The merits of this Machine consist, in part, in the attachment of curved knives to the arms of the cutting-wheel, the shearing out across the mouth-piece, the great power and directness of the blow, by which treble the volume of material is cut, with less power than is required by any other Machine; those combined with its durability and simplicity of construction, command public attention. Nothing liable to get out of order, but what a boy could remedy with a pocket wrench.
County rights throughout the State of Pennsyl-

vania will be sold on the most reasonable terms.— Persons desiring the right of said Machine will address the undersigned.

The above Machine is now on exhibition at the

office of the Waynesboro' Manufacturing Company. Persons interested should call and examine it, for it is what every tormer should have. H. C. GILBERT, Proprietor, Waynesboro', Pa. BENJ. F. STOUFFER,

THE MORNING GLORY POR 369.

For sale at W. A, TRITLE'S new Stove and Tin Store He has on hand a targe stock of the above

There is added to the Morning of this year an oven, which is neat in appearance. It is a good Baker. You can heat Irons Bake, Boil, Roast, Stew, and it does not interfere with the operations as a Parlor Stove,
In regard to the blast of some Stove Dealers,
who say that their particular stove takes less coal

and gives more heat than the Morning Glory, you can put that kind of talk down as a Blow-well, as the Morning Glory has been sold (in this part of the country) for four years, and in that time I have put out over three hundred of them, and never had to take one back because it would not do its work

or it was not what I sold it for. Now that cannot be said of any other stove ever offered in this market. That is the proof which is the stove.

I have other styles or heating stoves for coal or wood. Heating Furnaces put up and warranted. My Cook Stoves are of the best in market for coal er wood, all warranted good Bukers. Also a new Parlor Cook Stove, something that can't be excelled.
