GEISER'S PATENT SELF-REGULATING

GRAIN SEPARATOR

CLEANER, BAGGER AND POWERS.
 No implement more important to the farmer than a FIRST-CLASS GRAIN THRESHER AND CLEANER—for none pays him so well and speedily.
 The above cut shows the ONLY GEISER MACHINE now on the market, and the eye of the old veterans themselves, with all the additional improvements made during the past 18 years, and now with first-class workmen and material this machine justly stands high above all of its class. As a Thresher it is equal to the best, as a Cleaner it is superior to any existing machine. This is admitted by all honest competitors. It is the only machine that really can, by one operation, thoroughly thresh and clean grain fit for market. But the fact that grain direct from this machine commands from 2 to 3 cents a bushel more than grain direct from any other machine, settles the question of its superiority, as a cleaner over all others. Impartial judges at all the State and County Fairs where it was thoroughly and practically tested, in competition with other leading machines, always agree that it is more simple—more easily understood and operated by those unskilled in machinery—more durable—thrashing as much and yet cleaning better—without loss of power and more comfortable to handle than any other machine in use—and, besides, all this it does for less money according to capacity. These facts are further attested by the thousands of purchasers, some of whom have had them in use for the last 18 years. To supply the wants of all, we now make 4 sizes, viz: From a 3 Horse Railway or 3 Horse Lever Power, to a ten Horse Lever power, with prices ranging from \$180 to \$350, without power, we also make the latest improved triple-gear Horse Powers suitable for each size machine ranging from \$80 to \$185, and all fully and fairly warranted. For further information send for Circular and Price List.
 Responsible Agents wanted in territory not introduced. Address: THE GEISER MANUFACTURING CO., WAYNESBORO', Franklin Co., Penna.
