

# VILLAGE RECORD.

## WAYNESBORO,

### Thursday September 1, 1870.

Horace Greely on Friday last was nominated for Governor of the State of New York, by the Workingmen's Central Union, a local political organization.

The *Sunday Mercury*, a New York paper, has been sued for \$500,000 damages by Washington Nathan for charging him in his last issue with murdering his father.

The *N. Y. Tribune* paid \$2,280 in gold for the mere transmission of the account of the battle of Gravelotte from London to New York.

Every Prussian soldier carries a piece of parchment attached to his uniform, on which is written his name, company, regiment &c., so that the fate of every soldier killed in action can be accurately ascertained.

Some idea of the magnitude of the work of taking the 9th census may be gained from the fact that from twelve to fifteen hundred volumes, of one thousand pages each, will be required in which to enter the names of the individuals returned by the Assistant Marshals.

Hon. John P. Kennedy, of Maryland, died at Newport, R. I., on the 19th ult., in the 75th year of his age. He was Secretary of the Navy under Mr. Fillmore's administration. As an author he had many admirers.

It is officially stated from the Treasury Department that the only instruments exempt from stamp duty after the 1st of October next are promissory notes for less than \$100 and receipts for any sum of money on the payment of any debt.

The next Legislature of this State will have the apportionment of the Congressional and Legislative districts, the first for the next ten years, the second for seven. Both of these are now fixed by the same Legislature for the first time since 1861. The same thing will not occur again until 1941.

The Greenville National Union announces that ex-President Andrew Johnson will not be a candidate for Congress—for the same reason, perhaps, that Louis Napoleon will not dictate terms of peace from Berlin.

The War Department has addressed each of the Governors of the States within which national cemeteries are situated, asking that they lay before the respective Legislatures a proposition to give their consent to the purchase of these sites by the general government.

At Girardville, Pa., the car or wagon used by miners in entering and leaving the coal mines in which they were employed, got off the track. Seven men were precipitated to the bottom of the mine, a distance of about one hundred yards. Six were killed outright, and one injured beyond recovery. Three of the unfortunate men were brothers, named Taylor, and the killed, with one exception, leave large families.

The Baltimore *American* advertising to the Prussian advance on Paris, says: "The French Committee of Safety and the Commanding General have shown a purpose to defend the city with all the means in their power, but for what length of time is it provisioned? A million and a half of people require an enormous amount of food. A siege of Paris too suddenly became a probability to allow of supplies being gathered to sustain them for six weeks, perhaps not for a month. Prince Frederick William has only to surround the city and allow exhaustion and starvation to force its capitulation. With Paris once in the hands of the invaders, King William may dictate his terms of peace. The Prussian plan of campaign has been to bring the war to a close as early as possible. Bazaine's and McMahon's armies might now be attacked and probably annihilated, but King William can bring about a less bloody solution of the conflict by capturing Paris. Hence it is that an early close of the war is entirely within the range of probability, and justified by the present position of affairs at Paris and in the field.

The following resolutions were passed at the recent meeting of the Executive Committee of the Union League of America:

Resolved, That this Committee heartily sympathize with the German people in their prewar war with Napoleon, recognizing, as we do, that it is not a contest between the French people and the Germans, but an effort on the part of an unprincipled adventurer to disturb the peace of Europe for his own personal aggrandizement.

Resolved, That the subordinate Councils throughout the United States be requested to manifest their sympathy by donations in aid of the local societies, and by resolutions showing our sincere sympathy with Germany, its friend of education and of civil and religious liberty.

Some one has made the estimate that there are twelve deaths from coal oil explosions each day in the United States.

The democrats of the third Ohio district have thrown Vallandigham over board, and nominated Hon. L. D. Campbell for Congress.

Mrs. Mary Gray, who lives in Greengroup county, Ky., is 111 years old, with a family of children the youngest of whom, the baby, is sixty-five years old.

The march of the Prussians on Paris continues slowly, a London despatch placing the King's headquarters at Bar-le-due and the advance at a point between Chalons and Epervan, while the cavalry scour the country for many miles further on. A despatch from Paris says that the Prussians were passing through Nancy towards Chalons, and that the siege of Toul had been abandoned. The Prussian scouts had out the railway between Montmedy and Metz, twenty miles northwest of Metz, but they were repulsed by the French sharpshooters and the railway repaired. The force of Germans which marched northward to Stenay, where a combat was reported to have taken place on Saturday, has fallen back a few miles to Dun. The French account of McMahon's position is that his force of about 185,000 men extends from the valley of the Aisne to the Luxembourg frontier, with his centre at Ardennes. Bazaine has about 90,000 men at Metz. McMahon will hold himself in readiness to march either towards Metz or Paris, as circumstances may demand. The French are fortifying the city of Bourges, 123 miles south of Paris, and it is said the French Government will be removed to that point. By way of Paris there are reports of various skirmishes with the Prussian cavalry, in which they are said to have been repulsed. A London despatch makes it the plan of McMahon to turn the right flank of the Prussian army and strike their line of communication at St. Amand, thirty miles in the rear. At Paris all is confusion and dissension, a difference having occurred between General Trochu and the Government, and his dismissal from command demanded by the Emperor. M. Thiers was placed on the Committee of Safety, and accepted the appointment on Saturday. A Paris letter expresses the belief that a Committee of Safety will be formed and the Emperor deposed. A Paris despatch says that the Prussians attacked Verdun on Thursday and were repulsed. A Berlin official despatch says that Vitry, near Rheims, was surrendered to the Prussians on the same day, seventeen officers and eight hundred and fifty soldiers being captured. The Crown Prince has issued a proclamation to the French people telling them that the war is not against them but against the Emperor, and that they have nothing to fear. The statements in the Paris papers of the repulse of Steinmetz on Tuesday and Thursday last are not confirmed. There was a great public jubilee at Berlin over the victories. The bombardment of Strasbourg and Plalzburg still continues, but without any decisive result. The Prussians have a reserve army of three hundred thousand forming in Germany to follow the forces already in France. The latest despatches say that numerous rumors of battles are afloat in excited and dissatisfied Paris. The Prussian strength amounts to 720,000 men, three of which are still in reserve. On Thursday McMahon's army arrived at Reims, and on Friday started for Metz, accompanied by the Emperor and the Prince Imperial.

P. S.—Later London despatches state that a great battle took place on Sunday between the armies of McMahon and the Crown Prince, but which was undecided at the time of writing.

ALASKA.—Where on this globe can we go beyond the omnipresent Yankee? Landing at SITKA, we had walked but a short distance into the town when we reached the northern depot of Dr. Ayer's medicines in full display among the huts, shanties and courts of these boreal tribes. There the familiar, homelike names of his Cherry Pectoral, Pills, &c., salute us from the exterior and the interior of a store which shows more business than its neighbors, and proves that these simple but sure remedies are even more necessary to savage life than to ourselves where they visit every fairside. —*Alexand. Journal.*

GOOD FITTING GLOVES.—Merchants who would avoid trouble in fitting their customers with all sizes and all kinds of Gloves, and people generally who would save themselves trouble in getting just such Gloves as they may want to fit them, narrow of broad hands, their long fingers or short fingers, or odd shaped hands, with either Kid, Dog, Buck or Sheep Skin, Merchants should call at Updegraff's Hat, Glove and Fur Factory, opposite the Washington House Hagerstown. A splendid lot of No. 1 Dog Ladies should call and see their New Dog Gloves. *Gents' Furnishing Goods.* A complete line of New Fall Goods for Gents and Boy's wear will be opened early next month. We are safe in advising the reader that Updegraff's is the place to buy his Collars, Cuffs, Shirts, Drawers, Stockings, Handkerchiefs, Suspenders, Shirt Bosoms, Canes, Umbrellas, &c., &c.

A MELANCHOLY EVENT.—Our readers will be distressed to learn that Mrs. McClure, wife of Hon. A. K. McClure, was taken to Kinkbride's Insane Asylum, Philadelphia, on Monday, the 22d inst., in a deplorable condition of insanity. For some months past she manifested alarming indications of disordered intelligence. Indeed, six years ago she gave such unmistakable evidences of mental derangement, that a consultation of medical and other friends was held, as to the propriety of placing her under hospital treatment. —*Repository.*

A "quack doctor," named J. W. Bechtel, formerly of this county, was last week arrested and committed to jail at Harrisburg for committing an abortion and causing the death of Lillie Mason, a girl aged about 18 years. The scoundrel was committed to prison upon the dying confession of the girl.

NEW FIRM.—It will be seen by reference to our advertising columns that Mr. J. F. Reinger has associated with him in the Tailoring business Mr. John Hollingsworth, of Smithburg, Md. Mr. H. is a finished and experienced workman. Success to the new firm.

DON'T DRINK.—Boys, don't drink. It may be fashionable. It may seem smart. You may think that, like a moustache, it looks manly. You may say that Mr. A. and Mr. B., who hold prominent positions in the world, have guzzled for forty years. This may be true. Many moderate drinkers arise to distinction, but they reach eminence not on account of this failing, but in spite of it. They would be more successful and more esteemed without it. Just look around, and see if you can find one man or woman who has been made better or happier by drink. You will not find one. On the other hand, you will see wrecks all along the shore. You will see men whose lives are failures solely by drink. It may have commenced in the social circle, where wit and beauty added their charm to the sparkle of the wine. It may have commenced at the "respectable" saloon to which men are sometimes driven by the mistakes at home. But it too often ends in the lowest and last place to which fallen men go.

The last cure for "chicken cholera" is kerosene oil. A lady of this place who has tried the remedy says it is a certain cure. A half-teaspoonful is administered to the chicken.

### SINGING SCHOOL.

A good singing school is one of the wants of our town, and we are gratified to learn that Mr. P. Dook, a practiced musician and experienced teacher, has been encouraged to open such a school. The youth of our town for years have been sadly neglected in this respect, and now that an opportunity is offered we trust our citizens generally will avail themselves of its advantages.

# FAHRNEY'S

CELEBRATED

## BLOOD CLEANSER

OR

# PANACEA

PREPARED AND SOLD BY

*P. Fahrney & Co.*

CHICAGO, ILL.

AND

### DR. P. FAHRNEY'S BROS. & CO.,

WAYNESBORO, PA.

The above will at once strike the eye as the Trade Mark of the genuine "Dr. FAHRNEY'S BLOOD CLEANSER OR PANACEA," of which Dr. P. FAHRNEY, of CHICAGO, ILL., is the sole proprietor. The great demand from the Middle and Southern States for this medicine, made it necessary to open another Laboratory at Waynesboro', Pa., which is conducted by Dr. P. FAHRNEY'S BROS. & CO. Since then the "Blood Cleanser" has been grossly misrepresented by other parties, and what makes it still more painful is the fact that the name of our deceased relative (the late Dr. D. Fahrney) is prostituted for the purpose of carrying out these diabolical schemes, when it is well known to very many that he was engaged in an untimely grave several years ago; at a time, too, when his successions were not able to take his place in the profession, hence his name is used to swindle the public.

"Notice.—We wish to inform the public that the 'Preparations' now being out and extensively advertised in many newspapers, etc., purporting to be old Dr. Fahrney's Blood Preparations, &c., are none of his, and are not countenanced by our firm at all. We neither advertise or put out any of our preparations." D. FAHRNEY & SON.

Dec. 10, 1868.

The above is what Dr. Fahrney is made to say one year after his death, and in another circular just published, and in some newspapers, he is again made to say (two years after his death) something about these preparations. This undoubtedly has reference to FAHRNEY'S BLOOD PURIFIER, prepared by Dr. J. FAHRNEY, Philadelphia, and FAHRNEY'S BLOOD CLEANSER OR PANACEA, prepared by Dr. P. FAHRNEY, Chicago, Ill., and also by his brothers at Waynesboro', Pa.

In order to protect ourselves and the public against such misrepresentations, it becomes necessary to say that old Dr. Fahrney left his practice to two of his sons. The oldest, Dr. Jacob Fahrney, located near Waynesboro', Pa., where he practiced his profession until within eight days before his death, which was brought about by much business. His youngest son, Dr. P. Fahrney, was then left in charge, and the "Blood Preparation" was put up in liquid form by Dr. J. Fahrney, Jr., eighteen years ago, and was brought to its present high degree of perfection by his brother, Dr. P. Fahrney, of Chicago. These two are now the oldest physicians in the Fahrney family, and are willing to be qualified before any Notary Public that their preparations are GENUINE. It must, indeed, be humiliating for those who are mere babies in the profession, after making such efforts to injure our business, to come out and imitate the same, when they are not able to hold their lucrative practice left them by the late Dr. Fahrney.
