal justly and kindly with the Mormons. The Cullom bill of pains, penalties and military terrorism is not the thing. From the very indulgences so long granted by the government even the poor Mormons have some rights which must be respected, and in the results of their wonderful industry in the deserts of Utah \$1,000. they have contributed so much to the development of all those new States and Territories west of the Rocky Mountains that they cannot, upon any plea of justice or morality, be treated as out laws. Give them time and of apoplexy. He was fifty years of age, and give them liberal terms and the Mormons themselves will quietly remove their "peculiar institution" from our borders, for the work they have done in Utah in almost any in the merchantile business, it will be seen, other country would yield ten times the profits they have reaped from their labors.

A stringent gambling bill has been passed by the legislature. It is the duty of constables to watch and ferret out gambling houses, and they are subject to punishment for neglect. Gamblers are to be punished by a fine of not more than \$1.000 and imare rejoicing with joy everywhere, and are prisonment of not more than five years, and going to have on the 16th at Washington's hotel and saloon keepers must not allow any grand demonstration, at which the colored kind of gaming on their bremises. The relatives of those losing money, may and Childrens shoes, a complete assortment, just recover the same in court.

non In an editorial on the subject, the Balto, American says of the Western Maryland Rail Road Extension; that it icis in the hands of Northern capitalists, who have already \$30,000,000 invested in the coal fields of Maryland, and we know that no time will be lost by them in the construction of a road to develop their property. Indeed, this new road to their mines will of itself advance the value of their coal fields to the extent of three times the cost of the road and its stock. They will, we learn, ask no aid from the city of Baltimore or the State of Maryland for the construction of this great Maryland work, which, when completed, will be regarded as the greatest of all the railroad lines of the State, and the most advantageous of all of them to the growth, prosperity and business of Baltimore city.

Senator Schurz has done a good thing by introducing a bill fixing one day throughout the Union for the election of Representatives and Delegates to Congress. His bill provides that these elections shall take place on the Tuesday following the first Monday in November, a day which several States have already adopted. Had this bill, says an exchange, or one like it, passed ten years age, it would have saved us, not only riot, bloodshed and loss of life, but a whole series of contested election cases. No persons will likely object to it except those whose interests incline to disorder and tumult.
